Very truly yours, SHASTA COUNTY PROMOTION AND DEVELPOMENT LEAGUE,

Per Rosecoe J. Anderson, Sec. To this Secretary Streets replied as follows:

Dear Sir.

We have your favor of January 6, and you have asked a fair question and will endeavor to answer. Last year at a convention in Portland so great that the company planned to build three additional hotels in the park, this will give some idea of the park as a community assett.

Explains Attractions.

in Crater Lake, Medford southers Oregon have a natural wonder which for grandeur and beauty is not equalled in the world, and if our national park and lake is properly advertised it will bring thousands of exposition visitors this year to see it. in September, 1913, scientists and hotanists of Europe accompanied by heads of American universities came to Medford in their private car and were taken to Crater Lake by Mc :ford auto owners to study the ake and inspect the curious rock formations and big trees in the park, the foreigners were prominent lecturers from universities in Zurich, Geneva. Edinburg, Copenhagen, Berlin, Amsterdam, Munich, Cambridge, Heidelburg, Oxford and Odessa. They were men who travel all over the world and declared over their signatures that Crater Lake has no parallel on earth, and greater than anything in Europe. European men of learning said this. They went back to their universities with data and photographs and delivered lectures and with magazine articles on "Wonderful Crater Lake and Oregon Forests."
