HUNDRED ACRES AT GOLD HILL

Despite the unfavorable weather conditions the beet sugar meeting at Gold Hill yesterday afternoon was the most successful thus far in the campaign to secure 5000 acres to make the establishing of the factory a possibility. The extent of the interest and enthusiasm of the landowners of that vicinity is best illustrated by the fact that yesterday 100 acres were signed up and that the committee in charge of that locality state that 500 more can be secured. Many who are interested and willing to sign up were not present at yesterday's meeting and will sign today. The meeting was very encouraging and citizens of that section have impressed the beet sugar men by their progressive spirit.

Saturday will be beet sugar day. On this day committees from the various localities will meet with the committee in charge and go over the situation as it stands. At this meeting reports will be made and it is thought it will be definitely known whether or not the valley will secure the factory. All citizens of the valley who are desirous of seeking southern Oregon progress are urged to be in attendance.

BUTTE CREEK ITEMS

Last Thursday and Friday, Mr. Chase and Mr. Pitman visited the schools of this vicinity. The chief purpose of Mr. Pitman's visit was to get an idea of what the rural schools were doing and what their requirements were. This way he could get an idea of how the teachers should be prepared at the state normal. He seemed to be especially interested in the arithmetic classes.

He gave some very rousing lectures while visiting several of the schools, the first being made at Brownsboro, where there was quite a crowd present. He spoke on the subject of standardizing rural schools, telling what the schools should be and how the teachers should be prepared. The most interesting part of his speech was the comparison of the schools and school teachers of the present time with those fifty years ago. He not only aroused great, but his lecture was mingled with a countless number of jokes and boasts which brought the whole house down with laughter.

Every one was pleased with his lecture and said that he was the best speaker that they had ever heard. Mr. Chase and Mr. Pitman visited the Butte creek school Friday, January 8. They got here just as school was taking up in the morning. They heard the arithmetic classes recite.

About 10:30 o'clock Charles Terrill brought his thoroughbred Belgian stallion up to the schoolhouse. Mr. Chase then took charge of things and they had a horse judging contest. Each of the pupils had a score card and judged according to the specified items on the card. The horse scored all the way from 80 to 90.

This horse is a royal Belgian, raised by the king of Belgium. He was imported to Oregon by the Denver Horse Importing company. The horse will be 8 years old in February and weighs about 1800 pounds.

Mr. Pitman made a speech to the school, which made all the scholars nearly kill themselves from laughing. They left about noon, and you may be assured that the school was very sorry to have such a fine speaker leave.

Friday evening, January 8, Mr. Chase and Mr. Pitman made a speech in the Lake Creek schoolhouse. Mr. Chase was the first on the program. He talked about the improvement of country schools and the need of a union high school in this vicinity. He talked about the attendance in the Lake Creek school, stating that in the past three months there was a gain of 4 per cent over the term of six months' school last year.

Miss Julia and Helen Sidley were pleasant callers at the home of Mrs. H. A. Meyer last Tuesday.

Gus Edler of Lake Creek returned home after spending a few days in Medford.

There was a dance at the home of Charles Terrill last Saturday night. A good time was reported.

When he finished speaking Mr.

Pitman came to the front and began his speech, which consisted of a good variety of jokes that brought to view some important points in school life. He told of the use of a normal school in instructing teachers, the need of supervisors and the assistance of the school board. He told how the parents could aid in keeping a good attendance in school and why the school board should pull together in building up the school and making it more interesting for the teacher and pupils.
