A Fine Mid-Winter Issue

The January Sports Afield comes well up to the high standard this magazine has maintained for 20 years. It presents three more stirring chapters of Sunset Camps and Trails, in one of which is staged a hand-and-claw fight between Mr. Elliott and a wounded mountain lion. The boy Sullivan also distinguishes himself by killing a half-dozen wild turkeys at long range with his small calibre repeater. Dustin White, with an article on Snowshoe Strolls, has the aroma of the snow-covered pine woods in every line. S. D. Barnes has a human interest story, The Pearl of Independence, which will delight the heart of every man, woman and child who reads it. The Last Swan Hunt gives us a graphic account of shooting these big birds down on the Salton Sea, in California. There are

articles paying tribute to the hunting dog; a stirring account of a hunt in the Sierra Madre of Mexico; an article on The nestling of Baits, which every fisherman should ponder well; and a capital account of shark fishing in Florida waters. The department Around the Camp-fire is unusually interesting, and there are also many breezy, chatty articles upon various phases of sport that will appeal to all classes of outdoor people and nature lovers. Your newsdealer can supply you. If not, send 15 cents to Sports Afield, 542 So. Dearborn St., Chicago, Ills.

SUGGESTS SCHOOL CHILDREN TAKE UP BEET INDUSTRY

To the Editor: Some of our farmers say they can't grow sugar beets; don't know how and not willing to learn how. I believe there are boys in our public schools who can grow sugar beets.

I make the following offer: To the five boys who are attending our Medford schools and who make first application, I will give a cash prize of \$5 to the boy who grows the best crop of sugar beets on a given number of rows of equal length. I will donate the use of the ground on which the beets are to be grown and will plow and harrow the ground. After that is done the contestants must do the remainder of the work and furnish the seed. The contestants can have all the beets they grow and sell the beets and have all the proceeds for their own use. The contestants must be boys 12 years old and not over 15 years old.

A crop of barley was grown on the land last year which I propose to furnish for the beets, and was plowed last fall. I will plow the ground again free of charge and put it in the best of condition.

This offer is void unless the beet sugar factory is erected in the Rogue River valley. The ground on which the beets are to be grown is near enough town so that the work will not interfere with their school work. L. B. WARNER.
