

NATIONAL AID FOR GOOD ROADS FAVORED BY BOARD

WASHINGTON, Jan. 20.—The final report of the joint congressional committee on federal aid to good roads was submitted to congress today.

The report was drawn by Hon. Jonathan Bourne, Jr., chairman of the committee, and is concerned in by six other members of the committee.

Summing up advantages of good roads the report says:

"Systematic efforts and co-ordination of nation, states and counties will make American highways the best in the world, bring remote agricultural lands within practicable hauling distance from railroads, materially raise the value of farm products, enhance the margin of profit on farm products, vastly increase the average daily attendance at rural schools, raise the standard of rural education, make the motor truck an economical vehicle for American farmers, lighten the labors of American horses, save wear and tear on harness and wagons, and add to the comfort and happiness of all rural residents."

Commodities Hauled

The report estimates the total quantity of commodities hauled over rural roads at 700,000,000 tons annually, costing now an average of 21 cents per ton mile, or \$1.89 per ton for the average haul of nine miles.

Large Aid Favored

"We believe that when the United States government undertakes so important a problem as that of federal aid to good roads, it should undertake it in a large way. To undertake it in a small way means a continuation of the policy of patchwork and consequent waste of funds, with slight permanent results to show for the expenditure, and would bring to the criticism of having established what is commonly called a 'pork barrel' from which the several states would receive annually a small contribution of funds distributed over a large mileage of roads without producing the high class of public roads which are so much needed and desired. We believe that before congress adopts a plan the whole subject should be so thoroughly studied that the plan decided upon may be enacted into law with confidence that it will remain practically unchanged on the statute books for many years to come, thus standing for many years as a credit to the congress which enacted it.

To Avoid Dictatorship

As a means of guarding against dictatorship from a bureau in Washington, the report suggests that the membership of the national highway commission should include members of the senate and house of representatives who shall constitute a majority of the commission, thus insuring the states an appeal to congress from any arbitrary and unsatisfactory rulings of the bureau head, who would be a minority member of the commission.

The report includes data concerning the road systems of foreign countries and of the several states, extensive statistical data bearing upon

various plans of apportionment of federal funds among the several states, statistics regarding good roads expenditures, bond issues, etc., the character and condition of highways over which rural mails are carried, special rates accorded by railroads for transportation of highway material, a resume of all pending good roads legislation, and the most complete bibliography of good roads literature ever published.

Bourne's Service Free

The report also includes an itemized statement of expenditures showing that from the total appropriation of \$25,000 the committee has expended \$16,730, leaving a balance of \$8,270. Since his retirement from the senate March 4, 1913, Mr. Bourne has served as chairman of the committee without compensation and paid his own expenses.

TURKS SURPRISE ENGLISH GARRISON

CONSTANTINOPLE, via Berlin and London, Jan. 20.—Announcement is made here that during a night attack on the English forts located on the Shat El Arab river, in Arabia, the enemy was taken by surprise and lost 100 in killed and wounded.

An English cavalry division attempted to surprise a Turkish cavalry division near Kurna, near the junction of the Tigris and Euphrates rivers. The attack was made under the protecting fire of a gunboat, but the English suffered heavy loss and the gunboat withdrew.

An Indian expeditionary force is operating in the region at the head of the Persian gulf. It was officially announced early in December that the Turkish forces at Kurna had surrendered unconditionally and that the place was subsequently occupied by the British, thus giving them control of the country from the junction of the Tigris and Euphrates rivers to the Persian gulf.

CRACOW WOMEN ORDERED TO LEAVE

GENEVA, via Paris, Jan. 20.—Dispatches from Budapest state that the governor of Cracow has ordered the partial evacuation from the city and its suburbs of women, children and men unfit for military service. They have 48 hours to leave. The men over military age, but who are still active, have been formed into a civil guard. The banks have been transferred to Vienna.

Provisions of all kind, it is stated, are scarce in Cracow. The Austrian war office has issued an order calling up all of the Landsturm men, up to and including those aged 60. The order applies throughout the Austrian empire.

NOTICE FOR BIDS

Notice is hereby given that the county court of Jackson county, Oregon, will at its next regular meeting in February, to-wit, on the 3rd day of February, 1915, take up for consideration the proposals of auto truck owners for the hauling of buck-shot gravel from McAndrews hill near Medford, to various points on the public highways within a radius of 10 miles therefrom.

The loading of the trucks will be done by steam shovels at the expense of Jackson county.

The actual amount of gravel to be hauled can not be definitely given at this time, but it is probable that the quantity will be sufficient to keep a number of auto trucks going during the entire season that is good for road building.

The party submitting the bid will be required to show the price per yard per mile.

Address all bids to the undersigned marked "Sealed Bids." The county court reserves the right to reject any or all bids.

G. A. GARDNER, County Clerk.

ORDINANCE NO. 820

An ordinance to regulate the use of the streets by motor and other vehicles in the city of Medford, Oregon, during any fire therein.

The city of Medford doth ordain as follows: Section 1. It shall be the duty hereafter for every person driving upon or using the streets of the city with any sort of vehicle, immediately upon the sound of the fire alarm, to proceed to the curb on their right of such street and remain standing until the fire truck or trucks or other vehicles used by the fire department have passed such point so occupied by any such person, or until such person has learned that the fire department, with its vehicles used for fighting fires have taken a course that would preclude their passage upon or over such street or such portion thereof so occupied, when such person may proceed upon their way.

Section 2. It shall hereafter be unlawful for any person driving or operating any sort of motor vehicle in or upon the streets of the city of Medford to drive such vehicle closer than 100 feet from any fire truck, wagon, or other vehicle used by the fire department when such fire department is proceeding to or returning from any fire, or while standing or engaged in fighting any fire in said city.

Section 3. Any person convicted of, or who shall plead guilty to a violation of any of the provisions of this ordinance shall be fined in any sum not less than \$5.00, nor more than \$50.00, or by imprisonment in default thereof not less than two nor more than 25 days.

Section 4. Inasmuch as the traffic which this ordinance seeks to regulate is constantly present in and upon the streets of said city, and there is every likelihood that such traffic will continue, and inasmuch as it is for such reason necessary for the immediate preservation of the safety and convenience of the inhabitants of the said city that such traffic should be regulated, and that this ordinance should become operative, an emergency is hereby declared to exist, and this ordinance shall be in full force and effect immediately after its passage by the council and approval by the mayor.

The foregoing ordinance was passed by the city council of the city of Medford, Oregon, on the 13th day of January, 1915, by the following vote: Medynski, "aye"; Mann, "aye"; Sargent, "aye"; Amy, "aye"; Miles, "aye"; and Hargrave, "aye."

Approved January 19th, 1915. V. J. EMERICK, Mayor.

Attest: E. T. FOSS, Recorder.
