ROCKEFELLER MAKES DENIAL (Continued from Page 1.)

sible for the exercising them properly.

"Anyone who has followed the controversy that has arisen out of the Colorado situation would have observed that no effort has been spared to make it appear that I have attempted to exercise a kind of absolutism over the coal industry in Colorado and particularly that I have sought to dictate a policy of non-recognition of unions. An attitude toward industry and toward labor such as is here implied, is so abhorrent to me personally and so contrary to the spirit of my whole purpose and training, that I can not allow these allegations to pass unnoticed.

Favors Labor Unions "What are the facts? First with reference to my attitude toward labor unions: I believe it to be just as proper and advantageous for labor to associate itself into organized groups for the advancement of its legitimate interests as for capital to combine for the same object. Sometimes they (labor unions) provide benefit features; some times they seek to increase wages, but whatever their specific purpose, so long as it is to promote the well being of the employes having always due regard for the just interests of the employer and the public, leaving every worker free to associate himself with such groups or to work independently, as he may choose, I favor them most heartily.

Discusses Colorado "As respects the question of the recognition or non-recognition of labor unions in Colorado, my attitude has been in conformity with the views I have expressed relative to the duties of stockholders, directors and managers. The hiring and discharging of men and the framing of agreements as respects the same are functions which I have regarded as rightfully belonging to the management and not to the stockholders or directors. The Colorado Fuel & Iron company has been managed on this principle. The decision of the officers with respect to the recognition of the Union was reached without any consultation or communication with me and I had no knowledge of their decision until after the strike had been declared.

HINDUS SMUGLED IN DENIED STAYING WIT

SAN FRANCISCO, Jan. 25.—Federal Judge Dooling refused today to stay the deportation of six Hindus brought here from Seattle, for passage on the steamship Persia. PRINCESS AUERSPERG AT THE FRONT WHILE BRIDE SUED FOR DIVORCE IN NEW JERSEY

Princess Florence Elsworth Hazard Auersperg, who is well known in society in America and abroad, has instituted proceedings for a divorce in Trenton, N. J. The Princess, who is a daughter of the late Edward C. Hazard, a newspaper manufacturer, charges that her husband, Prince Francis Maria Joseph Auersperg, son of a one-time Premier of Austria, deserted her after her father's death because she would not place her inheritance in the Prince's name. After accusing her husband of extravagance, with a proclivity for gambling, she alleges that he sent her to her mother and during her absence sold all the furniture in their New York apartment. Despite her pleas for a reconciliation, she says he remained obdurate, and after leaving her he lived in Texas. He is now at the front with the Austrian army. Miss Hazard met Mr. Prince when she, scarce turned fifteen, loved him and married him a year later.

CRUISER KARLSRUHE SINKS ELEVEN SHIPS

BERLIN, Jan. 25, (by wireless).—It is reported from Leipzig that the German cruiser Karlsruhe has sunk 11 commercial ships during the last fortnight.

Leipzig is in Central Germany, several hundred miles from any port. It is not likely that news concerning the Karlsruhe, in the ordinary course of events, would reach Leipzig in advance of Berlin.

The Karlsruhe is one of the few German warships still on the high seas. She has sunk a large number of British and French vessels, successfully eluding hostile warships that for weeks have been pursuing her. January 21, it was reported that the Karlsruhe had been sighted off Moro, Porto Rico.

RIOTING RUMORED HUNGARIAN TOWNS

VENICE, Jan. 25, via London.—Trustworthy details of the reported economic disturbances in Hungary and Bohemia are difficult to obtain. In Venice about all that can be said is that Hungarian newspapers reporting here contain statements issued by the local authorities of several Hungarian towns, who protest that they are not responsible for the disturbed condition of the country.

The Moravian Diet has passed a resolution declaring that the Czech population is not responsible for the rioting in various districts, which is not the result of an organized movement, but merely isolated instances of disorders.

Conditions in Agram are reported to be particularly serious.

LIE IS PASSED AT ENGINEERS HEARING

CHICAGO, Jan. 25.—A dramatic situation was presented before the board of arbitration in the western railroad wage case today when O. F. Modenbach, a fireman who a month ago testified that William W. Thompson, his engineer in the winter of 1908-09, jumped from the engine and was injured, was confronted by Thompson. Thompson denied the incident in detail. Modenbach was recalled to the stand and insisted that his previous testimony was correct.

Modenbach testified that he and Thompson were running on the Oklahoma division of the Chicago, Rock Island & Pacific railroad when suddenly confronted by the red signal of danger, which proved to be a surprise test. Both jumped, he said. Witness escaped with bruises, but Thompson struck a whistling post, sustained a broken collar bone and was laid up for three weeks.

Thompson said if he had ever had a broken collar bone he guessed he would know about it.

LARGEST SALE OF TIMBER IN OREGON

PORTLAND, Jan. 25.—The largest sale of timber land made in the Pacific northwest in several years has just been closed by the Doschtes Lumber company, with headquarters at Bend, Or., with the Shevlin lumber interests of Minneapolis, Minn., aggregating 60,000 acres and involving a consideration of, it is understood, of approximately \$1,000,000. T. L. Shevlin is the principal factor in the deal for the Shevlin interests.

With the purchase of this tract the Shevlin interests now own a body of yellow pine timber in central Oregon of about 180,000 acres. They have been investing in Oregon timber land for a number of years, and next to the Weyerhaeuser Timber company they are the largest holders of yellow pine timber in the state.

DESPERATE BATTLE WITH TURKS IN CAUCASUS

PETROGRAD Jan. 25.—An official statement issued by the General staff of the army of the Caucasus says: "In the region beyond the Chorokh river our troops continue their desperate fight against the Turks, who occupy positions which have been strongly organized.

"There have been no engagements of importance on the other fronts, nothing but the ordinary rifle firing."

KANSAS COERCION LAW INVALID SAYS SUPREME COURT

WASHINGTON, Jan. 25.—The Kansas so-called coercion statute, making it unlawful for any individual or corporation to coerce or influence any persons to enter into an agreement not to join or remain a member of a labor organization as a condition of such person securing or continuing in the employment of such individual or corporation, was annulled today as unconstitutional by the supreme court.

The decision was regarded as of the first importance in the labor world and was announced by Justice Pitney. Strong dissenting opinions were given by Justice Holmes and Justice Day. Justice Hughes concurred with Justice Day, leaving Chief Justice White and Justices McKenna, LaMar, Vandevanter and McReynolds concurring with Justice Pitney.

The decision was in the case of T. B. Copping, a superintendent of the St. Louis & San Francisco railway at Fort Scott, Kan., convicted of violating the law in threatening A. R. Hodge, a switchman, with discharge if he did not sign an agreement to withdraw from the switchmen's union.

The more laws and commissions the politicians create for the "benefit of the people," the larger grows the army of office holders and the higher the taxes climb to support them, and the "benefited people" pay the bill and continue to await for the "benefits."

FIRST PHONE TALK ACROSS CONTINENT

NEW YORK, Jan. 25.—Alexander Graham Bell, inventor of the telephone, sat today in the office of Theodor N. Vail, president of the American Telephone and Telegraph company and talked across the continent to San Francisco. It was the first time in the history of telephone construction that the human voice had been carried by wire from ocean to ocean.

At the San Francisco end of the wire was Thomas A. Watson, who heard the first word ever spoken over a telephone wire in Boston in 1875. Mr. Bell was then at the other end of the wire as now.

NEWARK, N. J., Jan. 25.—A special dividend of 50 per cent totalling \$7,000,000 was declared today by directors of the Fidelity Trust company. The directors also voted a bonus of 10 per cent of salaries to all employees.

KEEP THE KIDNEYS WELL

Health Is Worth Saving, and Some Medford People Know How to Save It

Many Medford people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers.

The following statement leaves no ground for doubt.

Ezra Arnold, Applegate road, Jacksonville, Oregon, says: "My back bothered me for five or six months. I had a dull pain through my kidneys and the kidney action became irregular. I had to get up at night on that account. I was told to try Doan's Kidney Pills and did so with fine results. They soon did me of all the ailments. My kidneys have bothered me very little since."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Arnold had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.
