FRED L. COLVIG, Treasurer of Jackson County, Oregon.

NOTICE FOR BIDS. Notice is hereby given that the county court of Jackson county, Oregon, will at its next regular meeting in February, to-wit, on the 3rd day of February, 1915, take up for consideration the proposals of auto truck owners, for the hauling of buck-shoot gravel from McAndrew Hill near Medford, to various points on the public highways within a radius of 10 miles therefrom.

The loading of the trucks will be done by steam shovels at the expense of Jackson county.

The actual amount of gravel to be hauled can not be definitely given at this time, but it is probable that the quantity will be sufficient to keep a number of auto trucks going during the entire season that is good for road building.

The party submitting the bid will be required to show the price per yard per mile.

Address all bids to the undersigned marked "Sealed Bids." The county court reserves the right to reject any or all bids.

G. A. GARDNER, County Clerk.

GERMANS PROTEST AIRSHIP SHIPMENTS TO BELLIGERENTS

WASHINGTON, Jan. 25.—Germany protested today to the state department through her ambassador, Count Bernstorff, against shipments of American hydro-aeroplanes to the European belligerents on the ground that such aircraft are war vessels.

A statement issued by the embassy today says: "The Curtiss works at Hammondsport, N. Y., have sold and sent to England the well-known hydro-aeroplanes 'America' and five hydro-aeroplanes of the same type. Thirty-six hydro-aeroplanes of a different type have been ordered by England and are under construction by the same firm. Also Russia has ordered a number of these vessels from Curtiss for use in her navy."

"There is no doubt, and it does not need any explanation, that from the standpoint of interest law, hydro-aeroplanes have to be considered as war vessels, and that therefore by article 7 of the agreement concluded at The Hague on October 18, 1907, neutral countries are prohibited to supply belligerent countries with such vessels. The selling of hydro-aeroplanes by the Curtiss works, therefore, constitutes a breach of neutrality. Hydro-aeroplanes are not especially mentioned in The Hague agreement for the simple reason that this kind of war vessel did not yet exist at that time."

WAR PRICES FOR WHEAT STILL SOAR

CHICAGO, Jan. 25.—War prices for wheat soared higher than ever. May delivery touched \$1.45 3/4, a rise of 1/4 as compared with Saturday night. The highest previous quotation since European hostilities began was on January 21, \$1.45 3/4.

Offers of wheat today were light and the buying demand excellent.

VIENNA REPORTS RUSSIAN DEFEAT

LONDON, Jan. 25, 10:46 a. m.—Although Vienna reports via Amsterdam enlarge upon Austrian successes in Bukovina, claiming that the Russians are retreating with heavy losses of munitions and prisoners, a wireless dispatch from Vienna early today, giving an official communication there says only this about the fighting in that region: "In Bukovina quiet reigns after our last successful battles."

The communication also tells of fighting in the Carpathians as follows: "In the Carpathians the Russians were driven out of several trenches which they had pushed forward south of the passes."

REPRESENTATIVE VAWTER NAMES TWO LOCAL CLERKS

Fine Mt. Tabor Portland residence \$10,000, will exchange for a valley ranch.

C. D. HOON WHY?

A word to those who are coming back. Land for the past six months has been hanging at rock bottom prices. A great deal of liquidation has taken place in this time. My business alone in the last half of this year has amounted to nearly \$100,000 I believe the last four or five deals I have made represent absolutely the bottom. Land with rental value of \$30 an acre will not long remain at \$200 an acre. There will be no boom but land values will improve some. Good roads, irrigation, saw-mill, box factory, cheap power, sugar beets, canning factory, good prices, satisfied customers, perfect days.

Hurry, see Medford first and
