In both these regions there had been a return to the old style of German battering, the men being products is evident. hurled forward in close formation at reports say, little permanent gains.

In Russian Poland the Germans are holding some ground in front of but the recent German onslaughts on the western battle front, military officials assert, almost invariably have resulted in failure to consolidate the positions gained.

It is suggested that Field Marshal mander, is again hammering toward the Polish capital with the idea of holding there Emperor Nicholas' crack troops, which otherwise might be transferred to the Carpathians, man forces still are fighting in the mountain passes. Neither side has been able to force the other onto the

crucial point on the western front, and the British troops congregated in the neighborhood have suffered heav-ily.

### WANTS AMERICA TO PROTECT INVESTORS

WASHINGTON, Feb. 3.-Samuel McRoberts, vice-president of the National Cit- bank, addressing the third annual convention of the chamber of commerce of the United States, which began here today, urged greater seeurity for our investments abroad. "In the Orient, in the Caribbean, in the northern part of South America, in Mexico," he said, "we have the opportunity to do great constructive work, and by so doing win a place of our own in the future commerce of those lands. The uncertainty protection stands squarely in the way. If you want to do anything in these countries, the standing advice is to 'get under the English, French or German flag'."
