

### BUCKEYES PLAN OHIO DAY MEETING TUESDAY, MARCH 2

ASHLAND, Feb. 15.—Buckeyes will observe Ohio Day, Tuesday, March 2, this year. A committee consisting of J. S. Smith, chairman, Mayor Johnson, W. B. Smith and Mesdames Cambers, Slingerland, Helman and Hall, met in the Commercial club rooms Saturday and perfected arrangements. The reunion will be held in Moose hall. Mesdames Cambers, Gregg and Hall constitute a program committee. The 1915 gathering will be the tenth annual event. J. S. Smith is president; W. S. Hall, vice-president; W. B. Smith, treasurer and O. H. Johnson secretary. The membership is limited to natives of Ohio, adoptive residents not being eligible except as associates.

**To Prescribe Mineral Waters**  
A meeting of city physicians has been called to form an organization for the purpose of investigating the therapeutic properties of Ashland's mineral waters, compare notes and adopt methods for prescribing these remedial agencies to best advantage.

**Ashland High Wins**  
Ashland high won over Roseburg Thursday and Saturday nights at basket ball, the first event by 19 to 10, and the second 24 to 6. On Thursday night the score was 6 to 4 in the first half in favor of Roseburg, but the second half went heavily against the visitor. Preliminaries Saturday night were won by Talent girls over Ashland girls, 12 to 9. The Corvallis team will play here on Thursday and Friday night. Results thus far this season place Ashland in line for state championship competition.

**Auto Schedules**  
Revised auto schedules in the service between here and Medford would seem to indicate a curtailment in the facilities, but such is not the case. The taxi timetable simply refers to the Hall line only and relates more particularly to afternoon trips between the terminals. The Ashland "steamer" keeps up the morning trips as usual. The Interurban management has placed another big car on the route. If anything, the service is being increased instead of decreased, and at present one can make the trip at almost any hour during the day.

**Newspapers in Runaway**  
Charley Banta's thoroughbred Hambletonian, "Black Magic," ran away Friday night, ditching the Mail Tribune, Oregonian and Sacramento Bee, and smashing the speedy delivery outfit. For the time being traffic was suspended on Almond and Manzanita streets. The animal was captured by Homer Billings at the base of Clarence Farnham hill on North Main street, after an exciting chase.

**Publicity Work**  
Messrs. V. O. N. Smith, G. W. Seager, F. G. McWilliams and F. E. Watson, officials of the local Commercial club went to Medford Saturday night for another conference with the neighboring organization over advertising features in which a community of interests is involved. City Engineer Walker went along also, to assist in the work of mapping tourist outing routes in an official directory which deals with these matters.

More and bigger fish are working their way up through Rogue tributaries this spring than for years past. Clear creek is lined with fishermen and steelheads weighing from four to six pounds, have been caught within city limits.

### MASKED ROBBERS ROB WASHINGTON TROLLEYS

WASHINGTON, Feb. 15.—Two masked robbers entered a trolley terminal not far from the capitol today, held the cashier at bay with revolvers and got away with \$2,000. While one of the robbers held the clerks back, the other went through the cash drawers and scooped into a sack the coins turned in by conductors, and rolls of bills ready for the bank.

### PERMIT WILHELMINA'S CARGO TO BE SOLD

LONDON, Feb. 15.—The foreign office announced definitely this afternoon that if the cargo of the American steamship *Wilhelmina* should be diverted for the relief of the distress in Belgium the decision to send her cargo to a British prize court would be reconsidered. Otherwise her cargo must be submitted to the decision of the court.

### GIANT LOCOMOTIVE ARRIVES FOR USE SHASTA DIVISION

ASHLAND, Feb. 15.—The Southern Pacific is introducing some mammoth locomotives in the passenger service. They are of the Mikado type, superheaters. Two have already arrived and three more are due for the Shasta division, while four will be assigned to the Portland division. The two in service on the Portland division are numbered 3262 and 3263 and weigh 442,000 pounds each. They are 82 feet long, six feet in excess of accommodation on the local turntable. They are built at Lima, O.

**Storm Wreckage**  
The wreckage caused by last Sunday's storm is about all cleared up. The Southern Pacific suffered the most. Its large car shed, 60 feet by 150 long, had to be taken entirely down in order to pave the way for rebuilding. Its roof and sides were sheathed with corrugated iron. The Oregon-California Power company, with its superb equipment and substantial construction, stood the storm in good shape. From \$30 to \$40 will cover damage to the city light and power plant. Telephone lines got hit the hardest and for a few days a force of twenty-five men was in this vicinity straightening out the tangle.

**Young Couple Wed**  
Bert Mattern and Miss Laura Garrett were married at Yreka last Thursday. Bert is the son of Mr. and Mrs. H. Mattern and is associated with his father in the development of extensive mining properties in Siskiyou county. The bride is the daughter of Mr. and Mrs. Robert Garrett, pioneers of this section, and is a native daughter of Jackson county. Some time since she was chosen to represent this district in an excursion of young ladies to Yellowstone Park, an outing held under the auspices of the Oregonian.

Elmer Hastings, painter, and a newcomer here, formerly of Cottage Grove, has been recently granted a patent on a new device in the way of spring wagon tongue, which, in the opinion of vehicle dealers, is an important improvement.

Hum Pracht is acting landlord of the depot hotel, while Julian Wolf, proprietor, is taking in the sights at San Francisco exposition.

### FOUR IMPORTANT BILLS THROUGH LOWER HOUSE

SALEM, Or., Feb. 15.—Four important acts intended to aid in developing some of Oregon's latent resources were passed by the house last week.

Probably the most important of these was Representative Forbes' bill ratifying the lease of the state land board to Jason C. Moore and associates of Summer and Albert lakes, in the southern part of the state.

Of almost equal importance was the adoption of Representative W. O. Smith's measure to legalize condemnation of state or federal land in construction of public utility enterprises. The third measure was the Dacey-Irvin-Eaton bill to provide for the organization of hydro-electric districts in rural communities.

The fourth bill was passed by the house today. It was offered by Representative Hinkle and empowers the state to sell annuities to its citizens and use the proceeds for investment of approved development projects.

### LANE STARTS SHAKE-UP IN INDIAN AFFAIRS

WASHINGTON, Feb. 15.—A big shake-up in Indian affairs, it was predicted here today, will result from a joint congressional committee investigation, to be started in the Osage country soon after congress adjourns.

Chairman Robinson of the senate committee on Indian affairs promised a complete expose, adding: "Members of the Osage in Oklahoma have been grossly mistreated. Persons have been lending money to noncompetent Indians and have been charging them from 40 to 10,000 per cent interest."

A recent report on the condition of Indians on the Blackfeet reservation in Montana by Senator Lane of Oregon also helped to stir the house and senate committees to action.

"Starvation," said Senator Lane in his report, "is the primary, though indirect cause of many deaths there. This seems to be due to carelessness or lack of official fidelity to a sacred trust."

### TIMBER WOLVES SLAY HOUND AT WILLOW SPRINGS

GOLD HILL, Ore., Feb. 15.—Down from the Willow Flat wilderness, on upper Evans creek, comes word that cougar hunting is still a pleasant and profitable midwinter pastime.

Fred Brown and Charles Pennington, bounty hunters and trappers from Weed, Cal., have added two more pelts of the mountain lion variety to their list of trophies. Within less than one month the hunters have tracked down and killed six cougars.

Woodsmen claim that a conservative estimate of the cougar appetite is at least 25 deer per year, without venturing to estimate the loss in native pheasant, grouse and small fur bearings upon which the lion preys. If this be true, six cougar times 25 deer, means a net saving to the state of Oregon of 150 deer for the year 1915. To date the cougar chasers have discovered the remains of 36 deer—all slain by the tawny hunters of the woods.

All is not joy, however, in the timber. Aside from the sometimes formidable job of tackling a snarling, splitting 10 foot cat, there are other perils lurking in the quiet shadows of the pines. To one of these the courageous and inquisitive "Bugle" offered up his canine career.

"Bugle" was chief trailer of the hunters' cougar dogs. He instructed the pups in the variety of scents they encountered, was first to bay at the treed lion, and foremost in the scrimmage. He was a wise dog and a good one—until he strayed alone upon the trail of the timber wolves.

Brown and Pennington heard "Bugle" sound the advance on a new trail one day last week. Shortly afterward they followed and came upon the evidence of his last fight. Torn ground, blood, hair and unmistakable wolf signs bore testimony to the spirited mongrel's fight for life. In a gully, but several paces distant, his mournful masters found the pelt of the pack, mangled and silent.

"Bugle" was mostly fox hound, of peculiar and uncertain pedigree.

A Duluth corporation is after iron mines on Rogue river.

### FAIL TO INDICT MOSQUITO RANGER STATION THIEVES

PORTLAND, Feb. 7.—The case of A. H. Lewis and H. A. McGinley for larceny from the Mosquito ranger station on the Crater national forest, was held before the grand jury in Portland on February 6. Although the defendants pleaded guilty, the jury failed to indict, the evident reason being that the men had been sufficiently punished by being in jail for two months.

On or about December 4 these two men broke into the Mosquito ranger station and stole a quantity of government property. As soon as the matter was discovered an investigation was started. Tracks were found from the ranger station to the cabin where Lewis and McGinley were stopping, a search warrant obtained, the cabin searched and the government property found in the cabin. The men were arrested and taken before United States Commissioner Canon at Medford and held to await the action of the grand jury. In default of \$200 bail the men were committed to the county jail at Medford and later removed to Portland. They admitted their guilt, stating that they had been lost and intended to return the property, but were arrested before they could do so. That this was simply an excuse was shown not only by the fact that they lived only seven miles from the ranger station and it was ten days from the time the goods were stolen until the men were arrested, but by other circumstances equally convincing.

### \$50,000 FOR MONMOUTH NORMAL SCHOOL BUILDING

SALEM, Or., Feb. 14.—By a vote of 21 to 8 the senate voted an appropriation of \$50,000 for erecting a building for training work at the Oregon State Normal school in Monmouth. It was the opinion of the larger number of senators that inasmuch as the state had only one normal school it should be liberally supported.

**A Good Resolution.**  
To help build up Medford payrolls by smoking Governor Johnson or Mt. Pitt cigars.

### POTATO MEAL USED SATISFACTORILY IN MAKING BREAD

WASHINGTON, D. C., Feb. 15.—Baking experiments to test the value of making bread of potato meal mixed with wheat flour are now being undertaken by the U. S. department of agriculture's bureau of chemistry. This is to test the possibilities of the potato in the same manner as Germany and Austria are now advising their people to do. The increased cost of living throughout the world has emphasized the fact that flour made of other substances than wheat, or of these substances mixed with wheat, might provide people with healthful food quite as nutritious as the pure wheat flour, and at the same time cheaper.

**Used in Austria**  
Austrian bakers are now compelled by law to use at least 30 per cent potato meal in making their bread. The bureau of chemistry's potato meal bread has been baked with from 25 to 50 per cent potato meal and the remaining percentage wheat. The most satisfactory loaves in combining economy and appearance were those made with the minimum percentage allowed in Austria or less. The loaves made with more than 30 per cent potato meal were not so satisfactory as they were heavier and less attractive in form. The bread has a rather coarse texture and dark appearance, but possesses a distinctive and agreeable flavor. It also retains moisture for a much longer period than ordinary wheat bread.

The bureau of chemistry used the imported "potato flake" in some of its experiments and in others, meal made by slicing, milling and drying potatoes on a small scale in its laboratories. It should be added that such ordinary "potato flour" as is on our American markets is not the same as the German "potato flake" or *Walzmehl*, which has given such satisfactory results in the experiments.

**Using Ordinary Potatoes**  
The question has been raised as to whether the ordinary cooked potato might not be satisfactorily substituted for the prepared potato meal. The experimenters believe that it might serve the same purpose if used in just

the right proportion, but this would be difficult for the average housewife to determine, as there is great danger of using too much and producing a very soggy loaf. However, the custom of adding a very little potato is already used by many housekeepers to keep their bread moist, and this practice can very well be recommended for more general use. Camps are being established and men are employed on the new Salem-Stayton railroad.

## Sick Women Made Well

Reliable evidence is abundant that women are constantly being restored to health by Lydia E. Pinkham's Vegetable Compound

The many testimonial letters that we are continually publishing in the newspapers—hundreds of them—are all genuine, true and unsolicited expressions of heartfelt gratitude for the freedom from suffering that has come to these women solely through the use of Lydia E. Pinkham's Vegetable Compound.

Money could not buy nor any kind of influence obtain such recommendations; you may depend upon it that any testimonial we publish is honest and true—if you have any doubt of this write to the women whose true names and addresses are always given, and learn for yourself.

**Read this one from Mrs. Waters:**  
CAMDEN, N.J.—"I was sick for two years with nervous spells, and my kidneys were affected. I had a doctor all the time and used a galvanic battery, but nothing did me any good. I was not able to go to bed, but spent my time on a couch or in a sleeping chair, and soon became almost a skeleton. Finally my doctor went away for his health, and my husband heard of Lydia E. Pinkham's Vegetable Compound and got me some. In two months I got relief and now I am like a new woman and am at my usual weight. I recommend your medicine to every one and so does my husband."—Mrs. TILLIE WATERS, 530 Mechanic Street, Camden, N.J.

**From Hanover, Penn.**  
HANOVER, PA.—"I was a very weak woman and suffered from bearing down pains and backache. I had been married over four years and had no children. Lydia E. Pinkham's Vegetable Compound proved an excellent remedy for it made me a well woman. After taking a few bottles my pains disappeared, and we now have one of the finest boy babies you ever saw."—Mrs. C. A. RICKMOND, R.F.D., No. 5, Hanover, Pa.

Now answer this question if you can. Why should a woman continue to suffer without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs. It has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

## Hughie Jennings

Manager of Detroit "Tigers", says

"After a red hot finish in a ball game a pipe full of Tuxedo makes victory sweeter, or defeat more endurable. *Ec—yah for Tuxedo.*"

"Come on, boys—Smoke Up! With TUXEDO!"

"Ec—yah!" That's Hughie Jennings' battlecry, out there on the coaching line by third base. He's one of the peppier, gingeriest men in baseball; always up on his toes, rooting for dear life, making those runs come in.

Want to get some of that old snappy feeling yourself? Smoke Tuxedo, same as Jennings does. It'll boost you right up into the zingdoey class of fellows who are always on the go, full of vim and good nature, piling up success.

# Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo is mild and wholesome. That's why all these athletes use Tuxedo. It can't bite your tongue because the famous "Tuxedo Process" has removed all irritation from the natural leaf—what you get is the gentle, mild, Kentucky Burley, rich and fragrant and wholesome.

"Ec-yah!" Get some Tuxedo today and get that happy feeling.

YOU CAN BUY TUXEDO EVERYWHERE

Convenient, glassine wrapped, moisture-proof pouch . . . 5c Famous Green Tin with gold lettering, curved to fit pocket. . . 10c

In Tin Humidors 40c and 80c In Glass Humidors 50c and 90c

THE AMERICAN TOBACCO COMPANY

## MONEY TALKS

But If You Send It Very Far Away Don't Complain If You Can't Hear It

The way to help make better times here in Oregon is to patronize Oregon industry, and especially remember the following concerns whose subscriptions make this campaign possible:

- AUTOMOBILE REPAIRING AND REBUILDING**—C. M. Miners & Co., 16th and Alder, Portland, Oregon.
- BANKS**, The United States National Bank, 75 Third St., Portland, Or.
