TOFT JURY FAILS TO AGREE ON VERDICT

After 12 hours deliberation in which they were unable to reach a verdict, the jury in the trial of Ray Toft charged with perjury was dismissed Wednesday night by Judge Calkins. In the closing balloting the jury was deadlocked, and could reach no agreement or compromise.

This is the second disagreement, a jury at the September term of court failing to reach a verdict after ten hours deliberation. The prosecuting attorney's office has reached no decision whether a third trial will be called or not.

It is Just Natural To Admire Babies

Our altruistic nature impels love for the sooting infant. And at the same time the subject of motherhood is ever before us. To know what to do that will add to the physical comfort of expectant motherhood is a subject that has interested most women of all times. One of the most helpful things is an external abdominal application sold in most drug stores under the name of "Mother's Friend." We have known so many grandmothers, who in their younger days relied upon this remedy, and who recommend it to their own daughters that it certainly must be what its name indicates. They have used it for its direct influence upon the muscles, cords, ligaments and tendons as it aims to afford relief from the strain and pain so often unnecessarily severe during the period of expectancy.

A little book mailed by Bradfield Regulator Co., 295 Lamar Bldg., Atlanta, Ga., refers to many things that women like to read about. It refers not only to the relief from muscle strain due to their expansion but also to nausea, morning sickness, caking of breasts and many other distresses.
