The Latest "How do you want your waist made?" "In this new style. I want it to look as if it were about to drop off me, but of course, it mustn't."—Louisville Courier-Journal.

OUR FINE WEATHER

THE fact that the Rogue River valley has the most healthful all-the-year-round weather of any place on the coast is proven by statistics and admitted by physicians. Our climate also compares favorably with all the famous resorts, which have nothing but climate as an attraction. Year in and year out, a person feels better here than in southern California. The climatic changes experienced and sufficient to keep the human system toned up, without entailing the disagreeable experiences caused by extreme seasonal variations in the east, or wearing out the system by a monotonous equality.

E. W. Liljegram has compiled an interesting climatic chart of the Rogue River valley. It shows an annual average of 44 per cent of sunshiny days, 25 per cent of partly cloudy and 31 per cent of cloudy days.

The average wind velocity during the winter months is 3.5 miles per hour and the prevailing direction is from the southeast. This keeps the temperature up and heavy frosts away. The prevailing wind during the summer months is from the northwest, its velocity five miles an hour. This keeps the temperature down and the humidity low, giving cool nights.

The February record shows 45 per cent and the March record 43 per cent of sunshiny days. The mean of the maximum for January is 45, for February 50; the mean of the minimum in January is 30, of February 34, showing a fine winter climate. The mean of the maximum for July is 87, for August 87, and the mean of the minimum for July 54 and August 53, showing cool nights. The average percentage of humidity in July and August is 55.

Let us compare Rogue River climate with that of Los Angeles. In 1914 the monthly mean at Los Angeles was 66, as against 52.95 in Medford. The percentage of humidity in Los Angeles was 70, as against 70.48 percentage at Medford. The precipitation at Los Angeles was 23.09, as against 19.64 at Medford. The average southern California wind was 5.6 miles velocity, as against 4.41 at Medford. The percentage of sunshiny days in Los Angeles was 47, as against 44 at Medford. The percentage of partly cloudy days at Los Angeles was 29, at Medford 25, and of cloudy 24 at Los Angeles and 31 at Medford.

At Los Angeles the monthly mean temperature for January and February is 55, for July and August 70 and 71, with 80 average relative humidity. Thus while the thermometer climbs higher in summer here, the relative humidity is much less and the heat causes no suffering.

A MONUMENT TO THE BEE?

To the bee the world owes much—not the humble bee, but the kind that nestles in one's bonnet. Such a bee inspired the inventions of Edison, the art of Pavlova, the medical victories of the Mayo brothers. In other words, a "hobby." There's a bee in every bonnet. They're as common as bugs in a city man's garden. They make men wise and women lovely; they make men silly and

women naggy. They make us fine. They make us whine. A bonnet bee invented the wireless telegraph. A bonnet bee sprang the tango.

Bees, bees, bees! They live in intellects of varying degrees. With the bonnet bee it's a case of "any old bonnet for me!"

Bees in bonnets rule the world.

Let a pompous bee enter your think box and you become pompous. Foolish bee—foolish man. Silly bee—silly woman.

The man that rushes like the wind, puffing and snorting, has a bee in his bonnet that runs round and round because it thinks it's Barney Oldfield winning the Vanderbilt cup.

Sometimes a girl has a bee that makes her look sweet and tempting—and that bee always takes the form of a handsome young man.

Also there is the gloomy bee.

Let every man, every woman, every child, rich or poor, humble or proud, control his or her bee, and this world shall become a better place to live in.

Boss your bee.

INTERNAL DISSENTION SWEEPS PORTUGAL

PARIS, March 2.—Internal dissension and political unrest are increasing in Portugal, according to a special dispatch from Madrid. The directorate of the Portuguese republican party is said to have decided at a meeting in Lisbon to institute court proceedings against cabinet ministers on charges of violating the constitution. An appeal also was made to republican committees urging them to issue manifestos, "against the dictator ship exercised by the government." Royalist party agitations are reported to be increasing in importance while clashes between troops and citizens are becoming more frequent.

HOUSE TO VOTE ON SHIP BILL TODAY

WASHINGTON, March 2.—When the administration ship bill was brought into the house again today, Republican Leader Mann at once blocked all proceedings with a filibuster and the upshot of it was the republicans and democrats agreed to vote on it at 4:30 o'clock this afternoon and take up other business in the meantime.

GIRLS! KEEP YOUR BEAUX UNDER YOUR EYES—IS LATEST FAD

The "only girl" no longer wears "his" picture in her wrist watch, nor does she keep it close to her heart. Just to show the world that she's rather proud of her best beau she pastes his picture just beneath her eye, as shown in the photograph above. Of course, she can't see it herself, unless she looks in the mirror—the

"A New Brand of Love Making Needed," Says Lillian Bell

Marriage nowadays consists mostly of the man's whistling from downstairs and the girl falling out of the front window. I may exaggerate a little—but what I mean to say is: Nobody takes time to make love any more.

If you don't believe me when I say that men don't know how to make love, ask your wife or sweetheart—look into her eyes while she is answering you, and then analyze, if you have any gray matter at all!—the cause of your misunderstandings and quarrels.

What do you call making love? A few kisses? Most men think when they can get to the point where a girl will accept their caresses that the day is won! Why even after marriage, the game of being in love has just begun! I have heard many a man sit up and tell me what his wife thought of him, and even while he was talking, I have got a wireless from her saying:

"Do I, though? You are a woman and you know what I would have if I could, and how I have had to make him believe he was all he is saying, because he is my husband!"

Not that she would give him up. Not that she would leave him nor have anybody else if she could. She loves him all she can and he loves her all he wants to. He had won the game, but— Love making is much more than getting well enough acquainted to call each other by your first names, wanting to hold hands and talking about getting married.

Love is a delicate, valuable thing. It holds life together—makes life worth living. The life which has no love in it is not life at all—it is a bare existence.

So love must be made. And to make love means that you must so study your sweetheart's mental needs that you will make your own way of supplying them actually indispensable to her.

Make such sensible love to her that no other man could copy your method nor get her away from you if he tried.

It almost makes me weep when I think what a chance a clever man has to distinguish himself in this line and how he never seems to avail himself of it.

Most men think that companion-

HAIR COMING OUT?

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Danderine at any drug store, pour a little in your hand and rub it into the scalp. After a few applications the hair stops coming out and you can't find any dandruff. —Adv.

Here's an Anthem for You Autoists

My auto, 'tis of thee, short cut to poverty—of thee I chant. I blew a pile of dough on thee two years ago, and now you quite refuse to go, or won't or can't. Through town and countryside, you were my joy and pride; a happy day. I loved thy gaudy hue, thy nice white tires so new, but now you're down and out for true, in every way. To thee, old rattlebox, came many bumps and knocks; for thee I grieve. Badly thy top is torn, frayed are the seats and worn; the whooping cough affects thy horn, I do believe. Thy perfume swells the breeze while good folks choke and sneeze, as we pass by. I paid for thee a price 'twould buy a mansion twice, now everybody's yelling "ice"—wonder why? Thy motor has the pip, even the skid chains slip, and woe is thine. I, too, have suffered chills, ague and kindred ills, endeavoring to pay my bills since thou wert mine. Gone is my bank roll now. No more 'twould choke a cow, as once before. Yet if I had the mou, so help me John—amen, I'd buy myself a car again, and speed some more.
