

## CANNERY CAPACITY QUADRUPLD FOR COMING SEASON

The capacity of the Hoke Co-operative cannery will be quadrupled the coming season to handle the increased acreage. A petition is being circulated by Manager R. D. Hoke, and subscriptions for new machinery, etc., are being received. A new warehouse, new cooking table and other equipment will be added. The Hoke cannery, it will be remembered, was pronounced a fizzle before it started, by our leading street-corner seers. It paid a dividend the first year of its operation, despite seasonal and crop handicaps.

The loganberry acreage is growing daily, and when it comes into full bearing will make southern Oregon a loganberry center. This fruit, when canned, has an unusual flavor, and the demand is so great in the east that it cannot be supplied. The crop at present in this state supplies about one-tenth of the demand. Between thirty-five and fifty acres will be planted to loganberries in this valley this year.

Even with the increased facilities, the capacity of the cannery will be taxed to the limit to handle the pea, bean and small vegetable crop. The average signed now is up to the limit, with more coming in. Many are taking to truck gardening for canning purposes as a side issue. Corn, peas and beans will be the principal vegetables used.

According to Manager Hoke, this will be the most prosperous year in the history of the valley for small gardening, and says that it will put the canning industry upon a sound and substantial basis in southern Oregon.

## PORTLAND CHINESE BOYCOTT JAPANESE

PORTLAND, Or., March 19.—Chinese residents of Portland today declared a boycott on all Japanese goods in retaliation for the demands recently made upon China by Japan. The action was decided upon at a meeting last night of the Chinese Six companies.

Any Chinese violating the boycott, it was decided, will receive warning upon the first offense, and thereafter will be subject to a fine. A picket will be stationed in front of every Japanese store and business house.

## GREATER MEDFORD CLUB RECOMMENDS PICTURES

The pictures on last Saturday at the Star theater were very good and proper for children to see, having been selected by the board, composed of women representing the various clubs of the city. Another program will be given for children Saturday afternoon. This movement is surely a step in the right direction and should be encouraged and patronized by those who desire proper amusement for their children.

## GAS, HEARTBURN, INDIGESTION OR A SICK STOMACH

Time it! Pape's Diapiesin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapiesin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapiesin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.—Adv.

## TAKING TROUT EGGS TO STOCK ROGUE TRIBUTARIES

At the last meeting of the state fish and game commission, at the request of the Rogue River Fish Protective association and upon the recommendation of Master Fish Warden Clanton, an appropriation of \$2000 was made for co-operative work with the United States bureau of hatcheries for trout propagation work in Rogue river at the Elk creek hatchery. The money will be used to defray the expense of trout egg taking and feeding fry to the age of fingerlings. It is expected to hatch several million steelhead and keep at least a million until they reach the fingerling stage. The government appropriation covers only salmon propagation.

## YOUR FRECKLES

Need Attention in February and March or Face May Stay Covered

Now is the time to take special care of the complexion if you wish it to look well the rest of the year. The February and March winds have a strong tendency to bring out freckles that may stay all summer unless removed. Now is the time to use othine—double strength.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful that it is sold by druggists under guarantee to refund the money if it fails. Get an ounce of othine—double strength, and even a few applications should show a wonderful improvement, some of the smaller freckles even vanishing entirely.—Adv.

Trail, also 480 cut-throat trout eggs which will be held separately and fed. At the Applegate station, 1,151-800 steelhead eggs had been taken, part of which will be shipped to the Elk creek hatchery when eyed.

March is also a month when many steelheads spawn, and it is expected the take this month will equal that taken previously this season.

# Tomorrow— SUNKIST Orange Day

Buy a Week's Supply of These Delicious Seedless California Navel Oranges NOW!

Trainloads, direct from Sunny California, have just arrived in all markets—especially for **Orange Day**.  
—juicy, sweet, firm, tender fruit.

## EVERY OWNER IS A BOOSTER FOR WEYERHAEUSER SILO

We have yet to come in contact with an owner of a WEYERHAEUSER SILO who is not a booster—who is unwilling to tell his neighbor that he has got the best silo on the market today. The WEYERHAEUSER SILO is made right in the first place—always renders the service that is expected of it—and more too.

**THE Weyerhaeuser SILO**

Here are a few points of construction that recommend the WEYERHAEUSER SILO to you.

1. Its air-tight construction means perfect ensilage.
2. Scientifically designed and guaranteed anchorage system.
3. Perfectly balanced, easy-to-swing, air-tight doors.
4. Safety tread ladders.
5. Specially rolled steel hoops, thoroughly tested.
6. Specially designed, SELF-ADJUSTING roof.
7. Staves made from air-dried Douglas fir in the largest silo factory in the northwest.
