

ALLIED ARMY LANDS TO ATTACK TURKISH FORTS

General Attack Upon Fortifications of Dardanelles by Land and Sea to Be Undertaken on Arrival of Additional Warships Now en Route—French Force Landed at Gallipoli.

LONDON, March 24.—A force of allied troops was landed on the peninsula of Gallipoli yesterday from transports in the Gulf of Saros, according to a dispatch from Athens to the Daily Express. A general attack upon the fortifications of the Dardanelles is to be undertaken immediately on the arrival of further French and British warships now on their way to join the attacking squadron. The last concerted effort against the Dardanelles positions took place March 18. This day's action resulted in the loss of three battleships. Reviewing the situation military experts in London and elsewhere have expressed freely their belief that to penetrate the straits the marine forces must be well supported on land. It has been said lately that a strong detachment of French troops was on its way to the Dardanelles. The Gallipoli is the northern or the European side of the Dardanelles. If this neck of land were effectively held by the allies, Turkish communication with the strong positions on the peninsula would be impossible. A dispatch from Athens received by way of Paris says an allied fleet resumed the bombardment of the Dardanelles yesterday.

HEIR TO SCANDAL SLAYS BROTHER IN FIT OF ANGER

PRICE, Utah, March 24.—Matthew Bradley, 20 years old, son of Mrs. Anna Bradley, who shot and killed former United States Senator Arthur Brown of Utah, at Washington, D. C., in 1906, died here today of knife wounds inflicted in a quarrel last night by Arthur Brown Bradley, his half-brother, 15 years old, who is said to be a son of the former senator. In the absence of their mother, Matthew Bradley and his two half-brothers were keeping house, and the quarrel is said to have arisen over the manner in which the dinner was prepared. Arthur seized a butcher knife from the table and attacked the older boy, slashing him in several places in the abdomen and about the limbs. WASHINGTON, March 24.—The shooting of former Senator Brown in a hotel here December 8, 1906, by Mrs. Bradley was the sensational culmination of an affair which four years previously had involved a civil court proceeding in which Mr. Bradley charged Brown with having been the father of her two children.

For ten days after the couple disappeared from this city they were in hiding in Central Point and Jacksonville, and to throw them off their guard they were reported by the police as being in Oakland, Cal. They were found at the home of the grandmother of the boy near this city. Several Japanese of the valley have gone together, and planted ten acres of garden truck, which they will market at the cannery.

VICE-PRESIDENT DEDICATES FAIR FOR PRESIDENT

Marshall Characterizes Exposition as Crystallization of the Dreams and Thoughts of Genius and Talent—Regrets Injustice to Southern Republic in Acquisition of Canal Zone

SAN FRANCISCO, March 24.—Characterizing the Panama-Pacific exposition as the "crystallization of the dreams and thoughts of genius and talent," Vice-President Marshall spoke today at the exposition, lauding the state of California and the men who made the exposition possible, and in the name of the president of the United States dedicated the exposition in glorification of the completion of the isthmian canal. He said in part:

Marshall's Speech "I crave your sympathy and your charity while for a few brief moments I stand here, commissioned to take, but not to fill, the place of the president of the United States. In justice to the day, Woodrow Wilson should be here. The office and the man would each fittingly grace this occasion. But duty said to him that justice to all the people bade him stay in Washington. You hope for continued peace. Do not forget that he is your greatest benefactor. May the truth that he seeks your good rather than his own or your pleasure, lighten the disappointments of this hour. Before the sunset bell shall proclaim the close of this marvel of the twentieth century, the president of the United States hopes to meet you face to face. A State of Mystery "California is a state of mystery, of seeming madness and method, a state replete with art, science, literature, law, order and material prosperity of marvelous accomplishment. What others took to be the mutterings of a mighty man in sleep, she has made the all-compelling language of her people. This exposition had to be, to justify in the minds of man the potency of dreams and visions over mere material things. It is in consonance with the record of this people. Some time in the hurrying rush of restless men it had to be, but it came sooner than otherwise it would have come, because someone dreamed that here in this sun-kissed clime there lay the seven cities of Sibola. Product of a Dream "Surely he should not be charged with being merely poetic in mind who on this occasion boldly declares that California is the product of a dream and that this exposition is the composite photograph of dreamers. The seven cities of Cibola have become seventy and seven cities of culture, wealth and character. The dream of the Anian strait has become a reality, south of Mexico, it is true, but nevertheless a reality, called the Panama canal. "I am sure I express the thought of the president and the hope of the American people when I say that our canal was built not alone for glory or great gain, but with a sincere desire to make the whole work kin. There are two gospels now instead of one—the gospel of good will has been supplemented with the gospel of personal contact. The gospel of good will continues to be supreme, but nothing will help it preach so loudly those human agencies which eliminate

OSBORNE SAYS NEVER SAW GIRL SUING FOR \$50,000

NEW YORK, March 24.—James W. Osborne, former assistant district attorney of New York county, faced today Miss Rae Tanzer, who is suing him for \$50,000 damages for alleged breach of promise to marry, and swore on the witness stand he had never seen her before. F. T. Safford, clerk at the Kensington hotel, Plainfield, N. J., second witness for the defense, positively identified James W. Osborne as the man who had registered at the hotel with Rae Tanzer. Miss Tanzer charges that Osborne wooed her under the name of Oliver Osborne. Today's hearing was before United States Commissioner Houghton on Mr. Osborne's complaint that Miss Tanzer had used the mails to defraud. The basis of this complaint was a bundle of letters which Miss Tanzer, it is charged, mailed him before she filed her suit.

This message said that the Denver had been abandoned in a sinking condition and that Captain Avery and his crew were aboard the Atlantic transport liner Manhattan and would reach this port Saturday.

BOWLBY NEVER WROTE TO SEATTLE AUTOMOBILE CLUB

"I never wrote any auto club in Seattle or elsewhere regarding the unfitness of the Pacific highway," stated Major H. L. Bowlby, who spent Wednesday in Medford on highway business. "I did write a personal letter to a friend in Seattle, who asked me if he could, at the present time, make the trip over the Pacific highway, and I told him the truth, that ordinarily the road could not be traversed until June, but that he probably could get through to California via central Oregon before then. The contractors' clique, seeking to accomplish my removal, did not print the letter that I wrote, but garbled it to suit themselves to stir up enmity through the Willamette valley counties to me." The effort to oust Bowlby originated in Medford a year ago last fall, when Mr. Bowlby refused to specify Beale's "American ingot iron culverts" on the Pacific highway. After the contract had been awarded, the disappointed contractors, headed by Beale, organized to "get Bowlby's goat," as Beale eloquently put it. Since then they have left no stone unturned they could hurl at Bowlby's head. It is reported that the contractors' candidate for highway engineer, Herbert Nunn, came from Texas to become a salesman for Beale. "My removal at this time would work a hardship upon the counties now constructing highways," said Mr. Bowlby. "I am not making any effort to keep the position, but the contracts should be completed and final settlements made before a change is made. Under the contracts, the estimates of the state highway engineer are final, and the counties must pay the awards he makes. Knowing this, every contractor is putting in claims for \$50,000 or more above what he is entitled to receive, and if the contractors succeed in naming the engineer, they hope, of course, to benefit thereby in the final settlements—so you can see where the counties will get off."

GREECE AWAITING BULGARIAN ACTION

LONDON, March 24.—According to the newspapers of Athens, Greece will not range herself on the side of the triple entente powers by herself, the correspondent of the Exchange Telegraph company says in a dispatch from the Grecian capital. She will take an active part in the war only conjointly with Bulgaria. Isolated intervention on the part of either Greece or Bulgaria, the correspondent continues, would be regarded in Athens as ineffective.

TERRE HAUTE MAYOR ARRESTED

INDIANAPOLIS, March 24.—Mayor Donn M. Roberts, one of the defendants in the Terre Haute election fraud cases in the federal court here, was ordered into the custody of the United States marshal today and was further ordered to give additional bond of \$5,000 for his appearance to answer to a charge of conspiring to influence government witnesses. The men were sent to jail last night on the same charge. Sheriff Dennis Shea, City Judge Thomas Smith and Street Inspector Alexander Aczel, alias Steel, defendants who were placed in jail last night by order of Judge Anderson, also were held under additional bonds of \$5,000 each on the same charge as placed against Mayor Roberts. The four were taken into custody by United States Marshal Mark Storen. Judge Anderson waited until the jury had retired at noon before placing the charge against the four. He read two United States statutes, one of which places the penalty for interfering with witnesses at \$1,000 or a year in prison, or both, and the other fixes the punishment at a fine of \$5000, or six years in prison, or both. The court reviewed evidence, which he states proves conclusively that efforts had been made to corrupt witnesses and added that the court attaches had detected Shea in the act of signalling to witnesses on the stand.

WASHINGTON, March 24.—General Carranza has decreed that textile factories in Mexico must pay laborers a 35 per cent increase. Advice to the state department today say the decree was issued March 22, to become effective April 1. The Carranza consul at Brownsville, Texas, today telegraphed the following to the Carranza agency here: "General Nafarrette states that he has sufficient force of artillery to resist any attack by the Villa force on Matamoros. It is reported that a Villa army of 1200 has commenced a campaign against Matamoros, but that desertions from its ranks have been in great number." Diaz Lombardo, secretary of state for the Villa government, telegraphed today to the Villa agent here: "The report of the capture of San Luis Potosi by the Carranza forces is absolutely false. There is no sign of a Carranza soldier for many leagues around."

BLOODY BATTLE NOW IN PROGRESS IN CARPATHIANS

Berlin Reports Most Sanguinary Battle of Campaign Now Raging—Germans Abandon Siege of Ossowetz, Removing Artillery — Przemysl Force to Reinforce Army.

BERLIN, March 24.—Reports from the Carpathian mountains indicate that one of the greatest and most sanguinary battles of the campaign is now raging. A special correspondent of the Lokal Anziger telegraphs: "The great bloody battle is now in full swing in the Carpathians. It has not yet reached a point where a definite judgment can be passed on the events at any point. The conflict is likely to be waged some days yet with equal fierceness by both sides. "The next few days probably will see the released Przemysl investment army engaged in this struggle. "Conditions to the north of the Vistula river and along the Bug and Narew line appear to have changed little or not at all recently."

Germans Quit Siege LONDON, March 24.—Official announcement has been made in Petrograd, says the correspondent of Reuter's Telegram company, that the Germans since Sunday have removed all but four of their heavy batteries from before Ossowetz. The Russian statement adds: "A couple of 42-centimeter howitzers were abandoned after the first battle, one of which was damaged by our fire. Shots from the howitzers failed to crush the masonry of the fortress. Superiority in artillery fire was distinctly on our side. Not only was the German attack far from endangering the Ossowetz forts, but the enemy failed to dislodge our infantry from its field works."

Restoring Przemysl The magnitude of the surrender of Przemysl and speculation as to how quickly the Russians will be able to press the advantages derived therefrom in an advance to Hungary and Silesia continued to be the chief topics of discussion in the war news today. "The Russians are putting the fortress in order. They are sending the prisoners to the rear, feeding the starving population and tending the sick and wounded. As the task is an enormous one, it is presumed that Russia for some time will not be able to divert her strength elsewhere. It is estimated the Russians had six army corps around Przemysl.
