

VON BUELOW FAILS IN PEACE MISSION TO RESTRAIN ITALY

ROME, via Paris, March 26.—Efforts of Prince von Buelow, the German ambassador, to bring about an agreement between the Italian and Austrian governments regarding the cession of territory, have definitely failed, according to the Agenzia Nazionale, which says it is informed that when the last courier from Vienna brought to the ambassador Austria's final terms they were of such nature that he did not consider it worth while to submit them to the foreign office here. It is reported that Prince von Buelow has resigned the role of mediator.

ROME, March 26.—Commenting upon replies received from distinguished Englishmen regarding their views upon Anglo-Italian friendship, the Giornale D'Italia declares the cordial relations between Great Britain and Italy, while based in part upon sentiment, are founded chiefly upon political conditions. The paper says that since Italy is essentially a sea-faring nation, she can not ignore the special maritime position of England, and it adds:

"England in her turn, having so many interests in the Mediterranean has felt and we hope continues to feel the convenience of not having as a hostile power a nation so distinctly Mediterranean as Italy."

ASHLAND AND VICINITY

Mrs. Archie Million has been here the present week packing up household goods preparatory to removing to Sacramento, where her husband has a railroad job.

A party of four Royal Arch Chapters belonging to Siskiyou chapter, of this city, paid a visit to Crater Lake chapter, of Medford, on Tuesday evening. They were: W. H. McNair, T. K. Bolton, R. P. Cornelius and F. H. Johnson. The social feature was not overlooked at this meeting, although the main object of the convocation was conferring of the mark master and past master degrees. The visitors speak in highest terms of courtesies extended in their behalf by the companions of the Crater Lake organization.

Mrs. A. H. Russell, one of the pioneers of this section, early in the week entertained her sister-in-law, Dr. Owens Adair, author of the much exploited and often defeated sterilization bill, who was on her way home from southern California to northern Oregon.

In line with other notable improvements being inaugurated this spring, the Southern Pacific has expressed an intention of leading a helping hand. It owns property near the parting of the ways between the up-town and depot section, upon which a sulphur spring is located. This water is not available for railway use, and as a consequence the premises in general have gone into the discard of late years. The S. P. now offers to further develop the spring and place a substantial curb around it. This being done, the ladies will take over the care of the lot and incorporate it among the tracts which go to make up the park system. This spring is located about half way between the Plaza and depot on the main thoroughfare between these terminals.

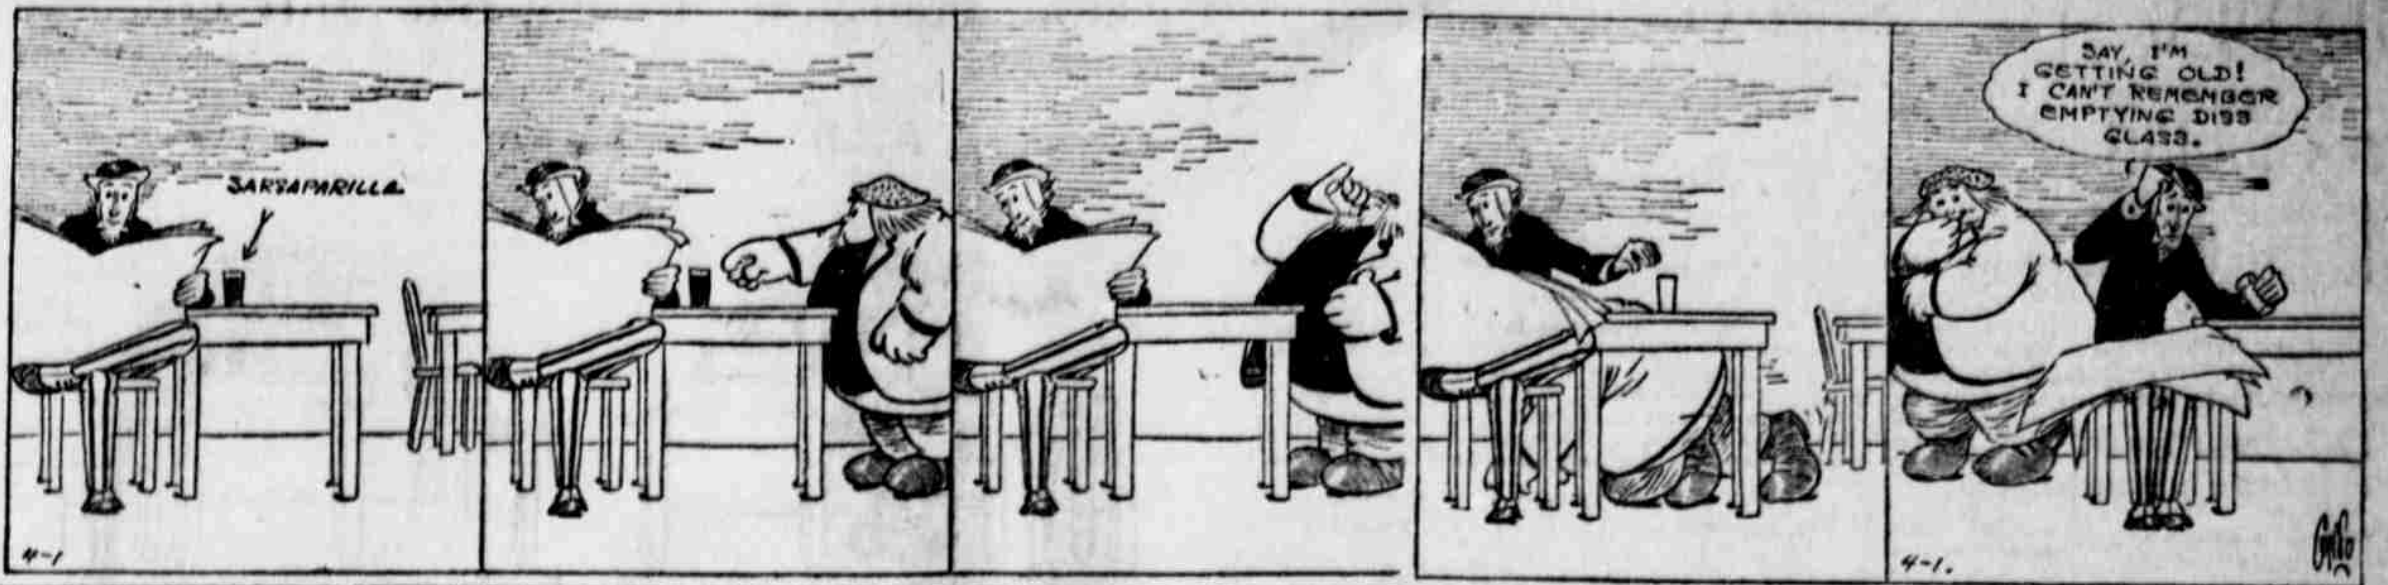

The army of hoboes is now wending northwards. One night last week over 150 found sleeping quarters in the lower berths of the Fourth street fire station, which has now been converted into police headquarters for the first ward patrol district.

Ed J. Gowland and Mrs. Alice Stubbs were married Wednesday evening by Rev. J. S. Smith at his residence in West Ashland. Ed is expert mechanic at the Ashland garage. Mrs. Gowland is the daughter of Mr. and Mrs. E. E. Miller and for years was the efficient assistant in her father's establishment, the Vienna cafe. After the ceremony a reception was tendered the newly-weds at the Miller residence on Church street. They will reside at the Gowland home, in East Ashland, near the Bellevue schoolhouse.

H. N. Lowe of the Columbia cafeteria, who attempted suicide Wednesday morning, is slowly improving and it is thought he will recover. The revolver shot pierced the left lung. Before committing the act he dictated two letters to near relatives, so it is said, the contents of which will probably not be made public unless heavily censored.

Members of the O. N. G. have received notice through channels of the adjutant general's office that range practice will begin this year April 1 and continue until October 1, thus providing an open season of six months for "shooting at a mark."

OSCAR AND ADOLPH

The earlier opening of the season is simply for the purpose of gaining greater efficiency. Each rifle organization is entitled to 10,000 rounds of ammunition, while each officer or enlisted man armed with a pistol can requisition 150 rounds.

The action of S. S. S., the famous blood purifier, is direct from the moment it enters the stomach. Unlike food that must be acted upon by the digestive juices, S. S. S. goes at once into the blood, and in less than five minutes has traversed the entire circulatory system. It now rapidly spreads its medicinal action in the fine network of blood vessels and is like giving the blood a thorough bath to overcome eczema, blood risings, boils and other eruptive conditions. It can not harm any part of the system. It does not lodge in the joints as do mercury, arsenic and other minerals frequently to be found in blood remedies. It is a natural medicine for the blood, just as essential to health if germs have gotten the upper hand as is nutritious food if after a spell of sickness the body calls for nourishment. Wherever you go you are sure to meet some one who used S. S. S. for the blood and is a willing witness to its wonderful power to overcome blood troubles. You can obtain S. S. S. in almost any drug store in the U. S., a significant fact as to its worth and its sterling reputation. Get a bottle today. It will do you good. Write to The Swift Specific Co., 104 Swift Bldg., Atlanta, Ga. If the directions with the bottle do not fully cover your case.
