

# CLUBMAN SHOTS GRANDMOTHER THEN COMMITS SUICIDE

PHILADELPHIA, March 30.—Mrs. Clotilda Cohen, 85 years old, member of a prominent family of this city, was shot and killed today by Henry B. Cohen, her grandson, who then turned the revolver on himself, inflicting a wound from which he died later in a hospital.

The tragedy occurred in Mrs. Cohen's home and she was killed while in bed. Cohen is believed by the police to have been insane.

The purposelessness of the shooting puzzled the police. Cohen was well liked by his grandmother. He is said to have been a keen business man and never to have shown indications of a deranged mind. His father, who talked with him thirty minutes before the shooting, said the son at that time appeared in good health and normal mentally. The family physician pronounced it a case of sudden and unaccountable insanity.

Charles Cohen, the father, is a paper manufacturer and president of the chamber of commerce of this city. The family is an old one, prominent in social life here. Henry B. Cohen was in the lithographing business. He was a member of a number of exclusive clubs. Lieutenant Albert M. Cohen, a brother, is with the United States battleship Delaware. Miss Eleanor Cohen a sister is a tennis champion of Philadelphia.

# BORDER SKIRMISH NEAR SAN BERNARDINO

DOUGLAS, Ariz., March 30.—Five hundred Carranza troops under Colonel Miguel Samaniego and a Villa force of the same strength, commanded by General Trujillo, came into contact yesterday opposite San Bernardino, Ariz., sixteen miles east of here. The fighting continued today, and Samaniego, reinforced by 400 men from Agua Prieta, last night appeared to be slowly forcing Trujillo back.

# JUDGE THOMAS O'DAY OF PORTLAND DEAD

PORTLAND, March 30.—After several months of illness, a decline which is believed to have dated back to his service on the circuit bench, Judge Thomas O'Day died Sunday in his home in St. Helena's court, Portland Heights. Throughout the quarter of a century that Judge O'Day had lived in this city he was a leader at the bar and in democratic councils. Although an active and ardent democrat, whose advice was always sought, Judge O'Day was the champion and advocate of principles which have since become styled "progressive."

# WHY PRETTY GIRLS DON'T LOOK PRETTY IN THE MOVIES

## Mary Pickford Tells the Inside Story of Acting Before the Camera

### MARY PICKFORD'S ROMANCE

BY MRS. GIBSON.

Mary Pickford has been married three years to Owen Moore, a moving picture actor, who is her leading man. The marriage is one of two loves and great comradeship. Each one goes his or her own way in the workaday world and they hold their home life absolutely separate from their business life. When I asked her if she believed an actress should marry young, she said:

"Perhaps I am not competent to judge, as my married life has been very happy. I think a girl is much more settled after she is married, and when I look around at the unmarried girls that are earning their living today I think a devoted husband is a great safeguard."

Miss Pickford and Owen Moore played in many movies together before their marriage and are now both acting before the Universal cameras in California studios.

(This is the last chapter of Idah McGlone Gibson's interview with Mary Pickford, in which the noted movie actress tells the story of her life.—Editor.)

#### CHAPTER VI.

BY IDAH MCGLONE GIBSON.

(Copyright, 1915, by the Newspaper Enterprise Association.)

"Someone, I think it was Goethe," said Mary Pickford, "has declared that genius is only taking care of the detail. I have often wondered if, when the spectator gazes upon a moving picture, he really realizes how much care has been given to every detail in the picture," she continued.

"The camera is pitiless, and sunshine shows up every defect. Combine these and you have the most unflattering vehicle that an artist can use to project his ideals."

"Every woman has probably some time in her life posed for a photograph and while doing so, in the knowledge that she had on a best frock, her prettiest jewels, and her most engaging smile, has decided that these will be the best pictures she has ever had taken."

"And what was her disappointment and surprise to find that not only her dress but her smile was awry, and that her jewels had not caught the light so they showed to the best advantage."

"The woman in this case can sit again. She can face the camera over and over, perfecting all these little details."

"But when we face the moving picture camera, it means that this is our only time. When the instrument begins to click, one is making movie history and it must remain good or bad."

"I have known pictures that were ruined for me because the details had not been closely studied, because there was a bad fit to the gown, or a gesture made too abruptly to be graceful. I tell you there is no place in the world to see one's self as others see one as on the movie screen. And sometimes it is very discouraging."

"A great deal is said about the large salaries that are paid to the high class artists who pose for the moving picture."

"The salaries are not high, you will realize, if you stop to think that it is only a very short time that one may be a moving picture actress."

"The working period of a movie actress is even shorter than the stage life of the legitimate actress."

"As I said before, the camera is pitiless, and while the mature woman may make herself up to represent youth, and by softening the lights, perfect this illusion, the movie actress must have absolutely no lines to show."

"I do not think that one can successfully play youthful parts before the camera after 30."

"Consequently it behooves the most of us to make hay while the sun shines, (or speaking literally, to make pictures while the sun shines.)"

"We people of the stage and the movies must use ourselves as tools as the artist does his pigment or the sculptor his marble."

"In one way, however, the picture actor has the advantage over the legitimate actor. The picture will live after. You know Sarah Bernhardt said after she had posed as Queen Elizabeth, 'At last I am immortal.'"

"And had she not done this, in a few years her glorious achievement would live only in the memory of a few. But the moving picture actress can be sure, if she is a successful one and loves her art, that not only her generation but the children's children of her generation will know of and see her work."

"Personally, I would much rather be a movie actress than one who talks from the legitimate stage. You see I have chosen!"

# WARSHIP SENT TO WATCH EITEL

NEWPORT NEWS, Va., March 30.—The battleship Alabama, ordered to Hampton Roads to aid in enforcing neutrality, passed in the Virginia Capes early today.

No one without official authority was permitted to approach the Eitel's pier. All night long a sentinel stood guard at the pier entrance and was relieved by another at sunrise. There were few signs of activity on the German raider and smoke was coming from only one of her funnels.

It was said that one of the reasons for sending the battleship Alabama to enforce neutrality in all its phases.

WASHINGTON, March 30.—President Wilson told callers today he had received apparently authentic word that it would be impossible for the Prinz Eitel to go to New York inside the three-mile limit, because of the draft of the vessel. He added that he saw no reason why the Eitel's captain should desire to go to New York.

# RECEIVER NAMED FOR HAMMERSTEIN

NEW YORK, March 30.—A receiver for Oscar Hammerstein, the impresario, was appointed today by the United States district court here. The action resulted from an equity suit brought by the American Seating company, described as creditor. Mr. Hammerstein was said today to be seriously ill in his home here.

Mr. Hammerstein's liabilities are approximately \$100,000, his assets more than five times that amount, according to a statement issued by his attorney. The statement recites that because of Mr. Hammerstein's inability through illness to attend to his affairs, it was thought advisable to have a "conservator" appointed.

"This is not an insolvency proceeding," reads the statement. "Mr. Hammerstein is not a bankrupt."

# TELEGRAPHERS OF WESTERN UNION AT ST LOUIS STRIKE

ST. LOUIS, March 30.—One hundred and twenty-five telegraphers, present and past employees of the local branch of the Western Union Telegraph company, unanimously voted to strike at a closed meeting held here last night, according to Sylvester J. Koenenkamp, international president of the Commercial Telegraphers Union.

While the vote was being taken, W. C. Long, secretary of the local union, received a telegram from Secretary of Labor Wilson, saying that William Blackman, commissioner of conciliation of the United States department of labor, was en route to St. Louis to act as mediator. The request for mediation was made to Mr. Wilson by the union.

The strike vote was taken on the demand of about forty operators recently discharged by the Western Union company. The operators claim they were discharged because their membership in the union had become known. Officers of the telegraph company deny that union men are being discriminated against.

# GERMANS TAKE 3000 PRISONERS ON POLISH FRONT

BERLIN, March 30.—The war office gave out the following statement today:

"A telegram from main headquarters, dated March 30, states that in the western theater of war there were only artillery combats and sapping operations."

"In the fighting which led to the occupation of Tauroggen (Russia, near the Prussian border) the east Prussian landsturm, according to a report from Prince Joachim of Prussia, especially distinguished itself, taking 1000 prisoners."

"Near Karsnopol the Russians suffered severe losses. Some 2000 were killed. Our booty in this fighting until yesterday evening was 3000 prisoners, seven machine guns, one cannon and several ammunition cars."

"On the Skwa, near Klinki, after a Russian attack failed, we captured two Russian officers and 600 men. Near Olecyn, on the left bank of the Omulem, two Russian night attacks were repulsed. Russian attempts to cross the lower Bzura failed."

# FIFTY MILLIONS CREDIT ARRANGED TO BENEFIT FRANCE

NEW YORK, March 30.—Bankers heard today that negotiations virtually have been completed between J. P. Morgan & Co. and representatives of the French government for the establishment in this government of a \$50,000,000 credit for the benefit of France. Formal announcement of the conclusion of this arrangement was looked for shortly. It was understood that the financing would take the form of French treasury bonds, issued for one year, bearing 5 per cent interest.

Plans have been made to form a syndicate of bankers headed by J. P. Morgan & Co. to underwrite the credit and it was expected that a public offering of the French securities would be made. The funds derived from the sale of bonds, it was stated, would remain in this country and be devoted to the purchase of American goods needed by the French.

This issue of bonds would bring the total credits obtained by France in this country since the beginning of the war up to about \$75,000,000. It was stated that the plans under which the credit is to be established here had been submitted to government authorities in Washington and had received their approval.

Negotiations for the establishment of a British credit in the neighborhood of \$100,000,000 were reported to be progressing, but not likely to be concluded for several days. It was announced that about 70 per cent of the \$10,000,000 German note issue floated here has been withdrawn by the underwriting syndicate as a commercial investment.
