Yuan Denounces Sun. PEKIN, China, April 6.—Dr. Sun Yat Sen, the southern political leader, the first provisional president of the Chinese republic, has been denounced in a mandate signed by President Yuan Shi Kai for plotting another revolution.

Detectives have reported to the government that Sun Yat Sen appointed agents and sent them into various districts along the Yangtze Kiang and the coast provinces to create disturbances during the negotiations with Japan.

The mandate instructed Chinese military and civil governors to take vigorous precautionary measures. Dr. Sun Yat Sen has been residing in Tokio since the last Chinese rebellion. For the last two years the charge has been made repeatedly that he has been conniving with Japanese officials and receiving assistance from them.

Evidences Against Sun. Foreigners in Peking are of the belief that the evidence is against Sun Yat Sen, but they recognize also that the Chinese government would not be slow to grasp an opportunity to make political capital out of his Japanese connections.

Many other revolutionists have publicly denounced the Japanese demands upon China, but not so Sun Yat Sen. The Chinese government has set a price upon the head of Dr. Sun Yat Sen and he has been in exile in Tokio for two years.
