Bankers, Contractors, Doctors, Farmers, Engineers, Business Men— BUY Buick VALVE-IN-HEAD MOTOR CARS

Men who do their own work well want a car that does its work well. They buy the Buick—because it is sold on facts, from the Valve-in-Head motor on through. They buy the Buick because it does more than was claimed—more than expected. And these men expect much. Eleven years of building valve-in-head motors (in fact, the pioneer builders of valve-in-head motor cars), eleven years record of long mileage per car—eleven years of satisfying the most particular users of motor cars—eleven years of pulling through the heaviest sand and mud, of the steepest hill climbing. No wonder men buy the Buick. The best place to learn Buick qualities is on the road. Demonstration given on request. Fours and Sixes—Price F. O. B. Medford \$1,055 to \$1,800 POWELL AUTO CO.
