**Make Your Dollars Count**

Never before in Medford's history could we offer such a bargain as in a five room bungalow on paved street, with about half of the assessments paid, hard wood floors, paneled walls, a sleeping porch, good garage, lot 50x118, good neighborhood and in addition, furnished to the queen's taste, with all modern appliances, and in a section of the city of Medford, certain to improve rapidly. We are able to offer this at a price that is tantamount to throwing in the lot, the assessments paid and the furniture, and on very good terms.

Don't lose any time on this, for it is the opportunity you have long waited for, to secure something "way up among the pictures" for a very small sum of money.

Had you read these articles about our climate being better than even that of southern California? Most of us have known this for years past. Such a home at such a price in such a climate and amid such surroundings, ought to appeal to any home-seeker.
