

LOCAL AND PERSONAL

About a dozen tramps were lodged on different portions of the north-bound passenger train No. 16 Wednesday night and the train crew decided they should disembark at this point. Sergeant Pat Mego was of another notion, and the wanderers remained on the "blind" and "rods" much to the disgust of the rear brakeman.

TIME TO ELIMINATE BOSS

(Continued from Page 1.)

consider it a dangerous competitor. The corporation controlled about 60 per cent of the output. The Tennessee had an 9-10 per cent of total output. Subsequently the output of the steel corporation shrank to 54 per cent. The action occurred during the height of the panic of 1907. The prime interests of every citizen was that some measure should be taken to stop the panic and restore confidence in New York the situation was trembling on a pair as to whether every business would have to be shut up. One night I received notice that next day Mr. Frick and Mr. Gary of the steel corporation would come to see me. I had received thousands of appeals to do something.

"I notified the attorney general to meet the two gentlemen. He was in Baltimore and could not get there. I then invited Mr. Root. Mr. Gary said if Mr. Pierpont Morgan's company took immediate control of the Tennessee the stock of the company would be enhanced immediately in value and that the result would be the end of the company.

Stopped the Panic

"Mr. Gary told me the Morgan company did not want to buy the stock, as they were trying to reduce their holdings. I asked them to wait until the attorney general got over from Baltimore. They said the situation was acute and that if something wasn't done before the market opened the crash would come. I called in the newspaper men and told them of the action I had decided to take. The news was printed all over the country and the panic was stopped."

"Since you became governor, how many letters have you written?"

"I have written more than 150,000 letters. I have made over 40,000 appointments. I have signed 29,000 laws, carrying appropriations of several billion dollars. I have made thousands of speeches.

No Invisible Government

"I always advised Mr. Platt about having judges. I disregarded his advice on judges, however, more than I did on anything else. Some of the judges I appointed I knew personally. On others I had the recommendation of men I knew or bar associations. On appointments to higher courts I always knew the man or knew all about him."

"While you were governor or president was there any invisible government on your part?"

"There was not one particle," replied the colonel with great emphasis.

SCENE FROM "AS YOU SOW" AT THE PAGE THEATER TONIGHT

There are some plays that never age, whose appeal is always strong because of their humanity and truth. "As Ye Sow" which was produced with great success several years ago, is one of these plays. The heroine of this play, Alice Brady, is an emotional actress whose ability has won her wide recognition. "As Ye Sow", a Wm. Brady feature in five parts will be shown at the Page theatre this evening. The Hearst-Boing weekly is another feature of this program.

ITALY BARGAINS WITH POWERS FOR ENTRANCE IN WAR

ROME, April 29.—Italy is continuing negotiations with the powers arrayed on both sides in the war. The diplomatic interchanges with the allies are designed definitely to clear the atmosphere with regard to what Italy would obtain should she enter the war on the sides of the triple entente. The conversations with the central empires seem to aim chiefly at convincing Vienna and Berlin that this country is determined to remain steadfast in her demands.

It is said to have been pointed out to Germany and Austria that the Italian program has not been framed by the present cabinet, which might be with a change in government, but is based upon the unanimous and insistent demands of the country to which the cabinet must submit or be removed from office. Prince von Buelow still is striving to induce Austria to make concessions and prevent Italy from becoming one of the belligerents.

A member of the government, on the other hand, when asked whether any agreement had been reached with the central empires, made the significant reply: "Nothing has been done and nothing will be done."

Deputy Barsolati, a native of Trieste, who has been elected to the chamber from Rome for the last twenty-five years, speaking of the patriotic event at Quarto San Eleano on May 5, when a monument will be unveiled in memory of Garibaldi volunteers in the presence of the king and veterans of the war of independence, said:

"This will be the official declaration of war against Austria; it will be a challenge of the Latin to the German world."

ROOT GROOMED BY STAND-PATTERS FOR G. O. P. NOMINATION

(By Gilson Gardner.)

WASHINGTON, April 29.—That the voters of the country are keen to turn over the government to some representative of highbusiness is the theory on which the republican managers are booming Elihu Root for president. Root is particularly the representative of special privilege. He was counsel for the tobacco trust and framed the plans and specifications on which this and most of the biggest and most predatory trusts of recent times were constructed. When he was elected to the senate he announced himself to be a republican "of the Hamiltonian school"—which is a learned way of saying that he does not believe in giving power to the common people.

Favors Special Privilege

In the senate Root stood consistently for all legislation favoring special privilege as against legislation for the public welfare. The only difference between Root and Penrose and the latter's stamp is that Root is a better talker and more plausible one.

The plan to nominate Root proceeds on the theory that the people are tired of being asked to give any attention to their political welfare and are willing to turn over the government to their financial masters in the hope that the latter will be kind to them and will hand down a welcome trickle of prosperity in the shape of a little fatter dinner pail. The usual way in which it is worded is that "business is to elect the next President," and that "radicalism and the day of muckraking is at an end."

The Root boomers are taking it for granted that the whole progressive party is going to get in behind the reactionary candidate and elect him as against Wilson, because Wilson is responsible for "hard times." Barnes, Penrose and company are making no concessions to the progressives, are not asking their advice as to candidacies or plans, but are apparently convinced that things are coming so strongly their way that they will not need to make concessions.

EGAN AND EVANS ARE WINNERS IN GOLF MATCH

SAN FRANCISCO, April 29.—The west was defeated by the east in the golf match yesterday between Chas. ("Chick") Evans and H. Chandler Egan, eastern champions, and Heinrich Schmidt and Harry Davis, representing the west, on the San Francisco Golf and Country Club course. The visitors won by 6 up and 5 to play. "Chick" Evans made the best score, going around in 72. Egan playing on the eastern team is a westerner however, residing in Medford, Oregon.

FIRST BAND CONCERT SUCCESSFUL AFFAIR

The first public concert of the newly organized Medford band was given at the city Park Wednesday night under the direction of Leader Curms, in the presence of an estimated gathering of 1000. The concert demonstrated two things—that Medford people like music in the open air and that the band is a worthy organization. All sides of the park were lined with autos and the park filled with people.

Another concert will be given in the near future, and at that time steps will be taken to curb the boisterous boys who, during the program last night annoyed the musicians and those near the bandstand by their conduct. Those in charge of the band request that parents instruct their boys to refrain from play at the concerts. A special policeman will be on hand at the next concert to maintain order among the youngsters.

Mothers Tell of Mother's Friend

Experience is or should be our best teacher. Women who have obeyed the highest and noblest all-sufficient, the struggle for the life of others, should have a letter from "Mother's Friend" to tell them of the help that has come to them from observation.

At any rate when a prospective grandmother is asked to believe in the right kind of advice, its purpose is to furnish plenty to the muscles, to take away the strain on the cords and ligaments, to relieve the tension of nerves and tendons so as not to provoke or aggravate nausea, morning sickness, twitches of the limbs and so on. It is applied externally.

Although, in the nature of things, a woman would use "Mother's Friend" but rarely, yet so effective has it been found that this splendid remedy is on sale in most drug stores throughout the United States. It has been prepared by Bradfield's Regulator Co., 306 Lamar Bldg., Atlanta, Ga., and advertised by us for over twenty years. Ask at the drug store for a bottle of "Mother's Friend." It is worth while.
