An effort has been launched by the Roseburg and Salem commercial clubs for the shipping of the "Liberty Bell" from Philadelphia to San Francisco fair, via Portland, over the Southern Pacific route, giving the people along the line a chance to see the most highly prized national relic. It is not likely that the effort will bear fruit, as the directors in charge of the bell will likely send it by the southern route to the fair, exposing it to as little of the risks of railroad travel as possible.

Pop corn Crispettes at De Voe's.

Frank Farrell of this city returned Saturday from a week's business trip to Sacramento.

Matinee, the Page today.

The chilly weather of last week decimated thousands of house flies in their infancy. Before the sudden change in the weather the insects slated for a general swarming were getting ahead of the swatters. All their gains were lost by a counter attack of the weather man.

SUBMARINES SINK SWEDISH VESSEL AND FISHING BOATS

LONDON, May 3.—The Exchange Telegraph company has received a dispatch from its correspondent at Copenhagen saying that the Swedish steamer Elida, timber laden from Helsinki to Hull, has been torpedoed in the North Sea by a German submarine. She went to the bottom in less than three minutes.

The sixteen men and two women on board the vessel barely had time to escape in one of the small boats. After cruising about two hours they were picked up by a Danish schooner and landed at Lemvig, Denmark.

ABERDEEN, Scotland, May 3.—Trawlers making port today declare that a German submarine sank two trawlers within fifty miles of Aberdeen Sunday.

The crews of the two vessels, it is believed, lost their lives.

It would appear as though the submarine ran amuck under the Aberdeen fishing fleet. In addition to sending two to the bottom it chased three others for twenty miles. A patrol boat was then seen approaching, whereupon the submarine submerged.

NEWCASTLE, Eng., May 3.—The Norwegian steamer American was torpedoed in the North Sea on Saturday. The vessel sank within two hours. The crew of the American consisting of thirty nine men was picked up thirteen hours later by the Norwegian mail boat Sterling, and was landed at Newcastle today.

The America left Sunderland Saturday morning for Bergen.

NORWEGIAN VICTIMS OF SUBMARINE

LONDON, May 3.—The Norwegian steamer Baldwin was sunk by a German submarine in the North sea on Sunday.

The members of the crew, numbering seventeen men, were allowed to take to their boats. Today they landed at Leith.

Nine shots were fired into the Baldwin before she went down.

COPENHAGEN, May 3, via London, 6:10 p. m.—The Norwegian steamer Laila was sunk in the North sea on Friday by a German submarine. Her crew was landed at Copenhagen today by the steamer Anna, which witnessed the sinking, and at the request of the German submarine took the crew of the Laila aboard.

AMERICAN SHIP CRIPPLED

(Continued from Page 1.)

these were the two men reported yesterday to have jumped overboard.

Including her officers, the Gulf-light had thirty-eight men aboard, most of them hailing from Gulf of Mexico ports. Ship and cargo, according to James Kennedy, marine superintendent of the company, were valued at \$1,000,000.

Mr. Kennedy said he was waiting further advices before communicating with the state department. A report of the losses sustained included the lives lost, will undoubtedly be filed with the state department. The Gulf-light's cargo, Mr. Kennedy said, consisted of gasoline and oil, consigned to firms in France, and not for the French government.

Relief of Families

PITTSBURG, May 3.—It is not the purpose of the Gulf Refining company, owners of the Gulf-light, to press any claim through the United States government at this time, according to George S. Davidson, president of the company.

"I will be in Washington and will call at the state department," said Mr. Davidson. "Our property was covered by insurance in no way connected with the government marine insurance. That, of course, will be paid, and the only matter to be taken up with the government will have to do with relief for the families of Captain Gunter, the wireless operator and the seaman, whose deaths resulted from the attack."

Dead Wireless Operator

CHICAGO, May 3.—Charles C. Short, the wireless operator reported to have lost his life when the Gulf-light was torpedoed, was making his first trip as a wireless telegrapher. He was 22 years old and was not married. He lived here with his widowed mother. He learned telegraphy while a soldier in the Philippines.

BEER GUZZLING SPOILS ENGLISH APPLE MARKET

Because English stevedores loved beer more than their country, American apple shippers lost the full benefit of the European market this spring when demand and prices were stronger than anywhere in this country, if not the entire world. New towns in prime condition and desirable sizes became very scarce and advanced rapidly to a range of \$2.65 up to \$3.15 per box, which was equivalent to \$1.65 to \$2.15 f. o. b. Only a few sales in the United States at the top of the season reached \$1.25 f. o. b.

Big shipments sought stowage at New York, but were refused, except very small parcels, for which space had been contracted long in advance. Steamer space was very scarce, caused by congestion of English ports and long delays in discharging cargoes. Explanation of this condition is afforded in a letter to the Northwestern fruit exchange from its London agent. He says:

"Apart from the delays which are being experienced consequent upon the labor shortage, there is further trouble between stevedores and men at some of the London docks, which has resulted in a cessation of work. Some of these individuals sought to be in the trenches at the front instead of whining about how many extra shillings they ought to have a week for the sole purpose, in a good many cases, of guzzling beer.

"Labor has seen fit, in a good many industries, to take advantage of the country's position by practically putting a selling price on patriotism. There are plenty of facilities in connection with government arbitration boards which insure a continuance of work whilst the men's claims for more money are justly considered. The beery patriot does not seem to care for this, however. Such Union conditions for striking and liquor soaking may never again occur in the world's history."

ASHLAND TEACHER GETS AN EXCHANGE

ASHLAND, May 3.—Miss Hallie Thomas has been appointed by Superintendent Alderman one of three teachers from the Portland schools to benefit by an interchange of school work with the educational system in vogue at Brockton, Mass., a like number of eastern teachers coming to Portland. Miss Thomas is well known here. She is a sister of Cliff Thomas, formerly assistant cashier at the Bank of Ashland, under the old regime. She has been primary teacher at the Kenton school and is the retiring president of the Portland Grade Teachers' association, the largest women's club in that city, having a membership of 600. The appointment is for one year. A portrait of Miss Thomas appears on the last page of the Portland Journal, Thursday, April 29. This educational exchange had struck Ashland also some time ago and the adoption of it is pending before the school board. If entertained, it perchance means that two of our most proficient seventh grade teachers, the Misses Ila Myers and Margaret Power, may possibly make the pilgrimage to Massachusetts in the vicinity of dear old cultured Boston, Ashland in turn to entertain two New Englanders.

GERMANS WIN OVER RUSSIANS

been predicted in Petrograd dispatches as an offset to Russian efforts farther east on the Carpathian front. The direction in this new and sudden stroke has been made, evidently in great force, lies to the south of Russian Poland. The line along which the Austrian advance was made runs for about sixty miles north and south through Galicia, something more than fifty miles east of Cracow.

Sharp fighting has been resumed in Fluders. French, German and British official statements tell of German attacks near Hill No. 60, and St. Julien, both in the Ypres region. The Paris and London communications say the German onslaughts failed, but Berlin characterizes the movements as successful.

NEXT SATURDAY IS COMMUNITY DAY

Medford will royally entertain on Jackson County Community day next Saturday, May 8 and the occasion promises to be the biggest get-together day in the history of southern Oregon.

The committees are actively at work making preparations and there will not only be a free concert by Medford's band of over 40 pieces, but there will be free movies and the big event of the day will be the community dinner in the city park free to all visitors.

Community day is a new thing in the west but it has met with great success in the middle west and east and has been proven a splendid way to get together and to meet your friends and neighbors from all over the county and talk over old times.

Word has been received from different parts of the county that the occasion is meeting with favor and those who stay away will miss a great treat.

Come, bring the whole family and enjoy the entertainment to be furnished by Medford's business men.

PLAN FISH LADDER AT BUTTE FALLS

Deputy District Game Warden Sam Sandry has been instructed by Master Master Fisher Clanton to investigate the cost of blasting a fish way at Butte Falls to facilitate the passage of fish up Big Butte, thus bettering conditions for the fish and the fishermen. Sandry will leave today for Butte Falls on this mission.

The game warden will also inspect conditions in the Applegate country where it is reported that scores of fish are being killed by going up un-screened irrigation ditches. Steps towards securing screens over the intakes of irrigation ditches will be taken.

OLD CHANNEL MINE CONTROL DECIDED

The control of the Old Channel mine, that historic and rich placer mine, located in the Galileo Creek mining district in Josephine county, Oregon, has been finally placed in the hands of the federal court in bankruptcy, after a controversy covering nearly three years, by a decision recently handed down by the Oregon supreme court, in which it reversed the order of the lower court authorizing the state court receiver, J. F. Reddy, to sell the property.

Attorney G. M. Roberts of this city represented William Urieck, trustee of the federal court in bankruptcy, and Attorney A. C. Hough of Grants Pass, represented the state court receiver, J. F. Reddy.

This decision will in no wise affect the active operation of the mine, for the Seattle parties, who are now working it, have a contract to purchase the same from the federal trustee, so that in the future, the clean-ups from this mine, which until recently has been idle for several years, will help to make southern Oregon noted for its mineral wealth.
