Very often the young man who can't make up his mind what he wants to be hasn't a mind to make up.

She—'Tis true that I have broken the engagement; but do you know why I re-tain that ring?

He (re-fully)—On the principle that: to the victor belongs the spoils. I suppose.—Boston Transcript.

While traveling through Alabama a young salesman was one day forced to dine at a farmhouse.

There is a certain Ohio judge whose wit has enlivened many a dull case. On one occasion counsel made in his court this statement on behalf of a plaintiff of somewhat bibulous appearance:

My client, your honor, is a most remarkable man and holds a very responsible position; he is manager of a waterworks.

LEST THE TRUTH BE KNOWN

ONE of the most notable acts of the present administration was the creation of the commission on industrial relations.

Macaulay prophesied years ago our republic would not endure. He said that while we had a vast undeveloped country, our problems would be simple, but that the test would come when the lands of the public domain were all taken and our population had increased to the ratio of European countries.

Lord Macaulay's idea of government was that of one founded on classes—a ruling class and a working class—the latter to be kept in subjection by the military arm of the government.

The federal commission in its investigation has gathered material to show that poverty, oppression and exploitation of the mass of our people is rapidly bringing the same conditions that have oppressed the masses of Europe for centuries.

We can now see not the coming, but the presence of some of the evils the historian predicted. The conditions of the tenant farmers under the landlords of Texas and Oklahoma, are as bad, if not worse, than the tenants of the dukes and earls of Great Britain.

The exposure of conditions is so damnable that plutocracy fears its effect and wants its work stopped. Their demand is that THE TRUTH OF CONDITIONS IN AMERICA SHALL BE SUPPRESSED.

A dictator will need an army of men trained to follow and obey, and this preparation plutocracy has been trying to make for the past twenty years.

When Walsh a few days ago exposed the duplicity and lying hypocrisy of John D. Rockefeller, Jr., he brought upon himself the vindictive persecution of the subsidized press of America.

SLEEP—A FACTOR OF LIFE

By James Rhoderick Kendall of Gold Hill.

(Continued from Friday.) Products which transcend the normal limits of development from the species, are immature, unripe and thus weakened. A giant among men is mentally underdone in the same proportion that he is physically overdone.

Nature in time will eliminate by the inexorable law of selection all those unfit by inheritance. We have an animal dying of obesity. Doctors say it dies of a disease—cholera. Cholera is not a disease. It is nature's executioner.

The vegetable kingdom is already producing oils in large quantities, which can be indefinitely increased, to relieve the vital draft on the body, now verging on extinction.

Each bidder shall be required to deposit with his bid five per cent of the amount of his bid, which shall be forfeited to the county in case the award is made to him, and if he fails, neglects or refuses, for a period of ten days after such award is made, to enter into the contract and file his bond in the manner required by and to the satisfaction of the county court.
