ACCUSED POLICE CHIEF VICTORIOUS AT POLLS

LOS ANGELES, May 5.—Missing actual election by a narrow margin, Charles E. Sebastian, suspended chief of police, was chosen by the people in the primary Tuesday for first place on the mayoralty ticket which will go before the electorate in the general election next month. Sebastian received approximately two-fifths of a vote which probably will not exceed 65,000 of the city's total registration of 200,000.

Commenting upon the result, Sebastian declared it was a verification of his prediction that the immorality charges upon which he is now being tried in the superior court were the manifestation of a political plot which would have a reverse action with the voters.

Frederick J. Whiffen, president of the city council, was beaten for first place on the general election ticket by two to one, but outdistanced four other competitors. The fact that six candidates shared the total vote is assigned as the sole reason Sebastian did not poll a clear majority, and thus achieve election in the primary.

Sebastian's showing in his trial with Mrs. Lillie Pratt, which is not yet concluded, and the supposed attempt made upon his life last night, when two bullets were fired through a window of his home, admittedly had an effect upon the voting today. Up to yesterday political observers had placed Whiffen first with Ralph Criswell, socialist candidate, given a chance against Sebastian.

WILSON TABOOS MIXTURE WITH LABOR DESPUTE

WASHINGTON, May 5.—President Wilson's refusal yesterday to furnish the industrial relations commission with copies of the correspondence with former Governor Ammons of Colorado on the Colorado coal strike was explained at the white house today. President did not care to take any part in the controversy between Chairman Walsh and John D. Rockefeller, Jr., over Mr. Walsh's assertion that an agent of Mr. Rockefeller had written a letter to the president for Governor Ammons to sign.

The president's friends understand he believes the commission should conduct the investigation into industrial conditions for which it was created by congress, without getting into newspaper controversies. While he has not gone into the merits of the discussion between Mr. Walsh and Mr. Rockefeller, it was said today he thinks the object of the commission's investigation is apt to be defeated if published attacks on witnesses before the commission are continued.
