THE SONG OF THE BACK YARD GARDENER

I love to plant the cabbage and till the onion, too; I love to rise at break of day and wade through chilly dew. I love to court the hubbard squash and woo the gentle shive and then set out the family wash and give thanks that I'm alive.

I love the humble bumble bee, who stinks me on the snout. I also love my neighbor's cow, the blasted, banal brute.

I love the sparrow and its mate that roost upon my wash, and I opine that its just great for bugs to chew my squash.

I love, adore and venerate the proud tomato worm, and laud and praise and incubate the old scratching hen. I chase the gladsome hours through with hoe and sythe and spade; I never, never, feel dark blue, I never am dismayed.

I love the fervid, blistering sun that whips my tender green, and hug to death, though all in fun, the bugs both fat and lean, who come and camp upon my lot, and chew and chew and chew; their comradeship I long had sought, I wish they weren't so few.

The cats and dogs that dig and scratch through all my flower beds I tame and love, and neath my thatch I pat their darling heads. The children dear from public school, who play ball on my lawn, I handle with the Golden Rule and put my watch in pawn to buy them candy, gum and things to make their young lives bright. I think the little dears have wings, they are SUCH a delight.

Oh, nothing ever troubles me as through this world I roll; my garden and my fruit are free to every hungry soul, and when I die and reach the gate where Peter sits so stern, I'll doubtless for ten eons wait while sinners take my turn at queuing past the golden post and up the chrystal stair; I'll gladly go below and roast, and speak well of the air. I really never could sing well; I'd look hum in the choir, also, moreover, truth to tell, I AM AN AWFUL LIAR!

UNITED STATES OF WORLD IS DEMAND OF SOCIALIST PARTY

CHICAGO, May 13.—The 1916 convention of the Socialist party will be held in Chicago the week beginning June 11 of that year. This was determined after a spirited contest by New York, by the national committee of the party, which continued its sessions here today. Morris Hillquit, New York, was chosen chairman, and Walter Lanfersiek, Kentucky, secretary. Members of the executive committee are Adolph Germer, Illinois; James H. Maurer, Pennsylvania; George H. Goebell, New Jersey; Emil Seidel, Wisconsin, and Arthur LaSueur, North Dakota.

The following women's committee to perform propaganda work was named:

Gertrude Reilly, New Jersey; Theresa Malkiel, New York; Anna M. Riglar, South Dakota; Ella R. Bloomer, Ohio; Frieda Hogan, Arkansas and Flora E. Forman, Oregon.

Mr. Goebell presided over today's sessions. It was decided to make nominations by referendum. The committee expects to act on resolutions dealing with the European war and the sinking of the Lusitania.

A number of resolutions and proclamations were printed and it was said that they were certain of adoption. They call attention to the alleged "insidious propaganda of American militarism," advocate the repudiation of war debts, urge socialists of the world, and workingmen generally, not to fight or assist in the manufacture of munitions of war and pledge socialists to work for a prescribed peace program at the end of the war. Essentials of this program are:

"No indemnities. No transfer of territory except by consent of citizens of the territory affected. A United States of the world with a world court, an international legislature, international control of strategic waterways, such as the Dardanelles; universal disarmament; universal suffrage and the abolition of secret diplomacy; radical social changes in all countries to eliminate the economic causes of war.

BOYCOTT PUT ON GERMAN BUSINESS

LONDON, May 13, 4 p. m.—Premier Asquith announced in the house of commons today that all "male enemies" over military age will be repatriated. He also said that women and children in suitable cases would be repatriated though some might remain.

In announcing the alien policy of the government the premier said:

"At this moment some 40,000 un-naturalized aliens, of whom 24,000 are men, are at large in this country. The government proposes that all adult males of this class should, for their own safety and that of the country, be segregated and interned. If over the military age they should be repatriated.

"The government recognizes there may be cases calling for exceptional treatment. Women and children in suitable cases should be repatriated, but there no doubt will be many cases in which justice and humanity will require that they be allowed to remain.

"An official body, judicial in character, will be set up to deal with claims for exemption, and as soon as the military and naval authorities have provided the necessary accommodations, those who have not secured exemption will be interned.

"In the case of naturalized aliens, who in law are British subjects, numbering about 8000, the prima facie presumption should be the other way but exceptional cases established to the satisfaction of the advising

body will be specially dealt with. There must be powers of internment in cases of proved necessity or danger.

Premier Asquith mentioned incidentally that 19,000 non-naturalized alien enemies already had been interned in Great Britain.

Mother's Friend Before Baby Arrives

During several weeks of expectancy there is a splendid external embroilment in our "Mother's Friend." In which thousands of women have the most unbounded confidence. They have used it and know. They tell of its wonderful influence to ease the abdominal muscles and how they avoided those dreaded stretching pains that are so much talked about. This safe external application is gently used over the skin to render it amenable to the natural stretching which it undergoes. The myriad of nerve threads just beneath the skin is thus relieved of unnecessary pain-producing causes and great physical relief is the result as expressed by a host of happy mothers who write from experience. It is a subject that all women should be familiar with as "Mother's Friend" has been in use many years, and is recommended by grandmothers who in their earlier days learned to rely upon this splendid aid to comfort.

You can obtain "Mother's Friend" at almost any drug store. Get a bottle to-day and then write for our little book so useful to expectant mothers. Address: Bradfield Regulator Co., 312 Lamar Bldg., Atlanta, Ga.
