The committee appointed by the Farmers and Fruitgrowers league last February to investigate the feasibility of irrigation projects in the Rogue river valley has called a meeting to be held next Saturday afternoon at two o'clock in the public library, when the committee will make its report. It is understood they will favor the project of taking water from Big Butte. The meeting promises to be the largest attended irrigation discussion in the history of the valley, as weather conditions so far this year have left a lasting impression upon many who heretofore regarded irrigation as a fad.

The theater will be closed for a time while the manager is out of town.

Strangely fascinating are the words that come from the cultivated lips of this most interesting young lady whose journey in life has already taken her through all the renowned psychic schools of Egypt, India and Europe. It seems, indeed as if her knowledge must come from that mysterious world of which we all would know, yet longing, cannot know. She looks far away into the dim, mysterious future—the great beyond—across the dark chasm which separates the human body from the fleeting soul—and that which is to be told. The separated are brought together; foes are made friends; lost property is recovered, the mist is brushed away from business ventures, and the hand is so guided that failures are averted, the earth's surface is explored, its treasures laid bare to her mysterious perceptive mind, and while she gives games, dates, facts and figures, her visitor sits dumbfounded at the revelations, she makes to them.

The Future Can Be Foretold
Locked in that mysterious sleep, when the soul shakes off its mortal shackles, Mme. Elsemore, the living breathing, proof of the marvelous powers of Clairvoyance, reads the future of individuals and predicts the outcome of their daily affairs. Not a mind reader or a fortune teller, but one whose soul breaks its earthly shackles and wanders into the labyrinth of space and time, and meets there the skeletons of the past, the realities of your future and returns to this potential sphere to warn and advise you.

She is not a clairvoyant from choice but because fate has so decreed it. No matter what your present trouble may be, or what your past experience has been you will save time and avoid disappointment by at once consulting her. She gives dates, advice facts and information on all matters of interest, in business transactions, law suits, contests, wills mortgages claims, collections, speculations, adventures, stocks and financial difficulties, locates buried treasures. If you care to know what business you should follow to be successful, where you should go and whom to avoid. If you intend to make any changes or start a business, buy or sell property, or, in fact, take any important step. Love, courtship, marriage, if affairs of the heart or emotions of love interest you, she gives the exact and truthful revelation of all love affairs. Settles lovers' quarrels, enables you to win the esteem and affection of anyone you desire, causes speedy and happy marriages, restores lost affections, peace and confidence to lovers and discordant families gives you the full secret of how to control fascinate and charm the one you love. How to make distant ones think of you, even though miles apart. How to overcome evil influences. Office hours 10 a. m. to 8:30 p. m.

Madame Elsemore is an ordained spiritual medium. (Adv.)

With Medford trade is Medford made.

Engineer Kittredge in charge of work on the Pacific highway over the Siskiyou, was a Medford visitor Tuesday and states that, if no rain falls meanwhile, the Oregon portion of the grade will be fit for travel by the end of the week. In the past three weeks, there has been only three days without rain. All the slides have been removed and teams are dragging the roadway.

The California portion has not yet been touched and is impassable on account of slides and the collapse of a rubble wall. To hasten operations, Mr. Kittredge met Engineer Bedford at Yreka Saturday, who promised that work would begin in the next week. The rubble wall will be replaced by a concrete wall. So far the Southern Pacific has done nothing towards constructing the subway under the highway, and a temporary road around has been constructed. It is a year since the subway was agreed upon, but the railroad insisted on doing it themselves.

Engineer Bedford states that the new highway in Shasta and Siskiyou counties, California, eliminates 38 railroad grade crossings, some at the expense of \$25,000, and there is but one grade crossing contemplated in the two counties.

The Real Suffrage Thought of Women

Motherhood is the thought uppermost in woman's mind. And with it, of course, comes the question of comfort, of helpful aids and infusions. Among the best of these is a well known external remedy, "Mother's Friend". It is gently applied to the surface muscles. These are lubricated, loosened, made pliable so they stretch as nature requires without the strain and pain on cords and ligaments. This infusion extends through the myriad of nerves to deeper surfaces, the internal organs. And thus a period of repose must reflect itself not only in the mind of the mother, but upon the babe to come.

Young mothers who have used "Mother's Friend" have written to say how relieved they were at the absence of morning sickness, extreme nervousness, and other distresses of which they had heard and feared. Get a bottle of "Mother's Friend" at any drug store. Simply apply it over the stomach muscle and rest assured of perfect safety and comfort day and night. Write to Bradford Regulator, 400 Lamar Bldg., Atlanta, Ga., for their handsome and instructive book.
