

DEATH IN WAKE OF STORM THRO' MIDDLE SOUTH

FORT SMITH, Ark., May 27.—Six persons are reported dead, two at Talpina, Ok., and four at Checotah, Ok., as a result of a storm which swept western Arkansas and eastern Oklahoma last night and early today. Reports reaching here from Antlers, Ok., also assert that more than sixty persons were injured at Talpina.

Wire and rail communication in the stricken district is almost impossible and some estimates place the loss of life at a larger figure. Property damage, it is said, will reach more than a million dollars.

Fears of serious floods also are increasing. The Arkansas river here today was three feet above flood stage. A cloudburst was reported at Poteau, Ok., but the extent of the damage has not been learned.

KANSAS CITY, Mo., May 27.—Many of the flooded streams in this vicinity are receding today, but reports from a number of points in Kansas and Missouri continue to tell of high water and heavy rains.

At Springfield, Mo., workmen were busy today clearing the streets of uprooted trees and other debris which accumulated last night when a heavy storm struck the city.

A two year old child of Charles Jones, a farmer living near Nina, Mo., was killed when the storm demolished his home. Much property damage was done in Nina and Ozark, Mo.

Reports of distress were received here today from Muscotah, a small town in Atchison county, Kansas, which is said to be entirely surrounded by flood waters of the Delaware and Little Grasshopper rivers.

GIRL'S DEATH PUZZLE TO CHICAGO POLICE

CHICAGO, May 27.—Dr. Eva S. Shaver was held by the police today to explain the shooting in her home last night of Miss Anna Johnson, who was said to have come to the physician's home from Ludington, Mich., a week ago. The girl was found with a bullet wound in her head, in the room of Clarence Shaver, a son of the physician, who also is to be questioned by the police.

W. C. Harvey, living at the Shaver residence, and who found the body, but the police failed to notify them until several hours after the shooting, was arrested. A revolver owned by young Shaver was found lightly clutched in Miss Johnson's left hand. The fact that the bullet which caused death entered the right side of her head puzzled the police. Three bullets had been fired from the weapon.

ROGUE RIVER FRUIT COMPANY WINS SUIT

A jury in the circuit court yesterday returned a verdict in favor of the Rogue River Fruit and Produce association in its suit against the Gilen Chambers company, of Portland, for faulty installation of the pre-cooling plant at the cold storage house. Damages to the amount of \$1825 will be received. Attorney Porter J. Neff represented the association, and O. C. Boggs the defendant.

The other civil suit heard yesterday was the damage suit of A. C. Adams against W. Woolridge for the loss of two horses which Woolridge is alleged to have doctored incorrectly. A verdict was returned in favor of the defendant.

KILLING FROSTS IN EAST

(Continued from Page 1.)

LOCKPORT, N. Y., May 27.—A killing white frost in this vicinity last night did severe damage to the strawberry crop. The damage to vegetables will reach a half million dollars in Niagara and Orleans counties.

DETROIT, May 27.—Frost was reported in various places throughout the state early today. A high wind is believed to have prevented serious damage to crops.

FRENCH WARFARE RESUMED

(Continued from Page 1.)

ally's forces now in the field are following the course dictated by geographical necessity, one army driving toward the river Isère and Trieste, and the other into the Tyrol where the rough country precludes any decisive engagements at so early a date.

London was but little disturbed at the raid last night of a Zeppelin airship at Southampton. Such raids have ceased to be a novelty.

JOY RIDING CHORUS GIRL A TYPE OF THE PAST; MODERN GIRL HARDWORKING AND AMBITIOUS

SAN FRANCISCO, Cal., May 22.—The chorus girl who lives on a "cold bottle and a hot bird" is gone. The chorus girl of today is a very different type. She is just as beautiful as of old and a heap more ambitious. A turn in the "gym" appeals to her infinitely more than a "joy ride."

The chorus "gel" of a few years ago was not concerned with the future, but now the chorus lady realizes that the chorus is an excellent training school for acting, and so she takes advantage of her position to prepare herself for something better.

Many stars have come from the chorus. To see these alluring young maidens on the stage going through their bewildering, flirtations nonsense one would imagine that they were the

most frivolous assortment of young persons in the world. But that reckless air of abandon and gaiety disappears at once, as if by magic, when the final curtain falls and this great bevy of "merry-merry" maidens becomes a collection of hardworking young women with high stage ambitions who look upon their work with the same seriousness as do their sisters in the more conventional walks of life.

gain for this country as the result of the war but he said that for a period after the end of the war the United States would face a difficult situation because of Europe's impaired purchasing power.

PRZEMYSL NOW SAFE SAY RUSSIAN OBSERVERS

LONDON, May 27.—The Times Petrograd correspondent says the Russian military observers consider Przemysl at the present time quite safe and think there is no reason to apprehend the envelopment and blockade of the fortress.

The Times correspondent with the Russian forces, in a dispatch dated at Lvangorod, gives a description of the Russian retreat from the Donajec to the River San.

"The German attack on the Donajec was unparalleled in history," says the correspondent. "Their batteries were massed first in tiers of field guns, then in howitzers and then in the heaviest of mobile artillery, which by a torrent of uninterupted shell fire destroyed the Russian center. But in spite of the fury of the attacks, the Russians retired undemoralized and when the San was reached the gap was closed, the armies were stiffened by reserves and the Austro-German onslaught was stayed. The Russian retreat as a maneuver will rank equal to the retreat from Mons.

FLEET SHELLS AS ALLIES ADVANCE DOWN GALLIOLI

LONDON, May 27, 5:45 p. m.—Official narratives of the military operations on the Gallipoli peninsula from May 6 to May 19 were given out in London this afternoon.

They set forth that on May 6, after the arrival of fresh troops, which included part of the territorial division, a general advance of the allied troops took place. A heavy covering fire was maintained by the allied fleets.

During the night of May 5-6, a portion of the Australian and New Zealand army corps had been transferred from Kales Tepe to take part in the attack. Very severe fighting took place all day long, and by nightfall the allies' line had been advanced from 1000 to 1500 yards. But the left of the advance was checked by a strong Turkish redoubt manned with machine guns.

Just at dusk French troops obtained possession of an important tactical point, which was then thoroughly fortified during the night to serve as a pivot for further operations.

On May 7 the attack continued, the French troops again improving their position, while on the left the twenty-ninth division succeeded just before sunset in driving the enemy back nearly into the village of Kithria.

YOUNGSTOWN, O., May 27.—The northeastern part of Ohio and western Pennsylvania were visited by a heavy frost last night.

YANKEE DOLLAR WORLD UNIT OF FINANCE DEALS

SAN FRANCISCO, May 27.—American profits and the chance for American commercial and financial dominance were discussed today by Dr. E. E. Pratt, chief of the bureau of foreign and domestic commerce of the department of commerce before the joint convention of the California, Oregon, Idaho and Nevada State Bankers' associations.

Dr. Pratt said the American dollar promised to supplant the English pound sterling as the unit of foreign exchange.

He contended the heavy balance of trade against the United States before the European war with the present average monthly balance of \$100,000,000 in favor of the United States. He called attention to the growing ascendancy of the country in the financial world, its success in finding a market for foreign securities valued at \$250,000,000, including foreign loans aggregating \$248,000,000 made since November, 1914. Where the United States formerly was dependent upon Europe for many manufactures and upon London as a financial center, now he said, many of these articles are made in the United States and the country is becoming a creditor nation.

Dr. Pratt predicted the ultimate
