GERMAN REPLY EVASIVE

(Continued from Page 1.)

Charge Law Violations

"British steamers sailing from New York, according to information received from passengers and other sources, repeatedly enried soldiers, artillery, war supplies and contraband to England, the Lusitania on this trip carrying specifically 5400 eases of ammunition, in addition to other war supplies and Canadian troops en route to the front.

"Reference is here made to the fact that earrying explosives on passenper steamers is contrary to American low. It is intimated that the German government would be glad to receive information as to how it happened that ammunition was permitted to be shipped on the Lusitania, a vessel crowded with passengers. Strong phrases are used regarding what is considered apparently the deliberate policy of British shipping companies to protect war shipments by embarking American passengers

on the same ships. Germany contends it is impossible to settle the question whether proper opportunity was given to place the sengers and erew in safety until it is determined whether the regulations adopted after the sicking of the Titame regarding a proper supply of boats and water-titght bulkbeads. which are now a part of the American law, were observed in the case

What About England

Finally the American mediatory als desiring to end submarin warfare and the throttling of food supplies and other conditional contraband for Germany are recalled. The government expressed the desire to know what steps, if any, have been taken to induce Great Britain to embark on negotiations to this end, after Germany indicated her willingness to discuss a settlement on this

The Mitchell ORCHARD LADDER

This ladder is securely braced throughout, a rod under each step, no nails to come out, nothing but rivets and bolts used in its construction. Orders by phone or mail filled promptly. For sale by all dealers and factory. 36 S. Riverside, prone 302-J.

A 1 1/4 H. P. gas engine built into a rubber tired wheel, which attaches to any bicycle in 10 minutes, push a lever and it shoves you along without work, 4 to 25 miles as hour on s gallon of gas for 100 miles. Any member of the family from 7 to 76 can operate it.
