

BURGLAR CACHE FOUND IN JUNGLES OF BEAR CREEK

In a raid upon the "jungles" along Bear creek near McAndrews ford this morning, Sheriff Singler and Constable Hammond found a burglar cache and believe they have found a hot trail to the Rogue River bank robbery and hold-up of the Grants Pass depot, recent daring crimes in this section. Fred Chipp is held in custody, three others made their escape, though chased through the heavy underbrush for half an hour by the officers.

Evidence of two crimes were found in the loot taken from the cache. Articles stolen from the Cranfill & Robnett store in Central Point last winter, and in the recent robbery of a general merchandise store at Eugene were found. Hats, gloves, shoes and blankets were the principal articles recovered.

The gang was cooking lunch when the officers arrived. Two members were at the creek getting water. When they saw the sheriff and constable they ran. Constable Hammond gave chase, but after a half-hour run gave it up. The men uncaught are wanted for an interview on the bank and depot robberies.

The authorities received the "tip" this morning, and were told that the men were heavily armed.

STEEL TRUST SUIT LOST

(Continued from Page 1.)

years since the Steel corporation was formed, it has increased its business about 40 per cent. Nine great competing steel companies have increased theirs more, the lowest one 63 per cent, the highest 3700 per cent.

With the completion of the Erie canal, Lake Superior ores can be brought cheaper to New York harbor than to Pittsburg. This means, the opinion says, blast furnaces on New York harbor waters. On the basis of the actual iron units in ore, Cuban ores can be delivered in Philadelphia at one-half the cost of Lake Superior.

No Ore Monopoly

Facts and figures show that there is no possibility of Lake Superior ore monopoly.

The Cambria Steel company president, the opinion said, showed that the United States Steel could not put it out of business.

James R. Garfield, former secretary of commerce, according to the opinion, showed the Steel corporation got no freight rebates.

MUNITIONS BILL IS GIVEN APPROVAL

LONDON, June 3.—The suspensary bill was read a third time and has passed all its stages in the house of commons.

On introducing the ministry of munitions, the home secretary explained that the war office would be the authority to demand the munitions and that the new ministry would be the authority which would supply them. The bill passed its first reading.

The house of commons adjourned until 11:30 o'clock Friday morning.

STEPS TO ORGANIZE WATER USERS LEAGUE

Further steps toward the formation of the Water Users' league will be taken at a meeting to be held at the public library this afternoon, when the committee appointed to frame by-laws will meet. The committee is composed of Messrs. Thomas, Hart and Dunbar Carpenter, who have been busy preparing a draft of the governing rules. With the adoption of the by-laws an important step toward the securing of irrigation is made.

Many opponents of irrigation expected May to be one long shower. Instead, the rainfall shows a deficiency. This has had the effect of increasing interest in the plan for water. Many farmers and orchardists have taken steps toward digging wells to provide moisture for the coming season.

A general meeting of all the farmers, orchardists and land owners of the valley will likely be called within the next ten days for further consideration of the irrigation plans.

Jane Addams at Berne.

GENEVA, June 3.—Jane Addams of Chicago, accompanied by several of the women delegates to the recent international congress at the Hague, has been presented at Berne to M. Motta, president of Switzerland, by P. A. Stovall, the American minister.

\$5,450 Per Day Spent to Fortify Goodyear Tires

Our experts say: "If Goodyear tires were built like some others, our saving would be \$1,635,000 per year—\$5,450 per day."

The difference would hardly be visible when the tire is complete. But it would probably cost our users a million dollars monthly.

Better Still

But, instead of skipping Goodyear tires, we are building them better still.

Goodyear Fortified tires, for many years, have embodied five costly features exclusive to these tires. We still employ them all.

We spend on experts \$100,000 yearly to find new betterments to add. In the

past year alone we have added improvements which cost us exceeding \$500,000 per year.

Lower Prices

Yet Goodyear prices are constantly coming down. Our last big reduction—on February 1st—made three in two years, totaling 45%.

In view of those facts, don't you think it worth while to get Goodyears? Most men do. Goodyears have long outsold any other tire. They are selling now much faster than we can build them. Any dealer will supply you.
