PRESIDENT SAD AT NEW TURN IN EVENTS

WASHINGTON, June 9.—President Wilson by his every word and act today showed his deep feeling over Secretary Bryan's decision to resign from the cabinet. He accepted the resignation with greatest reluctance and only after he had become firmly convinced that he and the secretary were unalterably apart on the kind of note to be sent to Germany.

Ever since last Friday, when he began to feel that his views and those of Mr. Bryan could not be reconciled, the president has made no secret of his sorrow to his closest advisers. Since Sunday he has seen Secretary Bryan several times and has done his utmost to win him over to his point of view. During a conference the two had at the White House yesterday, however, it became finally evident that Mr. Bryan would leave the cabinet.

AMERICAN CRISIS FORESHADOWS WAR SAYS BRITISH PRESS

LONDON, June 9.—Surfeited as the English public has been with war sensations, Secretary Bryan's withdrawal has created an unusual amount of interest and discussion because it has given a wholly unexpected turn to political events in America.

All the afternoon papers give the largest headlines to Mr. Bryan's withdrawal from the streets call event "the American crisis."

The Evening Standard says: "Mr. Bryan's resignation from President Wilson's cabinet appears to foreshadow a more decided American policy—not necessarily intervention or war. It was such a vision of this, no doubt, which led Germany to dispatch an unofficial emissary to talk unofficially of peace in the United States; he can be disassembled more easily than Count von Bernstorff when the occasion requires. England will not emulate Germany in attempting to bully or cajole neutrals to her policy."

"Political feeling will run high in America during the next few days, but the issues are clear enough, although Germany certainly will attempt to confuse the public mind."

"We already expressed the hope that the United States will not be drawn into the conflict, but it is becoming increasingly difficult for her to remain outside."

RUSSIANS NEAR VISTULA DRIVING OUT GERMANS

GENEVA, June 9.—A Czernowitz dispatch to the Tribune, dated Monday, says:

"The Russians north of Stanislaw have repulsed all Austrian attacks between the Swica and Lomnizza rivers. The Austrians attempted to dislodge on the Dniester, but the Russians inflicted cruel losses upon them. General Baitin's divisions, operating southeast of Kolomea, suffered enormous losses on the Pruth, where the Russians have gained an important success since Sunday. General Baitin was unable to affect a junction with the troops of General von Linsingen."

A Tarnow dispatch dated Tuesday says:

"The Russians are getting nearer and nearer the Vistula, driving before them the troops of General Mackensen, who probably will be obliged to fall back along his entire line. Since Sunday the enemy's losses have been over 2000 killed and wounded. The Russians again have occupied positions on the right bank of the Wyznia. The Bavarian troops suffered heavily in the fighting between Grodek and Komarno. The Russians have stopped the German advance on the Dniester."

General Baitin's left wing is prosecuting a violent offensive movement. The advance of the armies of Generals Linsingen, Sormay and Hoffman is proceeding by forced marches."
