Nibley, of Salt Lake, one of the directors of the Utah and Idaho Sugar company, when he passes through Medford this afternoon en route from the Hawaiian Islands. The beets are of exceptionally good size. Mr. Storey reports that all the beets planted throughout the valley, when given proper care have done well. Mr. Nibley was in Medford during the beet sugar campaign last spring, and requested that samples of the local product be shown him. Samples of beets grown on the "desert" will be given Mr. Nibley also. According to Mr. Storey, if local beets can retain their moisture the next two months they will surpass the world in all requirements.

Roosevelt Favors Wilson, Flays Bryan

NEW ORLEANS, June 12.—Abounding President Wilson for his stand in the disagreement with Secretary Bryan over the issue between the United States and Germany, Col. Theodore Roosevelt, in a signed statement received here tonight from Breton Island, La., pledged his support to the president in all steps he may take to uphold the honor and the interests of the United States.

"According to Mr. Bryan's statement," Colonel Roosevelt says, "he has left the cabinet because President Wilson, as regards the matters at issue with Germany refuses to follow the precedent set in the thirty all-inclusive arbitration commission treaties recently negotiated and declines to suspend action for a year while a neutral commission investigates admitted murder of American men, women and children on the high seas and further declines to forbid American citizens to travel on neutral ships in accordance with the conditions granted to us by Germany herself by solemn treaty.

"Of course I heartily applaud the decision of the president; and in common with all other Americans who are loyal to the traditions handed down by the men who served under Washington and by the others who followed Grant and Lee in the days of Lincoln.

Colonel Roosevelt was told of Secretary Bryan's resignation late Thursday when several members of the Louisiana conservation commission joined the Parker-Roosevelt party at Battledore Island. On receiving a bundle of newspapers, the first he had seen in several days, Colonel Roosevelt inquired: "Has war broken out? Had I better return immediately?"

"It's easy enough to be pleasant When a man has all he requires; If his health is all right His heart will be light While he's riding on Diamond Tires."

—Mr. Squegee

A man is a good deal like a tire. His greatness depends on the crowd he is in.

The really great man—the leader—literally has to meet all comers in the contest for public approval. Any tire is the best tire in a crowd of inferiors. But nowadays a tire has to be extraordinary if it is to make and hold a record for superior service and mileage economy.

It is the extraordinary quality of Diamond Tires that has given them their deserved pre-eminence. Send for our book of letters from dealers who sold Diamond Tires in 1914.

It tells how more than 99 out of every 100 of the more than half a million Diamond Tires sold last year gave maximum service at minimum mileage cost.

It is yours for the asking.

Diamond Squegee Tires are sold at these "FAIR-LISTED" PRICES:
