WILD ANIMALS INVADE ORCHARDS

Farmers and orchardists of the valley have enlisted the aid of the game wardens in eradicating the depredations of deer and other wild animals. Last night five trees in one orchard were stripped of limbs and Deputy District Game Warden Sam Sandry and Game Warden Walker are trying to discover the nature of the animal. Their clue is a bunch of hair glued to the end of a twig, from which pitch had flowed. Opinion is divided whether it was a porcupine or a deer. They are inclined to believe it was a porcupine, as no tracks were left.

People living in the foothill districts report that their crops have received visitations from wild beasts and that their corn and wheat has suffered as a result. They claim the deer are hungry now for green growths. In other sections no deer have attacked the orchards, but it is feared they will kill Jack rabbits are also blamed for gnawing the bark of young trees.

Deer and bear are reported more plentiful than usual this season.

REGISTRY BILL TO REGULATE ENGLISH LABOR

LONDON, June 29, 2:34 p. m.—Walter Hume Long, president of the registration bureau, today introduced in the house of commons a bill for the compilation of a national register, the object of which he said was not to coerce labor, but to secure complete information regarding the resources of the country and to enable them to be satisfactorily organized.

The measure seeks to classify all persons below the age of 65 and to ascertain the present occupation and direction wherein service can be rendered by each.

In introducing the bill Mr. Long said in justification for national legislation that it was the paramount duty of all to bring to the help of the state the organized service of every class and community.

There would be a compulsory registration of the people of the country, both male and female, between the ages of 15 and 65 and everyone would be asked to tell his age and present employment and to volunteer for any special form of employment other than that on which he actually was engaged.

The bank's suit which alleged that the secretary and comptroller had conspired to wreck the bank because of personal animus attracted wide attention.

CANADIAN PACIFIC LOSSES ON MARKET

NEW YORK, June 29.—Canadian Pacific was the feature of today's dealings on the stock exchange, declining to 143 1/2, an overnight loss of three points, and the lowest price since 1908 or at any time since its return of ten per cent dividend. Selling of Canadian Pacific has been more or less persistent since the outbreak of the war, the stock having been a prime factor in the Berlin market. Doubt regarding the maintenance of the present rate of dividend has been one of the chief factors in the stock's weakness. Poor statements of the road for months have been an equally depressing influence. The statement for May shows a net loss of \$520,000 and the net decline at the eleventh month of the fiscal year now exceeds \$8,000,000.

A STRONG ENDORSEMENT W. H. Holmes of the Decorah, Ia., Journal, says: "I have been a sufferer from piles and hemorrhoids for years. I got no relief until my druggist recommended Meritol Pile Remedy. EXPERT TESTIMONY BRIDES IN BATH CASE

LONDON, June 29.—In the trial of George Joseph Smith, charged with the murder of three wives who died in their baths, Dr. Spitzburg, a noted pathologist, today gave expert testimony of the varying effects of a sudden fit or fainting spell upon a person in a bath. In the case of Alice Burnham, one of Smith's three wives, Dr. Spitzburg declared, it would have been impossible for a person of her size to have been in such a condition, submerged in either a sitting or a lying position in the bath tub that had been produced in court.

Replying to counsel for the prisoner, Dr. Spitzburg declared that with the amount of water that was in the tub it would not have been difficult to drown a person forcibly.
