Bringing a target pistol into play, Mr. Upson laid two of the visitors low at the first two shots, but by that time, the animals having adopted modern fighting methods, they fired a few gasp-astounding bombs at the attacking party, spilling the aim, and there was quite a bombardment before the last of the black and white thieves had turned their toes skyward.—Grants Pass Courier.

ROCK ISLAND TO BUY 20,000 TONS OF STEEL RAILS

CHICAGO, June 30.—Judge Carpenter in the U. S. district court today directed the receivers of the Chicago, Rock Island and Pacific Railway company to purchase 20,000 tons of steel rails at the lowest possible price and to pay for them out of earnings.

The court denied a petition of the Amstar committee, representing minority stockholders, in which the court was requested to authorize the payment of \$500,000 interest on the proceeds of the sale of \$2,500,000 of receivers' certificates, authorized two days ago.

This interest falls due on July 15, but a default cannot be entered until 60 days thereafter. The receivers hope to pay this interest out of earnings before September 15.

SCUTARI IS PRIZE OF MONTENEGRO

PARIS, June 30.—Describing the occupation of Scutari, Albania, by Montenegrin troops, the correspondent of the Havas agency says:

"Muslims, Catholics, members of the orthodox faith, members of the government, the police force, the schools and the population, preceded by flags and bands, marched out of the city. At noon came the triumphal entry of the Montenegrins, preceded by an advance guard. Following the advance guard were priests in their ceremonial robes, carrying the cross and religious standards; then came the main Montenegrin army, led by General Vechovitch and the Montenegrin consul and bands of irregular Albanians followed.

"The Austrian consul lowered the flag and placed the consulate in the care of the Greek consul.

"The general staff of the troops occupying Scutari have taken charge of the administration of the city, declaring that citizens must henceforth consider themselves of Montenegro and be judged according to Montenegrin law and that disturbers of the new regime will be punished by martial law.

"General Vechovitch addressed the foreign consuls, saying that he was taking possession of the city in the name of King Nicholas. Patrols guard the consulates and public buildings."

GRADING BEGINS ON TWOHY ROAD

(Grants Pass Courier) A string of teams with scrapers and tools for working upon the railroad grade has been leaving for the scene of action all day today to join those that went out yesterday. Work is being commenced in an active manner under Contractor Anderson's direction, and there will be no doubt about his having the roadbed made ready for the ties in 90 days, according to the terms of the contract.

Twohy Brothers company has also instructed Engineer Harmon to advance for the cutting of 16,000 ties, bids to be received up to noon on July 8, at the office of the California & Oregon Coast Railroad company in the Public Service building.

The logging cars that arrived Sunday have been transferred from the Southern Pacific tracks to the new line, and have been put into commission at once. A good many logs are being cut along the right-of-way, and the mills are cutting them about as fast as they could be hauled heretofore. This new equipment will greatly relieve the pressure, however.

RUSSIA GIVES EVERY AID OF LAND FOR MUNITIONS

LONDON, June 30.—The Russian board of military supplies has, according to a Petrograd dispatch to the Morning Post come into effect with a celerity absolutely astounding if not unprecedented. In effect, the measure bringing this board into existence hands the whole of Russia over for the production of munitions to a board empowered to expend unlimited money and take whatever steps are deemed necessary to acquire supplies. It gives it practically unlimited power over all the private industries of the country.

This, adds the correspondent, is Russia's reply to the German success in the Galician adventure.

RUSSIANS IN RETREAT

(Continued from Page 1.)

According to Petrograd statements, which mention "enormous losses" inflicted in the endeavor of the Austro-Germans to throw disorder into the Russian ranks during the withdrawal from the Dnieper region north of Hattiz.

HUERTA PLOTTERS UNDER ARREST ON U. S. BORDER LINE

EL PASO, Tex., June 30.—General Marcelino Caraveo, Ike and Frank Alderete were arrested by federal officials today in connection with the alleged Huerta plot to launch a new revolution in Mexico. They were arraigned before George Oliver, United States commissioner.

Caraveo's bond was fixed at \$5000 and \$4000 each was fixed for the Alderete brothers. This makes a total of six arrests on similar charges since General Victoriano Huerta was taken from a train at Newman, N. M., last Sunday and brought to El Paso with General Pascual Orozco by United States officials. Yesterday Jose Zozaya was taken into custody. Zozaya is owner of a large warehouse where officials recently found a quantity of machine guns, rifles and ammunition.

General Caraveo is known to have been in conference with Huerta yesterday. He was one of Orozco's chief officers in the latter's revolt against the late Francisco Madero. The Alderete brothers are residents of El Paso and are two of the bondsmen who furnished surety for Huerta and Orozco.
