The people of Grants Pass Wednesday at a special election voted \$14 to 70 against to ratify the contract with Twoby Brothers turning over to them the municipally built railroad, for which the city voted \$200,000 bonds, in consideration of the railroads extension to Waiilatpe. A clause in the contract provides that in case of war, the Twobys are given until six months after peace is declared to resume work.

DENVER, Colo., July 15.—The case of Te-Ne-Gat, the Plute Indian on trial in the federal court here charged with murder in connection with the killing of Juan Chacon, a Mexican sheepherder, was given to the jury today.

FIRE DESTROYS BUSINESS SECTION VALDEZ, ALASKA

VALDEZ, Alaska, July 15.—Fire today destroyed the business section of Valdez. Loss five hundred thousand dollars. United States troops from Fort Liscum aided in fighting the flames. Dynamite was used to check the fire. No rain had fallen for weeks, and the wooden buildings were as dry as tinder. Strong winds from off the huge glacier that discharges its debris just behind the town, fanned the flames.

Valdez, a town of about 500 inhabitants is situated at the head of Port Valdez, Puget sound, and gained commercial importance because it was the coast terminus of the Fairbanks-Valdez trail, which was for many years the only winter route between the lower Yukon and the coast. Three thousand prospectors used the trail in 1898, when the gold excitement was at its height. The huge glacier that discharges its water and sand a few miles behind the town was a source of benefit to Valdez, because it was used by many prospectors in entering the mountains in search of gold. Much placer gold was found in the country tributary to Valdez, but the fields have been worked out. There are promising gold quartz ledges near Valdez. The bodies of many prospectors who fell into the crevasses of the glacier are still entombed. The streams from the glacier have in some hot summers been a peril to the town, threatening to wash it away, and the government had often been importuned to take steps to control the water.

EDITOR IS FINED FOR REFUSING TO DIVULGE NEWS

DENVER, Colo., July 15.—Judge John A. Perry in the district court today fined Arthur MacLennan, managing editor of the Denver Times, \$250 and costs for contempt of court in refusing to divulge information to a recent county grand jury.

Contempt proceedings from the incident in the state legislature last winter when a package of currency was delivered to Representative W. W. Howland on the floor of the house. The Times printed an account of the "package of money" affair which later was investigated by the grand jury. MacLennan was summoned before the grand jury and ordered to reveal the source of the information upon which the first story in the Times was based. He refused, maintaining that the information reached him in a confidential communication.

In pronouncing sentence the court said: "There seems to be a notion current among members of the press that they are privileged from disclosing the names of persons who give them information which is made the subject matter of their articles, a notion, however, which the respondent ought to have understood to be wholly erroneous, after this court made its order of April 19."

STRIKE THREATENS THE KRUPP WORKS

GENEVA, Switzerland, July 15, via Paris.—A report has reached Basel that a big strike is threatened at the Krupp works at Essen, Germany, the movement being headed by the union of Metallurgical Workmen and the Association of Mechanics. They demand higher wages because of the cost of living and shorter hours because of the great strain under which they work, the report says.

The workmen are said to be in an angry mood and threaten the destruction of the machinery unless their demands are granted immediately. They have been put off for three months with promises.

Looking Forward to Motherhood

Experienced mothers everywhere are recommending "Mother's Friend," a wonderful help to all expectant mothers. It is gently applied over the muscles, makes them firm and pliant to accommodate expansion without the usual strain and pain. This also overcomes nausea. It has a most refreshing soothing influence and is declared one of the greatest aids we have for the mother-to-be. Don't fail to get a bottle of "Mother's Friend" today at any drug store. Write to Bradfield Regulator Co., 105 Lamar Bldg., Atlanta, Ga., for a handsome book that you will greatly enjoy. Mailed free.

ENRIQUES CHIEF IN MEXICO CITY ADMINISTRATION

WASHINGTON, July 15.—Advices to the Carranza agency said Colonel Ignacio Enriquez, formerly consul at New York, had been appointed municipal president of Mexico City to have charge of the civil administration.

EL PASO, Texas, July 15.—General Villa has abandoned San Luis Potosi, according to reliable although unofficial information. This action has given to Carranza possession of all but one of the important points on the railroad from Mexico City to Laredo on the American frontier. Villa, so far as is known here, continues to hold Queretaro, but with a small force, now isolated. His own position at Torreon is regarded by military observers as precarious.

By the abandonment of Aguas Calientes and Zacatecas, Villa has yielded to General Obregon, the means for support from the east, although as yet communit action does not appear to have been established. The forces of Villa destroyed long stretches of railway both east and south of Obregon and south of Queretaro, but there is no evidence that he has any considerable force in any of those directions to hinder repair work.

From the interior it was reported today that the Carranza forces from Monterey were planning to co-operate with Obregon by moving westward against Villa at Torreon, while another force is attempting to get between him and the American frontier by a march westward from Monclova.

MONEY FAMINE THREATENS CAPITAL CITY OF MEXICO

WASHINGTON, July 15.—Mexico City, freed of the perils of siege and with prospects of food for the starving, now is confronted with another famine—a scarcity of money. Millions in currency issued by the various factions in control of the capital passed back and forth between them during the last year have been repudiated by each succeeding government.

Although supported by decree while the issuing faction remained in control, all such currency now in the hands of the populace is of doubtful value. Villa issued large amounts as did Zapata and when General Obregon first occupied the city for General Carranza, he made a large issue. Now that food may come in, many of the famished, although possessed of some kind of money, may be unable to buy with it. Officials here have been expecting that the Carranza government will act to regulate the situation. Travelers arriving yesterday at Vera Cruz reported Mexico City quiet and said foreigners were safe from molestation. The populace seemed indifferent to the shifting scenes of government.

LONDON, July 15.—Two strongly held Turkish lines defending the Dardanelles have been captured by the Anglo-French forces on the Gallipoli peninsula, according to announcement given out this evening by the British official press bureau.

PACIFIC HIGHWAY ROUTE RELOCATED TO AVOID CROSSINGS

County Commissioners Leever and Madden have rescinded their action locating the Pacific highway from Central Point to Tofo on the west side of the Southern Pacific and have accepted the alternative route favored by State Highway Engineer Cantine and Judge Tour Velle, eliminating grade crossings.

"I studied the question carefully," said Commissioner Madden last night "and believing the interests of Jackson county people living north and west of Central Point more important than the interests of tourists I decided upon the route which I thought would best serve them. I was perfectly sincere in that stand but I came to recognize that the majority of the people of the county were against me. As I am a public servant and consider my paramount duty to carry out the wishes of the public, I decided to abandon my personal preference, and support the route supported by the majority. Mr. Leever for the same reasons accepted the same view."

"No person is above mistakes and when a public official finds that his view is not the view of the people he represents I consider it his manifest duty to regard himself not as a free agent but as merely a medium through which the people a right to make their will effective."

WASHINGTON, July 15.—A train between Vera Cruz and Mexico City has been wrecked by a bomb near Apizaco. The explosion killed and wounded many persons. A cablegram from Vera Cruz to the state department says it is uncertain whether the train left Vera Cruz July 12 or 13. The railroad has discontinued selling tickets to Mexico City.

Deafness Cannot Be Cured

by best applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutionally remedying the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases out of two are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give you Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.
