GOVERNOR DUNNE WAS TOLD MEDFORD WATER TANK STOP

Governor Dunne of Illinois and family and party arrived in Medford this morning and were taken by auto over the Pacific highway, thence over the Scenic Drive, by autos from this city. The governor and ladies of the party were taken in the C. H. Chadwick car. The party was composed of the following:

Governor and Mrs. Dunne, the Misses Eileen, Mona and Geraldine Dunne, Maudie Dunne, Hon. James J. Brady, Hon. and Mrs. Francis G. Blair, Hon. and Mrs. P. J. Lacey, Miss Geraldine Lacey, Hon. and Mrs. Adolph Karpen, Hon. and Mrs. William A. Tilden, Hon. William L. Sullivan, General and Mrs. Frank S. Dickson, Colonel S. O. Trapp, Colonel Edwin Romberg, Colonel and Mrs. M. R. Kelly, Colonel James K. Finn, Lt. Colonel Jacob Frank.

Medford was not on the railroad map furnished the Illinois party. Governor Dunne stated that their information was that there was nothing at Medford, that it was a water tank town, and the party hesitated to make their short visit because of unfavorable reports. They were more than pleased with the city, and an effort is being made to ascertain where they received their impressions.

Miss Ethel Vernon of Bloomington, Delaware and Mrs. E. Estelle Tillman and daughters of Columbus, who were on the same train, received the same reports at Portland, and were told there was nothing here and not to stop, but their glimpse of the city from an ear window induced them to disembark and as the train pulled out they got off and left this afternoon to see Crater Lake. They will return Saturday.

Governor Dunne sent back a wire thanking the ladies of the Greater Medford club for the flowers with which the car was decorated during the stop in Medford.

MILLIONS OF RUSSIANS PRAY FOR VICTORY

LONDON, July 22.—Telegraphing from Petrograd, the correspondent of the Times says:

"Novogeorgievsk, one of the greatest of the Russian fortresses, is effectively standing sentinel for Warsaw from the northwest. The range of its guns attains the Bzura line and the German advanced columns on the Narva. The fighting for possession of the right bank of this river is expected to occupy some time.

"Evidently the last word has not been said before the Russians withdraw from their positions guarding the Polish capital; but the public is prepared for the worst and today through the empire millions of worshippers are joining in a prayer of victory."

The Daily Mail's Petrograd correspondent telegraphing Wednesday said:

"Yesterday evening the bells in all the churches throughout Russia clanged a call to prayer for a twenty-four hours continual service of intercession for victory. Today in spite of the heat the churches are packed. Hour after hour the people stand wedged together while the priests and choirs chant interminable litanies. Outside the Kazian cathedral here an open mass is being celebrated in the presence of an enormous crowd."

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed. As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal.

For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold."

WOMAN WHO LEADS IN LABOR'S BATTLES

Men no longer monopolize the limelight in labor's fight for industrial advancement. The 60,000 million garment workers of New York have called upon Gertrude Barnum, heroine of many strikes, to aid them in their conflict with Cook, Suit and Skirt Manufacturers' association.

BRITAIN CONSIDERS TAX ON IMPORTS

LONDON, July 22.—Under the present exceptional circumstances the question of further taxation on imports needs serious consideration and the government and the chancellor of the exchequer will give the matter their attention, said Premier Asquith today to a deputation of bankers and merchants.

The premier fully concurred in a suggested wider application of the income tax and in the above tentative form endorsed the idea of broadening the basis of direct taxation.

IDAHO FALLS, Idaho, July 22.—

Citizens of Idaho Falls waited anxiously today for word from the posse that left yesterday for the wild country in the mountains near the Idaho-Wyoming line in search of E. A. Empey and his captor. No word had been received up to 3 o'clock from the posse. Empey is being held for \$6000 ransom.

TURKS CLAIM TO BE HOLDING OWN ALONG GALLIPOLI

AT THE GALLIPOLI FRONT, July 11, via Berlin, July 22.—The operations of the last week in the Asiatic region have been confined on the part of the allies to several offensive movements of no great strength against Turkish trenches. Losses of the allies were considerable. Attempts by their artillery to support their infantry resulted on July 7 in the shelling of one of their own trenches.

The Turkish artillery continues to be active. New batteries have been brought upon the Asiatic shore and in the rear of Seddul-Bahr, and since July 6 have caused heavy losses in men and material to the allies, whose camps and bases are now constantly under fire. Seven ammunition depots of the allies were exploded during the period from July 6 to July 10. This was due principally to the fire of Turkish batteries on the Asiatic shore. Against these batteries the artillery of the allies is powerless and an attack on them from sea is prevented by German submarines.

According to wounded British soldiers who have been interviewed, it is now a favorite device of the Turks to abandon part of a trench to the invading allies and then cut them down by a deadly enfilading fire.

The situation today is the same as it was prior to June 21 when the allies launched an offensive movement which collapsed.

CALLES TO ATTACK MAYTORENA'S FORCES

NOGALES, Ariz., July 22.—Americans returning today from Cananea reported that General Calles, the Carranza commander whose troops are now within twelve miles of Nogales, probably would not attack the town

where Jose Maytorena has concentrated practically all the Villa troops in Sonora.

It was said that Calles was satisfied with having possession of practically the entire state, and would not start a siege or battle which would endanger life and property on the American side.

NEW YORK, July 22.—Kid Lewis, English lightweight, outpointed Charley White of Chicago by a small margin in their ten round bout here tonight, according to newspaper critics. Until the last round, when Lewis used a left jab to the head with great effectiveness, the outcome was in doubt.

Tires That Fell Looked Like Goodyears at the Start

Don't trust looks in buying tires. Great tires and skimpy tires, in plain treads, look about alike. The vast differences are hidden.

The Goodyear extras on our output this year will cost us \$1,635,000. That's for five great features used by no one else, and for other features commonly employed. Yet you cannot see them.

In addition, it costs us \$1,000,000 to make our All-Weather tread double-thick. That means deep, enduring grips. Yet dozens of regular treads, with shallow designs, pass for anti-skids.

Snap Judgment Don't buy a tire on somebody's snap judgment. He may have
