Guillaume and set on Dr. Rosaly's babies.

Up to the present the fighting has been largely on the northern coast of the island.

Rear Admiral Caperton, United States navy, has been in command of the American cruiser Washington in Haitian waters since early in July. The French also have had a cruiser on the Haitian coast.

The Bohm revolt was declared a few days after General Guillaume was proclaimed president of Haiti by March.

BRITAIN PREPARES NEW ANSWER TO AMERICAN NOTE

WASHINGTON, July 27.—Sir Edward Grey called Secretary Lansing today that the British government has in preparation another note to the United States on the orders in council, and asked that the note delivered yesterday be withheld from publication, pending receipt of the new communication. Therefore, yesterday's note will not be published tomorrow morning, as had been planned.

The message said the new note would be here in a week. In official quarters the development was regarded as highly significant. The belief prevailed that the last American note to Germany with its references to the freedom of the seas may have influenced Great Britain to place herself on record as advantageous to take under consideration any new suggestions by the United States to the belligerents.

Sir Edward Grey's request that the note received yesterday be withheld, was taken to mean at all events, but there is a gradual revival. "I think northern California and southern Oregon are bright with promise for development. I have always thought so, hence my investments, and those of my friends."

Mr. Grant will leave tonight for San Francisco.

GRIEVE LOWEST BIDDER CRATER LAKE ROAD

Bids for the building of the new road entrance into Crater Lake Park were opened by the county court this morning, but no award was made. John Grieve was the lowest bidder. The new road will shorten the distance, and be a mile and three-quarters in length. It will lead through the Pinnacles, compared with the Palisades of the Hudson in beauty, and up Castle Creek canyon, also noted for its scenery. The road will follow a water grade.

NURMI USES MODERN METHODS IN BAKING

The Nurmi Baking company has recently installed three new machines and now have one of the most up to date sanitary plants on the coast. This company commenced business in Medford ten months ago and by giving the people the best that can be made by modern methods from best materials and by advertising freely have built up a wonderful business for "Butter-Nut" and "Pan-Dandy" bread all over the county and city and have a big out of town business. They are now baking 3000 loaves of bread daily, have baked as high as 5,000 and hope to reach their capacity soon of 8000 loaves daily and will then install another oven and increase the capacity to 12,000 loaves.

Their object of advertising liberally is not to take business from other bakeries but to increase the demand for bakery bread and pastries and discourage home baking.

They invite visitors any day from 6 to 8 p. m., except Saturdays, when their baking is in progress. Their process is as follows: Flour is first put in a power sifter and from that it is dumped into a power mixer, then into troughs where after being properly raised it is put into the new divider where it is scaled into loaves, carried on belts into the rounding up machine and then into the automatic proofer where it remains from four to 10 minutes and is then discharged into a molding machine and from there it is ready for the oven. All this work is done automatically by machinery and the only time the dough is touched by hand is when it is taken from the troughs and put into the divider and when it is put in pans for baking.

KAISER TO ENVELOP RUSSIANS.

has mowed them down in masses. The Austrian losses would appear to be the heavier, according to the newspapers. The Italian army has lost a general officer on the Austrian frontier. General Antonio Cantore was killed in battle while at the head of his men.

A correspondent on the Italian front of a German newspaper has described the fighting along the Isonzo river as the mightiest and most frightful of the war. For seven days it has been going on and no results have yet been attained. Captive balloons are being used to direct the fire of Italian artillery and Italian aeroplanes are being brought forward in attempts to destroy the railroads in the rear of the Austro-Hungarian lines.

There have been no developments of any moment on the western front. The French official report of today recites a few minor engagements but shows no change of importance.

FRISCO CAPITALIST VISITS MEDFORD

J. D. Grant of San Francisco, formerly of the firm of Murphy, Grant & Co., director in many San Francisco banks, vice-president of the Panama exposition and one of the leading capitalists of California, arrived with his family Monday evening from Crescent City and Wedderburn. He is interested in the California-Oregon Power Co., and impressed most favorably with Medford and the Rogue river valley.

"I think Medford one of the most attractive small cities in the country," said Mr. Grant. "While times are hard at present, the future is bright. The war has changed financial conditions and the United States will hereafter be the great investing nation. The flow of English gold for development purposes and for farm loans has ceased and heretofore we must look to our own institutions for money."

"The United States is securing an immense amount of money for war munitions and minerals, such as copper and lead and zinc, as well as foodstuffs. Outside of these industries, business in the nation is dull, but there is a gradual revival."

"I think northern California and southern Oregon are bright with promise for development. I have always thought so, hence my investments, and those of my friends."

Mr. Grant will leave tonight for San Francisco.

HOW FRENCH PEOPLE Cure Stomach Trouble

A household remedy of the French peasantry, consisting of pure vegetable oil, and said to possess wonderful merit in the treatment of stomach, liver and intestinal troubles, has been introduced into this country by George H. Mayr, who for twenty years has been one of the leading down-town druggists of Chicago and who himself was cured by its use.

So quick and effective is its action that a single dose is usually enough to bring pronounced relief in the most stubborn cases, and many people who have tried it declare they never heard of anything to produce such remarkable results in so short a time. It is known as Mayr's Wonderful Remedy and can now be had at all leading drugstores. It is sold with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.—Adv.

Many other fishing vessels have been forced to take refuge in northern harbors.

Germs on the submarines shouted in good English to the British sailors:

"We have nice little torpedoes here for Winston Churchill and Sir Edward Grey."

ELECTRIC FRANCHISE POSTPONED UNTIL COURT DECISION

At the special meeting of the city council Monday the application of the Rogue River Public Service corporation for an electric franchise was postponed until after a decision from the federal court on the California-Oregon suit, and Colonel Sargent, Russ-Fuzz of the council, made his usual splatter, attacking the press in general and the Mail Tribune in particular, under the apprehension that he was "being eulogized."

Petitions protesting against the granting of the franchise, until decisions on vital points had been received from higher authorities than the city council, were read from the Merchants association and a number of women, some of whom belong to the Greater Medford club. The matter of filing a petition under the name of the Greater Medford club was discussed at a recent meeting, and the organization decided to remain neutral. Practically all the businessmen of the city signed the Merchants association petition which was presented by Secretary John H. Carkins.

The announcement of the new proposals of the California-Oregon company has created a favorable public sentiment for a compromise.
