

MACLEAY DENIES STOPPING STEELHEAD AT RIVER'S MOUTH

In answer to published statements regarding the stopping of steelhead at the mouth of Rogue river, Ed Macleay, owner of the old Home cannery at Wedderburn, writes denying that any steelheads are being stopped by any of the men in his employ, and states that he is very careful to see that the law is observed. He invites local fishermen to visit him and see for themselves. He says in part:

"I have made particular inquiries regarding the fish up river, particularly between Agness and Mile creek, and I am told that the fish are lying in great quantities in the long deep reaches between those two points, probably due to low water. We are getting very few fish down here for the cannery as compared with this time last year, and the fish are much smaller than they were last year.

"There are a good many people down here trolling for salmon, but they hardly ever catch any steelheads, and they tell me there are very few steelheads in the river, which statement is shown out by our experience with the seines where we find but very few steelheads as compared with previous years. I watched a haul of the seine yesterday and there were only three steelheads amongst all the salmon. These three steelheads were, of course, returned alive and returned to the river. I wish to reiterate that no steelheads are being taken here by anyone connected with my cannery and that there are no netting of fish regardless of species."

Local anglers place the blame for the shortage of steelheads and the net-marks upon those caught, upon the lawless crew of fishermen employed by the cannery owned by Seaborg, as before the cannery was opened, and Macleay was the only operator, no trouble was experienced and the fish came through without marks of any kind.

These lawless fishermen have tried to lure down the Macleay cannery and have destroyed his nets with acids and are now under arrest. Their policy has been to take every fish that came, and salt down the steelheads and trout.

ALISKY BUILDING PORTLAND BURNS, \$230,000 LOSS

PORTLAND, Aug. 3.—Fire here early today gutted the Alisky building, a five-story structure at Third and Morrison streets. The loss is estimated at \$230,000.

Dr. William Ebers, who occupied rooms on the third floor, was out of town escape down the stairs and was carried down a ladder by Ebers. Several other persons had narrow escapes.

Of the tenants in the building, Samuel Rosenblatt, a shoemaker, was the heaviest loser, damages to his stock amounting to \$60,000. The fire is believed to have originated in a pool hall in the basement of the building.

Ebers had difficulty in fighting the flames on account of a series of explosions in the basement where chemicals were stored. One explosion ripped open the sidewalk and shattered the front of a jewelry store across the street, scattering jewelry over the pavement. A valuable pearl necklace was picked up a block away.

Gerhard Kuden, an aged violin maker, tried to push into the burning building to save a Gramophone which had been made in 1908. He was forced to leave it to the flames. The contents of Davies photograph galleries, where many historic photographs were stored, were destroyed. Among the negatives burned was the first likeness of Blanche Bates, taken in her mother's arms.

JAPANESE REQUEST OKUMA AS PREMIER

TOKYO, Aug. 3.—The cabinet members have recommended to Emperor Yoshihito that the cabinet headed by Count Okuma as premier be requested to remain in office unconditionally. This decision was communicated to Prince Okuma and Field Marshal Yamagata to Count Okuma who said he would take up with his colleagues the question of withdrawing their resignations.

981 LOST LIVES WHEN EASTLAND TURNED TURTLE

CHICAGO, Aug. 3.—Secretary Redfield resumed today his inquiry into the steamer Eastland disaster and avoided a conflict with the federal courts by calling witnesses who have not been subpoenaed by the federal grand jury.

State's Attorney Howe announced that the investigation of the state grand jury would be concluded either today or tomorrow and intimated that a number of indictments would be returned before that body finally adjourns.

Nine hundred and eighty-one persons lost their lives in the steamer Eastland disaster, according to final figures given out today by the Western Electric company, which completed the checking of its employees and friends who boarded the vessel. The identified dead number 838, unidentified dead two, and the Western Electric company placed the final list of missing at 142 making the total lost 981.

A board named by the city council harbor committee today began preparations for tests of the stability of excursion steamships sailing out of the port of Chicago. Sandbags weighing as much as a full quota of passengers will be placed on one side of the steamer ship Christopher Columbus next Thursday as a means of ascertaining the seaworthiness of that vessel.

VAGRANT WOMAN UNDER ARREST

A woman going the name of Mrs. Laura Green is under police surveillance, charged with drunkenness and vagrancy.

Here Is Good News for Stomach Victims

Some very remarkable results are being obtained by treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels, removing the obstructions of poisonous food matter and gases and preventing their absorption in the blood. This done, the food is allowed free passage from the stomach, fermentation ceases and stomach troubles quickly disappear.

George H. Mayo, the twenty years a leading Chicago surgeon, cured himself and many of his friends of stomach, liver and intestinal troubles by using castor oil in this treatment, and he recommended it as the remedy he believed that it has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.

Though absolutely harmless, the effect of the medicine is sufficient to convince any one of its remarkable effectiveness, and within 14 hours the patient feels like a new person. Mayo's Wonderful Remedy is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if you have any trouble to give absolute satisfaction.

appearing in public while intoxicated, and disposing herself in an unbecoming manner. She told Police Judge Gay she was told to this city from Vista, Cal., a week ago, by a middle aged man, who disappeared after he had made promises of marriage. Last night she wired to her only friend—a woman—in northern California, for money. If it comes, the authorities will allow her to depart. Otherwise they will detain her.

The police found the woman living in a garret in a vacant house on Front avenue. Tramps "rushed the

can" and carried it to her quarters. The police say the card of introduction for her was drink in any shape, and that she is an alcoholic and unable to ward off a desire for liquor. The woman says she drinks to drown the sorrow that is in her heart.

Mrs. Graves is about thirty years of age, of plain appearance and dress. Her husband, she has not seen for five years.

WASHINGTON, Aug. 3.—Time for the publication of notes from Great Britain, and the one from Germany, all dealing with the commercial rights of neutral nations is now being

being arranged today. The British notes probably will be given out late today for publication tomorrow morning and the German note Thursday morning.

The first British note defends the orders it issued; the second justifies the allies efforts to cut off Germany's export trade and the third defends prize court proceedings. The German note continues the discussion over the sinking of the American ship William P. Frye and is said to justify Germany's course in sinking merchant ships provided she pays for them.

PACIFIC AND EASTERN MOTOR CAR ARRIVES

The new Pacific and Eastern motor car has arrived and Monday made its initial trip to Eagle Point. Daily trips will be made hereafter.

The car is a 60 horsepower Studebaker and a beauty. It provides a place for mail and small packages as well as comfortable seating capacity for a party.

PENNSYLVANIA SUFFERS FROM SEVERE STORMS

PUNXSUTAWNEY, Pa., One life was lost and many thousands dollars damage done throughout this section last night by a series of storms which flooded streams, washed away bridges, damaged railroads and interurban lines and destroyed harvests. Ralph Rapinsky, a boy was swept from a bridge here and drowned.

find "yours"

Get all the smoke-pleasure you pay for. Find the right cigarette—a SENSIBLE one that fits your own likes and dislikes.

It may or may not be Fatima

—but this will help you find it.

Tastes differ—in fashions, foods and pretty girls. Also in cigarettes.
A cigarette that started out to please every man's taste would end up by pleasing none.
Most of us like our cigarette smoke deliciously cool and refreshing. The Mexican likes his hot and dry, with a nice little peppery sting in it.
Some men like a cigarette wholesomely, fragrantly mild. Others of us hunt for a cigarette almost as heavy as a black cigar.
Most of us want an "easy" cigarette—a SENSIBLE one, so that no matter how steadily or how many we smoke, we'll feel as fit as a fiddle. Other men, though, don't care about that. They smoke only a few—so they want a kick like a mule's in each puff.
All of us want our smoke "full-bodied"—it must satisfy that smoke-hunger. But the cigarette that just fills the bill for you may not do at all for your next-door neighbor.

favor. But if you smoke quite often—if you would like to smoke whenever you feel like it and without any effect on the tongue or throat or any fear of a heavy or "heady" feeling afterwards—then you should choose some cigarette such as Fatima, a cigarette composed of all-pure tobaccos of considerable aroma, mellowed by being aged and carefully blended to produce a fragrant and wholesomely mild, yet "full-bodied," smoke. And the smoke must be noticeably COOL. For otherwise your tongue or your throat will soon signal you to stop smoking so often.
If you will ask any Fatima smoker, he will tell you that Fatimas never make him "feel mean"—no matter how many he smokes.
That is why Fatimas are considered the most sensible cigarette by such a large majority of smokers. And that is probably the main reason why hardly any Fatima smokers ever switch! They like a sensible cigarette—and one with a good, pure taste to it.

But the Taste is up to You

All cigarettes are pure, but when it comes to the taste, nobody can help you choose. You simply have to decide for yourself.

Of course, Fatima's taste may not appeal to you. But most men who try Fatimas like the taste so well that they seek no further—otherwise Fatimas could never have won and held their enormous and growing leadership amounting to over one and a half BILLION cigarettes a year.

The one purpose of this advertisement is to ask you in a few and square way to give Fatimas (20 for 15c) a good trial. If they don't happen to suit your taste, you'll quit smoking them of course. But if you like Fatimas as well as MOST men do, you'll be mighty glad you read this advertisement—and ACTED ON IT!

Below are two simple tests which you can easily make and which may help you find your sensible cigarette.

It may or may not be Fatima. But be fair to yourself and find "yours."

Loggett & Myers Tobacco Co.
Largest cigarette manufacturer in the U. S. as shown by Internal Revenue reports.

TWO TESTS FOR ANY CIGARETTE

The taste of the cigarette—according to a leading expert—depends up to the amount of smoke, and the quality of the smoke. But there are other qualities that you should look for in the cigarette that you are going to smoke. These are: (1) The cigarette should be easy to smoke. (2) The cigarette should be easy to hold. (3) The cigarette should be easy to light. (4) The cigarette should be easy to dispose of.

The first test is for the smoke, which is the most important. The smoke should be cool and refreshing. It should not be too heavy or too light. It should not be too sweet or too bitter. It should not be too strong or too weak. It should not be too hot or too cold. It should not be too dry or too moist. It should not be too clean or too dirty. It should not be too good or too bad. It should not be too nice or too ugly. It should not be too beautiful or too ugly. It should not be too handsome or too plain. It should not be too rich or too poor. It should not be too noble or too base. It should not be too virtuous or too vicious. It should not be too good or too bad. It should not be too nice or too ugly. It should not be too beautiful or too ugly. It should not be too handsome or too plain. It should not be too rich or too poor. It should not be too noble or too base. It should not be too virtuous or too vicious.

Clip out these tests and try them on Fatima
