

LONE BANK BANDIT SECURES \$23,500

CEDAR RAPIDS, Iowa, Aug. 4.—A lone bandit held up and robbed the Cedar Rapids National Bank early today. He is said to have made his escape with \$23,500. Lee Perrin, teller in the bank, was discovered bound and gagged an hour later.

The robbery took place shortly before 7 o'clock. Perrin was in the bank getting out currency shipments when the robber entered by a side door and covered him with a revolver. A scuffle ensued in which the robber was victorious.

Perrin, the paying teller of the bank, was taken to a local hospital, temporarily insane from the shock, according to physicians who examined him. No trace of the bandit has been discovered.

EAGLE POINT EAGLETS

By A. C. Howlett

Well I am home again after taking a month layoff visiting the San Francisco fair, relatives and friends of by-gone years. I arrived at the Sunny Side on Saturday, July 31, at about 11 a. m. and found some of the old boarders and some new ones all enjoying the accustomed health of the southern Oregonian. I have not taken time to gather many items as I have been kept busy a good part of the time answering questions and telling what I have seen on my trip. But among the items of interest to the reader will mention that I found Frederic Vermeran, the owner of a farm near here, who has been making his home in Vera Cruz, Mexico, for the past several years. I also found to my astonishment Prof. C. E. Johnson, a single man, although I saw in the personal column in the Medford Mail Tribune, and that is considered a very reliable paper, that Prof. C. E. Johnson and wife were attending the chaletauqua at Ashland, while I was in California, but found that that was a mistake so the fair ones who have been down-hearted on account of the item can cheer up. I also noted that there has been a new telephone line put up from here to the John Greb farm. That John V. McIntyre the cashier of the Eagle Point Bank, has come back east on account of his mother's illness. That Mrs. Howlett has fenced in a tract of land along the creek for a cow pasture and made some changes in the line of fencing. That Mr. Henry Meyer and family of Lake creek were here Sunday.

That Carl Ringer of Medford was spending a few days at the Sunny Side. That Miss Clara Zimmerman, one of the phone girls, who has been visiting her relatives at Derby returned to her room at the Sunny Side Saturday. That Rev. and Mrs. Thos. R. Gale, who are managing a mission ear sent out by the American Baptist Publication society of Philadelphia, had been conducting a series of meetings in the Baptist church here for the past three weeks. That Mr. Cowgill the civil engineer, for the Fish Lake ditch, was having a lot of material moved from here to Fish Lake to be used in putting in a dam across the outlet of the lake and that everybody, so far as I know is well and happy. Miss Grace Coyle of Santiam, Oregon, a cousin of Frank Nichols is here on a visit, and that the Eagle Point ball team went to Gold Sunday and played a game coming out second best again, the score stood 4 to 5 in favor of Gold Hill.

The last time that I wrote for the Mail Tribune I was in Vacaville, Cal., and then I promised to tell the readers something more about the wonderful lemon orchards. I saw wonderful for it is one of the noted places in California and is visited by hundreds of the tourists who are visiting the fairs, and some of them are so inconsiderate that they expect the company to furnish them with a guide to show them through the place. While I was there there were three ladies come in and inquired for the foreman and on his being pointed out one of them asked him to show them through the building—a two hour job—and he politely informed them that he could not take the time, but assured them that they were welcome to examine any part of the building, whereupon one of them turned to me and remarked: "We are from the Blue Grass state and want some attention paid to us." But they had to do as the others did, look around the best they could. In addition to the lemon industry as I believe I stated in a former letter that they have a large tract planted to walnuts and this is quite a source of revenue and does not require the care and attention that the lemon tree does for even in that mild climate they have to guard against frost and the various pests that infest an orchard and in addition to all that they have to keep enriching the soil and my nephew told me that the bill for fertilizer alone amounted to about \$10,000 a year. They practically own their water system and that

OLD NICODEMUS NIMBLE—AT THE FRONT

saves quite a bill of expense as they have to irrigate the entire tract about every five or six weeks, and counting the expense of teams, about 75 or 100 mules and hundreds of men, at not less than \$2 a day for that is the lowest wage, the investment of capital is a subject of vast moment. They have about 200 acres planted to young trees and this land is utilized by planting in Lima beans. The second day that I was there a friend of the foreman, and the foreman is my brother's son, took me in his auto and rode me around the valley, about a 25 mile drive, so that I could see the country, and I did surely see a great country, one place we passed the man was sacking his dried apricots, I did not ask how many he had, but it looked as though he had at least two car loads of them already sacked and as many more to sack, but I started to tell about the Lima beans, the first place we passed after we left the orchard was a bean patch of 700 acres and just across the road was another field of 200 acres and then we saw beans in every direction, and my friend with whom I was riding told me that the bean farms extended clear to the coast, a distance of 12 miles and extended for miles up the coast and that putting a fair estimate on the amount of land in Lima beans in that section is would amount to not less than 70,000 acres. As I left Santa Paula in passing one field of Lima beans I counted 60 men out with their hoes at work.

I may, in my next, say something about what I saw in the line of sugar beets for near the Lima bean section they have a sugar factory and raise the sugar beet in great quantities. But I must stop for this time as my letter is already too long.

RESOLUTIONS OF CONDOLENCE

Whereas, it has pleased the Allwise Father to call home our beloved brother A. R. Coffin; and

Whereas, Brother Coffin was, prior to his death for sixty years a devoted Christian, and for more than a half a century a minister of the primitive gospel, and at the time of his demise was an elder of the Christian church at Medford, Oregon, and a member of its official board.

And whereas Brother Coffin was ever faithful in all church duties attending all its meetings and with abundant charity and with entire unselfishness labored with us for the Master's cause;

Now therefore, be it resolved, that in the death of Brother Coffin the church has lost a valuable member, and the cause of Christ on earth, a strong advocate and living testimonial of Christian faith and devotion.

Resolved that we, as members of the Christian church at Medford, will ever revere the name and memory of Brother Coffin, and will cherish his life as a legacy of good to inspire us and cheer us as we seek to emulate his Christian graces and virtues.

Resolved, that we believe that the good influence of Brother Coffin's life cannot be measured by our finite minds, but that long after those he left behind him have ceased to live
