

OSTEOPATHS FAVOR PROHIBITION BUT OPPOSE JINGOISM

PORTLAND, Aug. 6.—Kansas City, Mo., was selected as next year's meeting place by the American Osteopathic association at the closing session here today of its nineteenth annual convention.

Resolutions favoring national prohibition and opposing militarism were adopted by the American Osteopathic association before adjournment.

"As conservators of human life, we are opposed to the destruction of life as a means of settling international disputes," read the anti-war resolution.

The prohibition resolution was as follows:

"We believe that the liquor traffic is responsible for much of the crime, vice and misery in this country. Therefore the association places itself on record as opposed to the liquor traffic and in favor of federal prohibition and such other laws as will tend to eradicate the evil."

The osteopaths pledged themselves to the most sweeping program of child inspection ever proposed, with the idea of correcting defects in early life. The Harrison anti-drug law and the pure food movement were endorsed.

The convention favored the compulsory reporting of all social diseases to the board of health, putting the disorders on a par with other infectious diseases.

Most of the delegates will go to California from Portland and will be present at the Panama-Pacific exposition next Thursday which has been named osteopathic day.

HEAVY RAINS RENDER RUSSIANS PRECARIOUS

AUSTRIAN ARMY HEADQUARTERS, Aug. 6.—The position of the retreating Russians between the Vistula and the Bug rivers has grown more precarious as a result of heavy rains of the last few days. The marshes in their rear holding the rising water, confining the movements of troops exclusively to a few roads.

BOY GENIUS MISSES FAME AS VIOLINIST; WINS GLORY AS HERO

NEW ORLEANS, La., Aug. 4.—Little Harry Roeling will never play the violin again. But the lad whom New Orleans musicians called the "boy Kubelik" may be decorated with a hero medal instead of an artist's medal of honor.

Harry who is eight years old risked his life recently to save his little sister from death under the wheels of a street car. He dragged her from the tracks, but tripped and fell with both hands on the rails. His right hand was almost entirely torn away.

The little hero smiles bravely over his terrible loss and says: "Well, I'll have to give up my violin, but I have Sis to play with anyway."

HEIRESS HUSBAND CANNOT COLLECT CENT OF ESTATE

CHICAGO, Aug. 6.—Although Catherine Barker, who recently was wedded to Howard Spaulding, Jr., was possessed of an estate said to approximate \$30,000,000 her husband cannot collect one cent of the income, it became known today when a trust deed of the estate of the late John H. Barker, car manufacturer, was found in the office of the probate court of Cook county.

The deed provides that the heiress shall receive \$60,000 a year until she is 21 years old. Then she is to receive \$150,000 a year until she is 26 years old. After that time she is to receive the entire income of the trust fund except what is necessary to pay other annuities.

It also provides that payments to Mrs. Spaulding "are to be made directly to her by check or draft payable to her order, and shall not be made to any other person, or upon any written or verbal order given by her, or upon any transfer or assignment made by her or created by operation of law."

How to find your sensible cigarette

The cigarette that you'll stick to when you find it must "make good" to you in three different ways.

It must delight your taste.

It must be cool and friendly to your throat and tongue.

It must leave you feeling as fit as a fiddle at the end of a hard-smoking day.

On the last two points we match Fatima against any cigarette in the world—it can't be beaten. You can prove that by these two tests.

But when it comes to taste, that's up to you. There's no telling, until you try them, whether Fatimas will just suit your taste or not.

They are the biggest selling cigarette, costing over 5c, in the world. If so many thousands of men prefer Fatima's taste, it's pretty sure that you will, too.

Why don't you try them? If you do happen to like their famously good taste, remember that Fatimas are the most SENSIBLE cigarette you can buy.

Buy your trial package of Fatimas today.

Legal & Hygienic

TWO TESTS FOR ANY CIGARETTE

The taste of the cigarette—according to no leading tobacco journal—is up to the smoker. But there are other qualities that you should look for in the cigarette that you are going to stick to for your steady smoke. Here are a couple of tests that may help the average smoker to choose more wisely between different brands of cigarettes.

The first test is for coolness, which means more comfort to the throat and tongue. Light any cigarette. Draw in a lung of smoke—a small, ordinary puff is not sufficient to make this test. Hold it in your mouth for a few seconds. Let it "heat" around against your tongue and throat. Now blow out a high grade cigarette. If the cigarette leaves, combined in just the right proportion, it will always feel cool and smooth both to your throat and to your tongue.

On the other hand if the proportions are not right and if the cigarette contains inferior grades of tobacco or hidden strands of rank, oily leaf, you will feel a nipping sting at the tip of your tongue or that "sandpaper" tickle in your throat.

Test number two—How do you feel after smoking all day?

If the tobaccos in the cigarette include a correct proportion of mild grades—and if all of the various grades have been properly blended as to bring out the best qualities and to neutralize any unpleasant qualities in each of the different types of tobaccos, you will be able to smoke practically whenever you feel like it through the day without feeling any effect from it.

But with another cigarette in which the tobacco is of the highest grade, you will find along towards the end of the day that you are likely to have that feeling of having "smoked too much."

Clip out these tests and try them on Fatima.

FATIMA was the Only Cigarette Awarded the Grand Prize at the Panama Pacific International Exposition.

ALLEN RESIGNS FROM PRISON WARDENSHIP

JOLIET, Ill., Aug. 6.—Because of the law forcing him to live within the prison walls in rooms where his wife was recently murdered, presumably by a convict, Edmund Allen today resigned as warden of the state penitentiary here and the resignation was accepted by Gov. Dunne.

Warden Allen declared that living in the prison was too much for his nerves and several days ago asked the governor for permission to live outside. This the governor refused, saying the law provides that the warden live in the penitentiary.

Mrs. Allen was found murdered in her apartments at the prison in June when her husband was on a vacation.

It is announced that capital has been secured to flush a cement plant at Gold Hill.

FIRE ON WARSHIP OKLAHOMA SPONTANEOUS

PHILADELPHIA, Pa., Aug. 6.—After a thorough examination while the damage was being repaired, officials of the New York Shipbuilding company are convinced that the fire which swept the hold of the dreadnought Oklahoma several weeks ago, was caused by spontaneous combustion.

Reports to this effect have been sent to the navy department at Washington and insofar as the government is concerned the probe to determine the cause of the fire is completed. Work on the latest dreadnought is being rushed. The Oklahoma was to have been ready for delivery in October, but it is expected the fire will delay completion until early in January.

Steps are being taken for a fine new city hall at Echo.

STRICT ORDER IN MEXICAN CAPITAL

GALVESTON, Texas, Aug. 6.—Violation of private property rights in Mexico City will be punished by death under orders from General Pablo Gonzales, according to information reaching the Constitutionalist consulate here today. The message adds that General Gonzales has established headquarters in the national palace. He has loaned a half million dollars to merchants so that they might be able to meet their payrolls.

Strict order is being maintained in the capital, the report says, and food prices are being lowered as rapidly as possible. Cesar Lopez de Lara, governor of the federal district, has issued a manifesto guaranteeing political and religious liberty to all.
