HONG KONG KOLUM

Some Mexican men use shot gun for hunted fowl. Allasamee better use automobile—killed more—less trouble.

CYNICAL

"Some book!" the summer maid declared. "I'll prove it in a minute. 'So true to life—so apropos—' (Each man's a villain in it!)"

Remember Us to the Sparrows

(From Racine Call.) Mr. and Mrs. F. Stanley Fowles of Milwaukee are visiting on the parental roof in this village.

Prepared

Farmer (aboard ship, who has bought a new auto)—I see, captain (indicating life preservers), that you are well supplied with extra tires!"

Stella's Bargain Counter

An eastern doc says some people have more sulphur in their bodies than others. That's perhaps why some dames make better matches than others.

Waiting for Orders

A Boston woman of advanced years has a parrot to which she is warmly attached. Recently she went on a trip to the west, leaving elaborate instructions with her daughter about the bird.

"Fussy at Buffalo, she got off the train and wired back: 'Don't forget to feed polly.' Later, on the train she received this reply: 'Have fed polly. What shall I do next?'"

Logically Enough

"Little girl, have you lived here, all your life?" "Not yet."

Wisdom

An old Scotch woman sent her little boy to the corner grocer's after a quarter's worth of corn syrup. She gave him the money and two jugs—each of which would have been ample to carry the syrup.

"Why did you give two jugs?" asked a visiting neighbor. "Well, ye see, it's this way. If I give him two jugs to carry he kinda fits his wee fingers in the syrup en-route home."

Broken

FOR SALE—Pale of broncho horses. Good weight, sound, broken. Owner in hospital. Address L. B. Schell.

Stella's Bargain Counter

Lots of poor dames go on the stage because they've got nothing to wear—and that's the very reason they get jobs there.

Natural is the way people act before they learn manners.

True Fish Yarn

She bought a fifty dollar hat. The price had little weight. He was a million dollar fish. And she used the hat for bait!

Send 'Em Down

Argentina has asked the United States for 19,000 pigs. It's a pity Argentina cannot take a few thousand of our end seat hogs.—Pack.

HARNES THE AEROPLANE.

IT is admitted that we are backward in aviation—not in accomplishment on the part of our inventors and our skilled aviators, but in that large development of aviation which makes for the mastery of the air in war.

In both army and navy great activity in aviation will result from the experience of the war in Europe. This is a matter of course. We shall train aviators—but shall we use them? Is there anything which aviators can do of a useful character? Cannot something be done more dignified and respectable than looping the loop before crowds of gaping sightseers?

There is a field for them in the carrying of the mails. There are many localities which might be served by aerial mail lines with great advantage.

Would it pay? As a matter of money, it might and it might not; but it would train men for air service if the country should ever need them. In view of the enormous value of the air-men to the armies of Europe, is not that worth while spending money for? And is it not better to give these men the consciousness of serving in peace rather than subject them to the demoralization of a barren and useless existence while waiting for war?

In these days the air-man is as necessary to an army as eyes to a hunter. An army without air service is helpless in coping with one provided with it. And the aeroplane is quite as necessary to the navy. The airship scouts the sea for hundreds of miles while the scoutship would be going 50, keeps the fleet informed of conditions, searches the depths for submarines, and is, in short, a naval necessity.

Congress has refused to appropriate money to try out aeroplane mail service, though often requested. In this congress is to blame.

There should be a working arrangement among the three departments—army, navy and the postoffice departments—by which the postal service may become a school for air-men. The airship should afford young men of daring and hardihood a chance to earn an honest living while preparing for military service.

WOMEN RETARDED BY CONVENTIONS CRADLE TO GRAVE

OAKLAND, Cal., Aug. 18.—Twelve different meetings, five of them departmental congresses, are being held today by the National Education association. The presidential election is to be held tomorrow.

The name of Miss Grace Strahan of New York, it is expected will be placed in nomination for the presidency from the floor.

One of the most important of the congresses in session today is that on musical education. Addresses, some of them illustrated, on the music of the Hindus, the native of the Philippines, the Chinese, the Hawaiians and the Japanese will be made this evening.

"From infancy, women have always been unreasonably restricted, physically and mentally," Mrs. Harriet W. Thompson of the University of Oregon told the delegates to the physical education congress today. "They reach maturity less capable than men."

"That men are free to play from boyhood to old age, unrestricted by high clothes and convention, and do so, is the reason."

BUILD GREAT MILL IN BEND DISTRICT

BEND, Ore., Aug. 18.—The Brooks-Seaton Lumber company of Minneapolis, will commence construction within six weeks on a saw mill to be located in Bend and to have an annual sawing capacity of 50,000,000 feet. The site of the new mill will be opposite the new Shevlin-Hixon mill on the east side of the Deschutes river. The new mill will employ about 500 men and will draw from timber amounting to 32,000,000 acres situated within a few miles of Bend.

PROBE LYNCHING OF LEO M. FRANK GOVERNOR BUSY

ATLANTA Ga., Aug. 18.—With the arrival today of Governor Harris it was expected definite steps would be taken for the investigation of the lynching of Leo M. Frank.

The statement made by R. E. Davidson, chairman of the state prison commission last night, that he did not believe anyone could be blamed for conditions which made it comparatively easy for the mob to take Frank from the prison seemed to indicate that the prison feature might not be investigated immediately. The commission has absolute authority in such matters.

Governor Harris has ordered his office here to inform the sheriff of Cobb county, in which Marietta is situated, that he would expect him to make a detailed inquiry into the lynching.

A coroner's jury in Cobb county empaneled yesterday, heard only two witnesses. By them the identity of the body was established. The jury adjourned until next Tuesday.

TURKS APPLY BAN ON ALL ITALIANS

ROME, Aug. 18.—Turkey, according to a Bucharest dispatch to the Giornale D'Italia, has recalled permission for the departure of Italians, a large number of them, including 700 reservists are awaiting to sail at Jaffa, Beirut, Messina, Alexandretta, and Smyrna.

The Giornale D'Italia says it further learns from a reliable source that Turkey is continuing to send arms, money and provisions to Libya, with the object of provoking a native rebellion against Italy.

STORM DAMAGE AT TEXAS CITY OVER \$400,000

AUSTIN, Texas, Aug. 18.—The early edition of the Houston Post says:

"Texas City has sustained a severe blow as the result of the hurricane which swept the gulf coast, an approximate damage of \$400,000 being done there, but only 18 lives were lost. Information to this effect was brought to Houston Tuesday night by E. V. Rhodes, who left Texas City at 4:00 o'clock yesterday afternoon."

Because of damage to property at Houston, 20 special officers were sworn in and every one on the streets after 9:30 Tuesday night was forced to give a good account of himself, according to both papers.

A relief committee met in Houston Tuesday and arranged to send a boat of supplies to Galveston.

At Kemah, on the coast, only one house has been left standing, according to Frank Ansell of Seabrook, who escaped to Houston.

The Southwestern Telegraph and Telephone company's loss at Houston is estimated at \$100,000. Practically every big establishment on Houston reports damage. The Houston Post declares there have been but two deaths in Houston—a negro who encountered a live wire, and a carpenter, whose barn fell on him.

WOMEN'S WOES

Medford Women Are Finding Relief at Last

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Keeping the kidneys well has spared thousands of women much misery. Read of a remedy for kidneys only that is endorsed by people you know.

Mrs. J. H. White, 518 W. Hamilton St., Medford, says: "Twice I had attacks of kidney trouble. A dull pain settled in my back and I became dizzy and nervous. There seemed to be no rest for me day or night. I was all run down. Doan's Kidney Pills brought the best of results. Since using them I haven't had any kidney trouble for years."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. White had. Foster-Milburn Co. Buffalo, N. Y.—Adv.
