

HARRIMANS WIN FROM MEDFORD BY SCORE 7 TO 5

In a game in which both sides played loosely and at times erratic baseball, the Harriman club of Portland defeated the locals yesterday afternoon on the home grounds by a score of 7 to 5. As has been the case in the last three or four games, the Medfordites allowed the visitors to score a good lead in the first inning that proved a handicap as the game went on. In the fifth inning the locals overcame the lead, but were unable to maintain it, the Portlanders regaining the lead in the sixth and seventh, making the score 7 to 5, this being the final score.

Castor was on mound duty, and although not as effective as he usually is, he twirled a good game and deserved to win. Both teams hammered the ball hard and timely, which made the game interesting during every minute of play. The home boys showed vast improvement in this department. They played a much better game than they have heretofore and if the breaks had not been against them they would have had the better of the argument. The Harriman boys showed that they had a good knowledge of inside baseball and pulled off many plays that were cleverly executed, especially so in their base running.

The next games on the locals' schedule will be at Klamath Falls. They have two games there on September 5 and 6, respectively. These pair of games will be bitterly contested, as the Medford team has suffered two defeats already from the boys from over the mountain, and they declare that they will wreak vengeance on these dates for the past drubbings received at the hands of the Klamath Falls crowd. A large crowd of rooters has signified their intention of accompanying the team on this, the last trip of the season.

TOTAL ACREAGE FOR WATER IS NOW 74,157

RATS TAILS EIGHT DAYS OLD GRAFTED TO LIVING RATS

(By GILSON GARDNER.) WASHINGTON, Aug. 23.—How hard it is to kill rats' tails may be inferred from the fact that after a number of tails had been dried for eight days and heated for two hours at a temperature of 99 degrees they were successfully grafted to living rats. All of which appears in the latest report of the Smithsonian institution just off the press; so it must be true.

Other peculiar things about the resurrection of apparently dead forms of life appear in this report in an article by Paul Bequerel, the eminent French scientist. He writes on latent life and particularly on the ability of certain germs to come to life after they would seem by all the rules of ordinary life to be thoroughly dead. He tells how the rotifers of the gutter and the "water bears" may remain dried up for five months amid mosses or dust without evidencing the slightest trace of life, and when moistened resume their vital functions. Another little animal discovered by Bequerel, an animal with a life cycle of ten months, was resurrected after being stowed away for twenty-eight years. The rat tail experiment was conducted to find out how long the living elements in flesh would continue and against what adverse conditions. Bequerel himself experimented with seeds, bringing to life some which had lain dormant for from twenty-eight to eighty-seven years. He subjected them in certain cases also to great heat and cold, also to wet and dry conditions, discovering that the life principle is most persistent, being something like that thing in the riddle which fire does not kill nor water drown.

USE THE MEDFORD ROLLER MILLS PRODUCT

The Medford Roller Mills purchased a few months ago by H. O. Nordwick, are now in full operation making first class flour and other products. The mill has recently been remodeled, new rolls and other machinery added and they now have an up to date process and the people of the city and valley should see to it that they get the products of this mill, as they are all guaranteed, when ordering from their grocer. It's all right to talk about home products but the real way to help home industries is to patronize them. This mill also means better prices for the wheat, corn and barley of the valley and the farmers should use their products. Their first grade flour is called "Rogue Spray" is made of home grown blue stem wheat and is guaranteed. Their second grade flour is called "Home Marvel." Their other products are breakfast gem, the same as cream of wheat, pan cake, whole wheat and graham flours, and feed. They also do custom grinding. F. S. Brandon, an expert miller, is in charge. Mr. Nordwick, the proprietor is also a heavy landowner and is here to stay.

BULGARIA SIGNS NEW TREATY WITH CONSTANTINOPLE

BERLIN, Aug. 23, by wireless to Sayville.—The Overseas News agency today gave out the following: "Official reports from Sofia and Constantinople state that Turkey and Bulgaria have signed a new treaty, Turkey granting Bulgaria her desired direct railroad connection with the sea and Bulgaria agreeing to observe a benevolent neutrality if not more." "This demonstrates the definite failure of efforts of the entente powers to revive the alliance of the Balkan states and induce them to join the war against Turkey." Unofficial reports late in July stated that a convention had been signed on July 22 by which Turkey ceded to Bulgaria the Turkish portion of the Dodecanhatch railway. The reports stated that the treaty left Bulgaria unpledged concerning her attitude in the war.

ITALIAN TROOPS OFF FOR TURKEY

ROME, via Paris, Aug. 23.—Several transports laden with troops and escorted by warships have departed from Naples, Syracuse, Taranto and Brindisi for an unknown destination. They sailed under sealed orders. It is generally believed that they are to be employed for operations against Turkey.

AUTO SERVICE FROM EAGLE POINT TO MEDFORD AND BACK.—The undersigned will leave Frank Lewis' confectionery every day except Sunday for Medford with his auto at 1 o'clock p. m., arriving at 2 p. m. Leave Nash hotel, Medford, at 5 p. m., arrive at Eagle Point at 6 p. m. A part of the traffic is solicited. S. H. HARNISH, Eagle Point, Ore.

ST. LOUIS SUFFERS THIRD CALAMITY IN THREE DAYS

ST. LOUIS, Aug. 23.—St. Louis county is recovering today from the third calamity in as many days—a flood which cost at least 12 lives, possibly many more, destroyed more than a million dollars worth of property and made 2000 families homeless.

Twelve deaths had been reported this morning and almost 100 persons were listed as missing. River men who are closely acquainted with the situation fear the falling of the Meramec today may disclose a heavy toll of lives.

Equally distressing conditions prevail throughout southeastern Missouri and parts of western Illinois where the toll, less severe in the number of lives lost, is far greater in damage to property and crops. Railroad, telephone and telegraph facilities are demoralized, the physical damage may aggregate \$5,000,000, and tens of thousands of farmers and villagers are homeless.

The Meramec river rose during the night while thousands of campers and picnickers slept in the club houses, and summer cottages which dot the river banks. The flood waters of swollen Ozark mountain streams which empty into the Meramec came rushing down the Meramec in layers a foot high, tearing farm houses, club houses, bridges and barges from their moorings and hurling them against trees, telegraph poles and against each other in the made rush toward the Mississippi river.

Almost the entire population of Valley Park—2500 families—were driven from their homes, and the manufacturing plants were rendered useless possibly for weeks.

The water stood in the streets of Valley Park today from two to four feet deep. The Meramec river fell slowly because of the high water in the Mississippi. The Meramec is flooded along its entire course of 100 miles through the Ozarks. More than 100 miles of territory in the heart of the Ozarks beyond Springfield, Mo., and St. Louis, is cut off from communication with either city.

HAITIENS PLANNING AN ATTACK UPON AMERICAN FORCES

WASHINGTON, Aug. 23.—Reliable reports that Haitian rebels have been organizing an army to attack the American forces on the island, are responsible for plans now being carried out to reinforce Rear Admiral Caperton's marines and bluejackets. The marine artillery battalion at Annapolis, comprising 450 men and 12 three-inch field pieces, will be embarked on the armored cruiser Tennessee and sent to southern waters this week.

Admiral Caperton today reported quiet at Cap Haitien and Port au Prince but said it had been necessary to take over the custom house at San Marc.

The admiral asked last week that additional marines be held in readiness to join him and the navy department decided today to start the annapolis battalion south without waiting for further word. The Tennessee may go to Guantanamo to await developments.

S. S. S. Greatest Blood Remedy Gives Results When Others Fail

Nature's Remedy For Blood Troubles. The purifying and curative properties of Nature's great remedy have made "S. S. S. for the Blood" a household saying. Thousands today enjoying perfect health owe their recovery from blood or skin diseases to this universally used blood purifier. S. S. S. is made entirely from roots, herbs and barks, which possess cleansing and healing ingredients. You cannot be well when your blood is impure; you lack strength and energy natural with health; your complexion becomes pale and sallow; your vitality is weakened. When waste or refuse matter, which Nature intends shall be thrown off, is left in the system, it is absorbed into the blood and boils, pimples, rashes, blotches and other eruptions of the skin appear. S. S. S. goes into the circulation and removes every particle of blood taint or poison of every character. All skin diseases and eruptions pass away, and the smooth clear skin, glowing with health, shows that the body is being nourished by rich, pure blood. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, all are deep-seated blood disorders, and for their treatment nothing equals S. S. S. Get S. S. S. at any drug store. If yours is a peculiar case write S. S. S. Co., Atlanta, Ga.
