RUSSIANS BEGIN OFFENSIVE ALONG EASTERN FRONT

PETROGRAD, Sept. 24.—The following official statement was issued tonight at the Russian war office: "A German aeroplane shelled Shlok (west of Riga). When shelled by the Russians the machine hurriedly descended beyond the German trenches. "Fighting at Stomen, on the Ekau river, resulted in the flight of the Germans, who abandoned a number of hand grenades, cartridges and utensils. Stubborn fighting commenced at Atkaia, in the Nenzub region, the village continually changing hands. In the region of Dvinsk there has been no change. During a bayonet fight west of Sweden lake one officer, 100 men and one machine gun were captured. In the Smolien region in the course of desperate hand-to-hand fighting, two machine guns and over 200 men were captured. One height changed hands repeatedly.

Violent Engagements
"In the region of Smorgon, on the front southeast of Vilna, and also in the region of Gawia, east of Lida, engagements occurred, some of which were of extreme violence.

"Between the right bank of the Molchad and the left affluent of the Nemn and the fords of its upper course as well as in the region of the Oginski canal, there were several serious bayonet encounters, which increased in intensity. The Russians continue to show the highest qualities of gallantry and resistance, thereby provoking in even greater degree than the enemy's obstinacy.

"Northwest of Dubno, in spite of the enemy's effort to check the Russian offensive by counter-attacks, the Russians occupied Woinitsy, on the left bank of the Ikwa, capturing twenty-eight officers, 1400 men and three machine guns.

Enemy Repulsed
"In the region of Dvoretz, southwest of Kremenetz, during the occupation of one height, two officers and 100 men fell into our hands.

"In the region north of Seale Szozky (Galicia), the enemy was repulsed from Worwolintse and Ghinkowetz. The cavalry pursued the defeated enemy, the Austrians being partly killed and partly taken prisoners. Continuing their gallant work, the cavalry pushed on to Broussy, southwest of Tluste, and in the course of subsequent fighting more prisoners were taken, together with a quantity of weapons."

RECOGNITION OF CARRANZA MEANS A DICTATORSHIP

WASHINGTON, Sept. 24.—The Villa agency here today made public the following statement issued at Juarez after a conference between Villa and his military chiefs, relative to the possible recognition of Carranza by the Pan-American conference:

"We do not believe President Wilson can be persuaded to take this step, as such would signify recognition of a military dictatorship or despotism, without courts or other of those public institutions de facto governments are required to have under American precedents, to justify recognition. Carranza has never proclaimed any government, assuming all powers thereof himself, while Villa, on the other hand, demands and is fighting for the restoration of constitutional government."

Villa advises say an objective movement against Carranza is imminent in Vera Cruz and adjoining states. Dispatches from Villa sources along the border also reported that General Jose Santos, with 800 men, had revolted against Carranza near Monterrey.

A raid on Cananea, Sonora, by bandits who drove out the civil authorities, was reported in a state department dispatch, which added, however, that Carranza troops had recaptured the town yesterday.

RECOVER BODY OF AMERICAN VICTIM

QUEENSTOWN, Sept. 24.—A body that came ashore at Clonakilty, on the south shore of Ireland, has been identified as that of Mrs. Josephine Bruguiera of New York and San Francisco, one of the victims of the Arabic disaster.

RUSSIA OUT OF NEGOTIATIONS FOR HALF BILLION LOAN

NEW YORK, Sept. 24.—Russia today appeared to be out of negotiations of the Anglo-French loan commission, as a participant. If it should appear necessary that she, too, establish a credit here, it seemed likely that independent arrangements would have to be made. Final decision on this point, however, was said to be deferred until such time as definite word should reach New York from Pierre L. Bark, at present believed to be in London conferring with Reginald McKenna, chancellor of the exchequer. Originally it was suggested that Russia be included in the plans for establishing the American credit.

The reported positive stand of American financiers to lend no more than \$500,000,000 was said to have been a leading factor in the virtual decision not to include Russia as a participant. It is the reported plan of the commission, when an agreement is reached, to conduct negotiations with a few big banking houses in this city as representatives of the American bankers in general.

NEGRO YOUTH OF 14 IS HANGED

JACKSON, Ga., Sept. 24.—Joe Persons, a negro boy, not more than 14 years old, was hanged here today for assaulting an 8-year-old white girl. To the half-hundred persons around the scaffold the boy admitted he committed the crime and announced he was ready to die.

Although he weighed only 75 pounds, his neck was broken by the fall. Officers did not attach weights to Persons, as had been suggested to them as possibly necessary to successfully execute him.

FEDERAL BUREAU PROVIDES WORK FOR UNEMPLOYED

John H. Barbour, inspector in charge of United States immigration service work in Oregon, spent Friday in Medford in the interests of the free employment bureau organized by the departments of labor, commerce and postoffice. Speaking of the bureau, he said:

"Where the state conducts employment bureaus, we work in conjunction, turning over names of applicants, but where no state bureau exists, as in Oregon, we aim to find occupation for the workless. Applications are listed with the postmasters in the various cities, who forward them to us, and we endeavor to secure employment. We are confining our efforts at the start to the country and endeavoring to supply farmers and fruitgrowers with reliable workmen. We have furnished labor for the hop yards, hay fields and orchards as well as the farmer.

"In Hood River this season we supplied the pickers and packers needed above the local help available, and were there any demand, could do the same here, working in conjunction with the exchanges. We have secured permanent places for thousands of farm laborers and believe that we will eventually fill a needed field. We have many European farm immigrants listed and find them reliable and competent aids for the farmer.

INCREASE IN PAY FOR FRENCH ARMY

PARIS, Sept. 24.—The army committee of the chamber of deputies has decided to recommend that the pay of French soldiers be increased from 1 cent to 4 cents a day. The change would mean an increased expenditure of about \$25,000,000 a year.

Boils and Pimples Dangerous S. S. S. Your Remedy

Standard For Fifty Years
Modern science has proven that boils and carbuncles, pimples and unsightly skin blotches, are the danger signals of diseased blood. Scaly skin and itching of Eczema, Scrofula, rashes—all skin diseases are aggravated by bad blood—it's the infected blood that's dangerous. Don't wait for the pain to come—take S. S. S. immediately. It is the standard blood purifier of the world. Don't use any drugs, don't use ointments and salves. S. S. S. reaches the blood, drives out the impurities. It makes healthy perspiration—the poison is literally sweated out through the skin. Boils, blotches, Eczema and the Scrofula indications disappear. It does what aives and lotions can never do—it goes to the very root of the trouble by reaching the blood. Your skin becomes clear and you soon feel the vigor of the return of perfect health. S. S. S. is purely vegetable. You can get it at any druggist's, but you must take S. S. S. Let us tell you about blood diseases. Write for book of facts, "What the Mirror Tells." If yours is a long standing case, write for expert advice to S. S. S. Co., Atlanta, Ga.

CLUBS DISSOLVED BY FEDERATION

The morning session of the Southern Oregon Women's Club convention was called to order by the acting president, Mrs. O. H. Gilmore, of Rogue River. After the reports of the committees and a short business session, Mrs. E. E. Gore gave an address on "Clubs, Their Objects, Needs, and Opportunities. Are They Living Up to Them? If Not, Why Not?" She said the object of the women movement was the uplift of humanity. Many mothers love their own children and care nothing for the children of others, and woman's full duty is not done till all children have equal opportunity. The greatest difficulty is in overcoming the inertia of women. She urged the district federation to join the state federation, and the state federation to join the national federation, and referred to the Elks' fraternal relations as an example to women. She advised more playgrounds, and supervised play. An animated discussion followed, in which club rooms for laboring men was spoken of; also neighborhood clubs for women who are not reached by the average club. The Art Section then took the floor, Mrs. Arthur Conkila of Grants Pass, chairman. Mrs. Conkila's paper was full of interest, and was enthusiastically received by the audience. A discussion of Arts and Crafts Works in the home, and suitable and characteristic architecture of Southern Oregon followed. Election of officers will be held this afternoon.
