WHEN YOU CAN PLAY TUNES WITH YOUR BODY WORLD WILL REFORM

Will reform world with rhythm! Mlle. Suzanne Ferriere who has come to this country to introduce the new science of Eurythmics discovered by Jacques Daleroyze, famous composer of Geneva, Switzerland.

NEW YORK, Oct. 2.—Your body is a musical instrument. You can play all kinds of tunes with it. Or, rather, you could play them if you knew anything about the brand new science of eurythmics which Mlle. Suzanne Ferriere has just brought with her to the United States.

Mlle. Ferriere has been called the Montessori of music. She comes as the envoy extraordinary of Jacques Daleroyze, famous composer of Geneva, Switzerland, to establish a school of eurythmics in New York City.

As applied to music, the new method is to be taught at the grand opera in Paris and is now being taught in a special school of its own in London.

Now, what is it? It's a theory of being music instead of merely studying it. But it's a theory of living as well. Mlle. Ferriere believes that when the new science is thoroughly learned the world will pass through a moral as well as a musical revolution.

If you are really eurythmic you will never steal your neighbors' spoons, covet his wife or envy him his new automobile.

Now, then, how to get that way. "The human body is a musical instrument," explained the slender, black-eyed Mlle. Ferriere. "Only the untrained human being does not know how to play on it, so as to bring out

its harmonies. Rhythm is the law of the universe.

"When eurythmics is thoroughly understood there will be no crime, there will be no poverty, there will be no fat women.

"To tell you what eurythmics is I will ask you to do certain things. Try, for instance, to execute one motion, or one set of motions with your right hand, another different set independently with your left hand. You can't do it, you see.

"Well, if you were eurythmic you could."

"Professor Daleroyze discovered the science of eurythmics when he assembled his pupils one day and asked them to take one step for each chord he should play on the piano.

"When he played slowly the steps were slow, measured, solemn; when the music became martial, military, unconsciously the body straightened, the muscles stiffened; if the music was soft the pupils relaxed. Gradually he made the lesson more difficult, calling for different movements with each arm until each pupil became master of the musical instrument—his body, and could play the most difficult tunes upon it. The moment an action becomes automatic it is eurythmic.

"Eurythmics is useful in the treatment of the insane. It promotes physical beauty and mental poise. And no woman who is eurythmic can be fat."

The W. H. M. S. of the M. E. church South will meet with Mrs. C. N. Matisler on South Central avenue Wednesday afternoon.

Mrs. Charles DeWitt returned home the first of the week from San Francisco, where she visited the exposition.

The Women's Foreign Missionary society of the Presbyterian church will meet in the chapel Tuesday afternoon at 2:30 with Mrs. W. H. Gore as hostess. Mrs. W. W. Glasgow has charge of the program. A playlet will be given by five ladies. All the members and friends are invited to be present.

LADIES TO PLAY BRIDGE FOR BENEFIT RED CROSS FUND

So little organized effort has been exerted in Medford and the valley toward the assistance of the great work being done by the United Red Cross in the alleviation of suffering in the European war that within the last few days a number of ladies of the valley have determined to unite all of the smaller donations which they individually undoubtedly desire to contribute toward this charity into a large and effective fund. To form a nucleus of this fund it has been decided to hold a large ladies bridge party and afternoon tea at the Holland hotel on Saturday, October 9, at 2:30 o'clock to which all of the ladies of the valley are most cordially invited, and to which an entrance fee of fifty cents will be charged. Larger contributions will of course be most acceptable from either ladies attending the bridge party, or from gentlemen or business houses in sympathy with the work being done by the United Red Cross.

No Solicitation Made. As this fund is essentially of a charitable nature the ladies have determined to have all donations purely voluntary and no organized solicitation of contributions will be made.

The idea has been taken up with great enthusiasm by the ladies of the valley, and to insure a large attendance a number of ladies have volunteered to be responsible for the attendance of one or more complete tables of four ladies each. The tables so organized will however not necessarily play together, it being felt that the social feature of the party was more important than the inexperience or experience of the individuals in the game of bridge. Among the ladies who have handed in their names volunteering to organize tables, are:

- Volunteer Organizers: Mrs. C. R. Hutchison, Mrs. E. B. Hanley, Mrs. Chas. Delinn, Mrs. Lincoln McCormack, Mrs. E. E. Gore, Mrs. Chas. Conner, Mrs. W. F. Isaacs, Mrs. Jonas Wold, Mrs. C. M. Kidd, Mrs. P. W. Hamill, Miss Frances Haskins, Miss Louise Burk, Mrs. P. E. Merrick, Mrs. Evan Reames, Mrs. Chas. Brown, Mrs. R. C. Washburn, Mrs. Geo. Roberts, Mrs. E. H. Porter, Mrs. C. M. Barber, Mrs. Wm. Sooy-Smith, Mrs. Glen Fabrick, Mrs. F. H. Hopkins, Mrs. H. H. Stoddard, Mrs. Walter Bowne, Mrs. John Root, Mrs. Alice Holloway, Mrs. Delroy Gatchell, Mrs. Walter Stokes, Mrs. Frank Owen, Miss Margaret Hubbard, Mrs. Robert Wilson, Mrs. Hamilton Patton, Mrs. Robert Ruhl, Mrs. Frederick Lewis, Mrs. C. A. Knight, Mrs. T. E. Daniels, Mrs. Wm. Budge, Mrs. W. I. Vawter, Mrs. E. B. Pickel, Mrs. Austin, Mrs. J. P. Mundy, Miss Deuel, Mrs. E. G. Riddell, Mrs. Jap Andrews, Mrs. Will Irwin.

Tea Follows Bridge. It is appreciated by the ladies in

charge of the party that many who have had no experience in bridge whatever will be anxious to make contribution to the charity, and for their benefit the ladies announce that bridge will be over by 4:30 o'clock when tea will be served to all who wish to attend.

There is very little understanding generally of how far a small amount of money will go in the alleviation of suffering—five cents being sufficient for two antiseptic bandages, and ten cents furnishing chloroform for one operation.

Any contributions of this kind will of course be specially welcome and appreciated by the ladies in charge. Any ladies desiring to attend the bridge party or tea or receive further information in regard to the plans are invited to call up Mrs. Charles L. Schieffelin, telephone 426, or Mrs. George B. Carpenter, telephone 113-R.

A Stamped to the 1916 Maxwell Why? The "wise ones" who have given the 1916 Maxwell the verdict, base their judgment of real automobile value upon these four vital points: 1st—The "first cost" of the car. 2d—The "after cost" of the car. 3d—The quality of the materials and workmanship in the car. 4th—The equipment and the "completeness" of the car. The Maxwell earned a victory over 49 other cars in an impartial test made by the Yale University, Sheffield Scientific School. In the test made by the Yale professors the Maxwell averaged 33.2 miles to a gallon of gasoline at 19.8 miles an hour, with a correspondingly low record for consumption of lubricating oil. Maxwell The "Wonder Car" The 1916 Maxwell's pure stream-line body, new rounded clean-cut radiator design and handsome "one-man" top, have earned for it first place as "the prettiest thing on four wheels." The 1916 Maxwell's special heat-treated, laboratory tested steel, built into a Twentieth Century Automobile by men who really know how—has earned for it first place as the car of record low repair bills. And this record will extend over the entire life of the 1916 Maxwell. Price, including Electric Lights and Starter, \$745 f.o.b. Medford Powell Auto Co.
