ASHLAND'S CITY LIGHT AND POWER RATES UNALTERED

ASHLAND, Oct. 5 .- In view of the contention over electric light and power rates in this city, it is officially confirmed by officials that there has been no raise in the same, as far as the municipal system is concerned, neither is there any increase contemplated. The rates are based on flat and meter schedules, either of which plans have been optional up to date, though the council has from time to time taken under advisement the matter of installing meters.

For domestic service the minimum charge per month is \$1, based on 60-watt lights; five lights, \$1.25; six, \$1.40; seven, \$1.55; eight, \$1.70; nine \$1.85; ten, \$2, plus 10 cents each for over ten. The commercial rate is 40 cents each per month, 1 to 10 lights BERLINERELIEVED JAP, WARSHIP HIT inclusive; 11 to 20 lights inclusive, \$4, plus 30 cents each for each light above 10 and including 20; over 20 lights, \$7 plus 20 cents for each additional over 20. The meter rate is on a sliding scale, from 6 cents per kilowatt hour per month up to 25 k. w. h., with various schedules intervening until a maximum of \$5.60 is reached for 250 to 300 k. w. h. per of 2 cents per k. w. h. Meter rate one h. p. will take half of the foregoing rate. The minimum on any classification is \$1 per month.

In common with some other manu-Storage Co. uses both water and electrie power, patronizing the city water or light systems respectively as one the water phase of the supply depend-

The fact remains that, with the installation of the municipal lighting system rates were reduced nearly oneplant has been a phenomenal success. Its financial history is one of conreport from the electric light committee of the city council sustaining and encouraging the municipal enterprise, upon which committee expert accountants are serving just as competent as any in town.

One further fact is patent, and that is, never before the advent of the municipal system were the streets of Ashland so well lighted as at present. To return to the street illumination status of seven years since would seem like substituting lighting effects resplendent electroliers.

MINNEAPOLIS IS STILL IN THE WET COLUMN
