

# RUSSIANS FLY AUSTRIANS FOR RUMANIAN AID

BERLIN, Oct. 6 (via wireless to Sayville). — Czernowitz, Bukovina, reports that Russian forces have made a violent attack on the Austrians along the Bessarabian frontier, northeast of the city. The attack is said to have been made along the river Pruth, which the Russians attempted to cross at one place by swimming.

The dispatch states that the Russians made five assaults without success and that many of them were drowned.

This movement is of great interest in view of the present state of affairs in the Balkans. The point of the Russian attack lies directly north of the Rumanian frontier. It is assumed that should Rumania enter the war on the side of the forces of Russia would be effected. It was reported from Athens today that Rumania is hurriedly sending troops to the Bulgarian frontier and making other military preparations.

# HOW THE RED SOX EXPECT TO WIN THE WORLD'S CHAMPIONSHIP

BY BROWN HOLMES

The Boston Red Sox use a system of helping their base runners that is one of the finest bits of inside baseball ever pulled.

The play is one that has helped the Sox lead the American League nearly all season and one they will use in their efforts to tuck away the world series.

When a Sox runner is on first base and a steal is planned, the batter stands as far back as possible in the batter's box. That forces the opposing catcher back away from the plate

Photo shows how Tris Speaker, Boston Red Sox slugger, stands behind the plate so he can help a base stealer by forcing opposing catcher back and making the throw from the catcher to second base longer.

and lengthens the distance the ball has to travel from the catcher to second base.

The batter's box is six feet in length and it is three feet from the center of the plate to the back end of the box. The batter then, by standing away back forces the catcher to throw three feet farther than if the batter stood even with

to the runner under the Red Sox system.

Dick Hoblitzel, Sox first baseman, is especially good at driving catchers

the middle of the plate.

Three feet does not sound like a great deal, but it means ball games in these days of split second baseball.

There are more close plays at second base than any other base except first and in many the runner or baseman gets the umpire's decision by a fraction of a second. In these fractional second plays, the decision goes

back from the plate as he has trained himself to hit from that position. Hoby takes a big swing and holds his bat at arm's length. Opposing catchers make sure to get back beyond the reach of his war club.

Hoby is in a good place to make this inside play count as he bats after Tris Speaker and Speaker, one of the best of hitters, is on the bases a lot.

# BE PREPARED TO DEFEND, NOT FOR WAR IS URGED

WASHINGTON, Oct. 6.—President Wilson outlined his attitude toward the national defense question today to the new advisory board of the navy. He believed, he said, the whole nation was "convinced that we ought to be prepared, not for war, but for defense, and very adequately prepared."

The board met in the office of Secretary Daniels, who delivered a brief address calling attention to the development of ordnance and instruments of destruction during the present war in Europe. He paid tributes to the willingness with which Mr. Edison and the other members had offered their services to make the country safe from attack.

"We may not," the secretary continued, "expect to build the biggest navy in the world, but with the help of this board, we must have a navy, every unit of which shall be as nearly perfect as American ingenuity can make possible."

Mr. Daniels said laboratories and places of research now used by the navy were far too small for present needs, and that he hoped to secure the advice and recommendations of the experts as to the kind of a national laboratory needed.

# BACK CHICAGO MAYOR IN BAN SUNDAY BOOZE

CHICAGO, Oct. 6.—Fifty organizations affiliated with the United Societies for Local Self-Government called meetings today to pledge their support to any action which may be taken to oppose Mayor Thompson's Sunday closing edict against the 7152 saloons of this city.

Engene Pike, city comptroller, who managed the mayor's election campaign, admitted today that the mayor signed the "wet" pledge not to interfere with the saloons, but Mr. Thompson, according to Mr. Pike, attached his name under a misapprehension.

"He was told that the Sunday closing law was a dead letter and that nothing in the pledge called upon him to violate the laws," explained Mr. Pike. "When the corporation counsel reported, however, that the Sunday closing law was perfectly valid and operative, there was nothing for the mayor to do but to perform his sworn duty, namely, to see that the law is enforced."

# BOURNE CONDEMNS FEDERAL CONTROL

SAN FRANCISCO, Oct. 6.—Government ownership of public utilities was termed today a "menace to progress" and a means of swinging a controlling vote, by Jonathan Bourne Jr. of Portland, former United States senator from Oregon, in an address before the thirty fourth annual convention of the American Electric Railway association and five allied organizations.

"Government ownership," except in rare instances," Mr. Bourne said, "tends to discourage efficiency by removing competition."

"It's evil effect upon the creative constructive spirit of enterprise among the most active and capable of our people, constitutes a menace not only to the welfare of this generation but to the progress of our people for all time to come."

# YANKEE CONSUL AT MUNICH RESIGNS

WASHINGTON, Oct. 6.—The resignation of T. St. John Gaffney, the American consul general at Munich, requested by the state department because of unneutral utterances, was received today and accepted by cable. Accompanying the resignation was a cablegram bearing the names of about a half dozen American residents of Munich, which stated that Dr. Gaffney had performed his duties in a manner which, as far as they could see, was satisfactory. Mr. Gaffney's successor has not been named.

# RETURNS SHOW JOHN D'S PLAN IS ADOPTED

DENVER, Oct. 6.—Complete returns from thirteen camps, including all in Las Animas and Huerfano counties today indicated the adoption of the Rockefeller industrial plan by employees of the Colorado Fuel and Iron company by a ratio of at least 8 to 1. The total vote recorded was: For, 1930; Against, 260.

Camps in Fremont county and the western counties are still to be heard from. They represent only a small percentage of the company employees, insufficient to change the result approving the Rockefeller proposal.

# LUXEMBURG FILES KICK AGAIN ALLIED ARMIES

# 25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Save Your Hair! Make It Thick, Wavy and Beautiful—Try This!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp, of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life, eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few week's use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

# NEWS FROM BALKANS 16 HOURS BEHIND

BERLIN, Oct. 6.—Telegrams from Sofia to this city require an average of 16 hours in transmission, and hence no news has arrived here concerning the events following the expiration of the time limit set in Russia's ultimatum. The press expects that the Russian demands will be refused.

# WHEAT VALUES BULGE, FALL CONDITIONS CHANGE

CHICAGO, Oct. 6.—Wheat values bulged today, influenced by a continued falling off in receipts north-west and by the meagerness of arrivals here. Dispatches telling of unsettled weather in the Dakotas and Minnesota added to the prevailing bullish sentiment, and so also did assertions that fall seeding in Kansas would be reduced as much as a million acres compared with last season's total. Opening prices which ranged from 1/4 to 1/2 higher, with December at 95 1/2 to 100 1/2, and May at 100 1/2 to 100 3/4, were followed by decided further upturns.

# Had Lung Trouble and Expected to Die

The many recoveries brought about by Eekman's Alternative are attracting wide attention. Read about this case.

33 B St. Keyser, W. Va.

"gentlemen—I was taken sick in November, 1908. It grew steadily worse. Had two consultations. The verdict was the fever had affected my lungs and that my case was hopeless; only gave me two months to live. My physician had tried most all kinds of treatment and none did me any good, so he asked my husband if he objected to him trying a proprietary medicine. I began your Alternative. I was in bed from November 30, 1908, until February 25, 1909, and was thought dying several times. Today I am healthier and stronger than ever." (Abbreviated.)
