

COMPROMISE TO END CONTROVERSY OVER BONDING

The olive branch was extended Friday night in the bonding and recall controversy, at a meeting of the business men, property owners, and city council at the city hall. Disapproval of the recall of the four councilmen who voted against giving the Medynski scheme full sway on the ballot was general. The net result of the meeting was that Bert Anderson was made chairman of a committee of five, which he will appoint, to make changes in the Miles' bonding plan, and report, at once, and it is highly probable the ill advised recall petitions will be recalled. The sentiment against them is strong, even among the majority of those who signed the petition asking for a special election for the Medynski scheme.

The meeting was addressed by Attorney W. I. Vawter and Judge W. S. Crowell. Attorney Vawter held that the indebtedness was a problem not to be confused by small town politics, and that it was time to forget acts that would react to the detriment of the city. He held that the recalls were unnecessary and ill-advised. It is probable that some action will be taken today to complete the compromise upon this feature of the muddle.

It is planned that the Miles' proposition be revised so that the city will assume 40 per cent of the paving indebtedness, and the property owners 60 per cent. This will wipe away any hint of class discrimination as the Miles plan first suggested, and is advanced as the most equitable of the two plans. In its remodeled shape, it will be placed upon the ballot with the Medynski scheme, and let people choose between the two at the polls.

The meeting had the effect of uniting the two factions for the good of the city, and a spirit of peace was shown on both sides. Another meeting will be held next week when further details of the compromise will be completed.

Will H. Wilson states that the report that he is circulating a recall petition is erroneous, and that he has had nothing to do with it.

A. C. Abrams is circulating the recall petitions against Councilmen Miles and Hargrave, R. P. Little that against Councilman Mann and J. F. Goodhue that against Councilman Sargent.

The Parent-Teachers' circle of the Washington school met Friday afternoon with a good attendance. Mrs. H. E. Tucker was chairman. After the business period an interesting program was enjoyed. Miss Caroline Paul rendered very pleasingly a piano solo. The discussion followed, subject, "Co-operation Between Home and School." The teachers responded first with many helpful suggestions. They asked especially that the parents visit the grades and see the work that is being done. They are always welcome and their visits will encourage the pupils. If you have any fresh blooming plants they will be gladly accepted and they will help wonderfully in cheering up the rooms, giving them more the appearance of home. It was suggested that vines and plants be planted around the building.

Plans were made to purchase them. If any of the parents have any rose roots they would like to donate for this purpose they will be gladly accepted. All of the parents present were interested in the discussion and showed a keen desire to co-operate with the teachers in any way that will be helpful in making this a banner year in school work. The program closed at 4:30 after a most successful meeting.

A large delegation of the ladies from the Methodist Episcopal church attended the meeting of the Woman's Home Missionary society in Ashland Friday evening. Six national women were present and gave most inspiring talks on the work that is being done by the organization. Those present were Mrs. Wilbur P. Thirkield, national president; Mrs. D. D. Thompson, corresponding secretary; Mrs. P. H. Bodkin, vice president and one of the three field secretaries, Miss Carrie Barge who is in charge of the Frances DePauw school in Los Angeles, California, Mrs. E. L. Miller of Pasadena, a bureau secretary, and Mrs. Campbell, who is in charge of the Marcey Home in Chicago. The following ladies from Medford attended the meeting, Mesdames James Campbell, O. E. Osborne, Elizabeth Gore, Spiegle, McNary, Smylie, Clarence Meeker, J. H. Carlin, Munson, Anderson, Waltermire, Moore and Keizer.

MINE MANAGERS ACCUSE GOVERNOR

EL PASO, Tex., Oct. 9.—The managers of the closed mines in the Chishti-Morenci-Metcalf district of Arizona in their replies to Governor Hunt's proposals for a conference to attempt to reach a settlement, made public here today, accuse the governor of making "inflammatory speeches" and of "openly encouraging affiliation with the leaders of the Western Federation of Miners."

The mine operators express a willingness to "enter into arrangements for resumption of operations" on condition that "the atmosphere must be entirely clarified of the dominating influence of the Western Federation of Miners, under whatever name, title or disguise it may take on."

German Transport Sunk
Russia has made official announcement of the sinking of a German transport by a British submarine in the Baltic.

The Dvinsk front still claims great attention in the eastern fighting zone. The Germans are now launching an attempt to take the city from the north, and their onslaught exceeds in violence the previous attacks from the west and south. A desperate action has been fought ten miles north of Dvinsk and the Russians admit loss of part of their trenches. From Dvinsk to the Lida-Molodechno railroad local successes are claimed by the Russians.

German artillery fire continues along the whole of the western front, being directed with particular violence against Loues.

MARIPOSA ASHORE FULL OF WATER

SEATTLE, Oct. 9.—The Alaska Steamship company's iron steamship Mariposa, which went ashore on Pointer island, B. C., Friday morning, is resting on the beach with her forward hole and engine room full of water. The 79 passengers were taken off yesterday by the steamship Despatch and conveyed to Ketchikan, Alaska. The steamship Admiral Evans which left Seattle last night, will call at Ketchikan for the passengers and take them to their destination.

The Canadian wrecking steamer Saviour will reach the Mariposa's side tonight. A survey will be made before attempts are made to save the boat. The steamer struck on a rocky shore. If she was going at full speed her whole bottom may have been scraped off, in which case the boat must be abandoned. If she was moving slow or moderate speed the Mariposa may be patched and hauled off. It is expected that most of the cargo will be saved. The mail and express were not injured.
