

ORVILLE WRIGHT SELLS INTEREST IN AIRSHIP COMPANY

NEW YORK, Oct. 12.—Orville Wright has sold his entire interest in the Wright Aeroplane company at Dayton, Ohio, to a syndicate consisting of William B. Thompson, August H. Wiggin, president of the Chase National bank of New York, and T. Frank Manville of the H. W. Johnson-Manville company, according to announcement today.

The Wright company, which controls all the patents on aeroplanes secured by Orville Wright and his brother, the late Wilbur Wright, is capitalized at \$1,000,000 of which \$800,000 is outstanding. Orville Wright owns 97 per cent of the outstanding stock. The purchase price could not be ascertained.

It was learned that Orville Wright, although disposing of his entire interest in the present company, will become consulting engineer of a new aeroplane company, which the syndicate will form. It was also stated that Wright will be a stockholder in the new company.

The new aeroplane company will have a much larger capitalization than the present Wright company and it will undertake to manufacture various types of aeroplanes and flying boats on a far larger scale than has heretofore been attempted in this country.

The sale of the Wright aeroplane factory to a syndicate of New York men was for a consideration of approximately \$1,500,000, it was reported here today.

Orville Wright has been in ill-health for nearly a year and announced that he would enjoy the respite from business affairs. He will take a rest of at least a year.

"The sale includes everything," he said. "I shall retain some stock in the company and probably will be consulted in an advisory capacity. I will give my time to scientific research along the lines of aviation. I think I shall enjoy the respite from business cares."

FIRE DESTROYS WORK OF ROSE WIZARD

SALEM, Ore., Oct. 13.—That the good people of Oregon will come to the rescue of Father Schoener, Oregon's Burbank, and enable him to continue his work in this state is the belief of his friends in this section. They say that Father Schoener labored for the public good and now appreciation should be shown.

The loss of his entire collection of plants in Saturday night's fire is a serious blow to the Brooks priest. His church, residence and personal belongings are all gone and he is left with no clothes beyond what he wore on the evening of the fire, and no money. In making his experiments, Father Schoener spent his personal money, and the fire leaves him stranded.

There seems to be considerable doubt as to whether the church will be rebuilt at Brooks. Failure to rebuild would mean that Father Schoener would move to a new field and possibly might go to another state. This would mean that Oregon would cease to receive benefit from his experiments in plant growth which have grown more successful every year.

The fact that there was no insurance on the church and priest's residence is considered unfortunate. Father Schoener explained yesterday afternoon that the failure to carry insurance was due to objections of several members of the congregation, who claimed it was too expensive.

FEDERAL COURT FINISHING WORK

The federal court will close its term in this city tomorrow. This afternoon the case of the United States vs. Alexander, accused of bootlegging is being heard. The grand jury closed its sessions Tuesday, returning 18 true bills, all for bootlegging, and one no true bill on the same charge. In the true bills are included William Welsh, Charles Hayes and Bob Anderson, all well known characters of this city. They will be tried at the February term at Portland.

The jury in the case of Dial Chiloquin accused of stabbing Lloyd Brown during a fracas on the reservation a year ago, the jury returned a verdict of not guilty. A dozen or so Indians were engaged in a general mixup, and it was impossible to tell who jabbed a knife into Brown's abdomen.

DANIELS PLANNING FIVE-YEAR BUILDING PROGRAM FOR NAVY

WASHINGTON, Oct. 13.—Secretary Daniels is considering a five-year naval program, at the end of which time from fifteen to twenty dreadnought and battle cruisers, nearly one hundred submarines, about seventy destroyers and several scout cruisers and a proportionate number of auxiliaries would be added to the present fleet. With the seventy submarines already built and building, the total undersea craft would total about 170 in five years. The entire program for the first year, which would include provision for at least 8000 additional men for the ships, would, it is estimated, cost approximately \$248,000,000, or about \$100,000,000 increase over last year.

The contemplated program probably will be laid before President Wilson within a few days by Secretary Daniels. They are agreed that it will be necessary to increase the fleet doubly within the next five years in order to be prepared for defensive measures.

ELECTRICIAN INJURED AT FEDERAL BUILDING

E. R. Mackley, of Portland, an electrician, aged 24 years, employed on the new federal building in this city, lies at the Sacred Heart hospital suffering from a light fracture of the skull, as a result of an accident this morning. Mackley was laying the conduits for the electric wires on the second floor when a pipe bent used in the plumbing operations fell from the third floor striking him on the top of the head. He was rendered unconscious. The bent weighed about eight pounds. The injured man was rushed to the hospital. It will be three days before the crisis in his case arrives.

VILLA PREPARING TO ATTACK AGUA PRIETA

EL PASO, Texas, Oct. 13.—An attack upon Agua Prieta, the only remaining Carranza garrison in Sonora, is in preparation, according to advices received last night by Villa officials in Juarez. The agreement effected some months ago at Naco, through General Hugh L. Scott, American chief of staff, provided for the neutrality of border points, will be ignored, it was stated.

GEESON ELECTED KEEPER KNIGHTS PYTHIAS SEALS

PORTLAND, Oct. 13.—Election of officers for the year was the principal feature of the opening session of the grand lodge of the Knights of Pythias at the Pythian hall here yesterday. There were nearly a dozen candidates nominated for grand keeper of records and seal to succeed the late L. R. Stinson, who held the office eighteen years. Walter S. Geeson was finally elected.

Election of supreme representative paid a lien tribute to Professor W. B. Curtis in naming him for that honor. Mr. Curtis was present at the organization.

Lime Starvation Causes Tuberculosis

The Medical Record (New York) of December 18, 1909, contains an article on "The Treatment of Pulmonary Tuberculosis, Based on the Assumption That the Dietetic Cause of the Disease is Lime Starvation," by Dr. John P. Russell, who says: "The condition which is recognized as preceding the active development of tuberculosis in the adult may be considered as due to lime starvation. * * * Among inorganic substances lime salts appear to be of special physiological importance. * * * but if the salts are not in organic combination it is difficult to suppose that the lime can appropriate them for food." Years of widespread use confirm us in the belief that the success of Eckman's Alternative in cases of pulmonary tuberculosis (consumption) and chronic throat and bronchial troubles is due in large measure to its content of lime, combined with other ingredients as to be easily appropriated by the cells. Doubtless this has much to do with the results obtained in many cases of these affections, which appear to have yielded to Eckman's Alternative. As it contains no opiates, narcotics or habit-forming drugs, it is safe to try. Your druggist will order it for you or you can send direct. Eckman Laboratory, Philadelphia.

Price \$1 and \$2 a bottle.

THE WINTER OF GREAT DISTRESS

Damp and cold weather is destined to cause much suffering among Rheumatics. Guard Against it.

Get ready for winter by realizing that Rheumatism is a blood disease and must be relieved through the blood. Throw away the liniments and lotions, cut out the pain killers and stake your chances of relief on S. S. S. Some of the most renowned physicians that the world has ever known have been studying Rheumatism for fifty years in the laboratories of the Swift Specific Company in Atlanta, and if Rheumatism can be permanently relieved—and WE KNOW THAT IT CAN—they will tell you what to do for your trouble.

Rubbing with liniments, blistering, the application of plasters; in fact, anything that will produce counter-irritation, is good for external treatment of Rheumatism, but these simple remedies do not reach the seat of the disease nor touch the real cause, and relief is therefore only temporary.

Rheumatism is due to Uric Acid and other irritant poisons in the blood, and as it circulates through the system, these acid poisons are deposited in the muscles, joints and nerves, and exposure to the night air, cold east winds, or any sudden change in the weather, will bring on an attack which

may last for a few days or linger for months. Every battle with Rheumatism leaves the blood in poorer condition, while the corroding acids are gradually consuming the oils and fluids that lubricate the muscles and joints, thus they become stiff, sometimes absolutely rigid.

Rheumatism with its sharp cutting pains cannot be conquered until the acid blood is cleansed, purified, literally washed free of the poisoned substances which it contains, and nothing affords such prompt and lasting relief as S. S. S. The tonic effects of this vegetable remedy are wonderful. The blood is cleansed, purified and its early strength and vigor renewed, causing the health to rapidly improve and builds up the entire system. The sufferer is not only free from Rheumatic pains, but experiences once more the thrill and exquisite pleasure of perfect health.

Get rid of Rheumatism before cold weather makes it worse. Don't take substitutes for S. S. S. Write our Medical Department at once; they want to advise you how to relieve Rheumatism quickly, thoroughly and make you well. S. S. S. sold at all drug stores. Don't accept substitutes—they are dangerous. Write the Swift Specific Company, Medical Department, Room 16, Atlanta, Ga.
