MUNITION MULCTERS

F OR months past a systematic agitation has been conducted for "national preparedness," for a bigger army and navy, to defend the nation against the jingo

Despite the oft-proven fact that preparedness for war usually leads a nation into war and does not save a nation from destruction by war, but rather invites it, the jingo clamor, by its organized campaign, has had its effect in stampeding the people into a favorable sentiment for more taxation for the benefit of the armament trust to preserve us from imaginary enemies.

The boom in stocks of munition concerns in Wall street is not due so much to existing contracts with belligerents as to the progress made in the campaign to plunge Uncle Sam still further into the vortex of financial embarrassment that is bankrupting Europe, for the benefit of the munition monopoly, which realizes fabulous profits.

Before the outbreak of the present war the United States was paying out annually for war and on account of war \$654,000,000, or 67.88 per cent of the nation's revenues. Germany was paying 55 per cent of her revenues, papers promptly, phone Circu- + Japan 45 per cent, Great Britain 37 per cent and France 35 per cent. That the United States did not secure proportionate results for the money expended was due to the fabulous profits of the munition trust.

The United States' annual expenses for war in 1913 exceeded those of Germany by \$60,000,000, with an army eight times as large as ours. They exceeded those of France, with eight times our army and 16,000 more men in the navy, by \$150,000,000. They were three and a half times those of Japan, with thrice as great an army and four times the naval force.

The United States naval appropriations have grown from \$20,000,000, or \$6.15 per capita, in 1890, to \$140,-000,000, or \$11.09 per capita, in 1914, and yet we are told our navy is a joke. The army shows proportionate increase in cost. The millions of the people's money have been Mondays-Saturdays & poured into the pockets of the munition millionaires—and still they clamor for a tremendons increase in the stream

> Two billion dollars have been spent for army and navy by the United States in ten years, and still we are told we have nothing to show for it. We can spend as much more in the next few years and have nothing more to show for it save Pittsburg millionaires, because every contract let

It is the prospect of greater graft by the military preparedness program that is responsible, not only for the inflation of munition stocks, but for the incorporation of new concerns, like Corey's \$100,000,000 Midvale company. which hopes for rich pickings out of making armor plate and munitions.

If we must indulge in military hysteria let us curb the mercenary munition trust, that prates patriotism to mulei the nation. Let us establish government plants to make armor plate and other munitions at cost. Only with government plants can the nation secure value for the millions expended. Only by government plants can the nation get rid of the persistent jingo agitation financed by the trust and avoid war-for there is little doubt but that the munition makers were largely to blame for the European con-

Secretary Daniels has advocated this, and been the obdealy they noticed a big sign in a gro- ject of a nation-wide campaign of abuse and ridicule. He has been able to materially reduce the cost of powder and other munitions by government plants which limited "Pat," asks Mike, "wot's th' mean- facilities sanctioned by congress have permitted. But the in' of them big strokes after each powerful influence of the private armor makers has kept Uncle Sam out of the armament business-and this same fer shillelaghs to show that it's Irish sinister influence is agitating for military preparedness.

> ADMISSION 15-25 CENTS

OWEN MOORE Mary Pickford's Husband

She made up a mixture of Sage Tea and Sulphur to bring back color,

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, rehair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp
itching and falling hair. Just a few
applications will prove a revelation if
your hair is fading, gray or dry, sornggly and thin. Mixing the Sage Tea and
Sulphur recipe at home, though, is
troublesome. An easier way is to get the
ready-to-use tonic, costing about 50 cents
a large bottle at drug stores, known as
"Weath's Sage and Sulphur Hair Rem-

"Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of muss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthsinful, we all desire to retain our youth-ful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant @
