

# DUKE OF ORLEANS SPURNS JEWELS OF BULGARIAN KING

PARIS, Oct. 15.—The Duke of Orleans addressed a letter to King Ferdinand of Bulgaria several days ago requesting the monarch to take back the jewels of Bulgarian orders which had been bestowed upon him, but the letter was published only on the day Bulgaria entered the war. In his communication the duke said:

"The attitude your majesty has thought right to take in the present war, contrary to your previous policy, forces me to the sad duty of praying your majesty to take back the jewels of Bulgarian orders with which your majesty invested me, first upon the death of your venerable mother, and second when your majesty was in Paris to point out how much Bulgaria owed to France.

"I tell your majesty to take back the jewels because, alas! I cannot send them, but your majesty has only to apply to his ally who for more than a year has occupied my chateau in Belgium and for whom my safe can have no secrets. I authorize giving up to your majesty orders I can no longer wear.

"Your majesty will understand I am obliged to warn your majesty the day he takes up arms against my country, France, his name will be struck from the chapter of Knights of the Holy Spirit. I do not ask your majesty to send back the jewels of the Order of the Holy Spirit, but wish on the contrary that these souvenirs of the France he has betrayed shall keep alive perpetual remorse."

A letter the duke wrote to Emperor Francis Joseph at the outbreak of the war has also been published. In it he asks the ruler of Austria-Hungary to take back the jewels of the Order of the Golden Fleece and refers to his marriage to the Archduchess Maria Dorothea as "the misfortune of my life."

# STACKPOLE DEAD FROM LUMP JAW

NEW YORK, Oct. 15.—George F. Stackpole, the lawyer of Riverhead, Long Island, stricken with anthrax several days ago, died in Bellevue hospital early today of heart failure resulting from the poison of the disease.

Mr. Stackpole's death came after a rally which caused his physicians to believe he would recover. He was comatose until within five minutes before he died and told his wife he realized that death was near.

The determined struggle made by Mr. Stackpole, who was 71 years old, and the unusual nature of his disease, common to animals, but rare to human, attracted attention throughout the country. Physicians watched the case closely to observe the effect of the anti-toxin which was rushed here from the Bureau of Animal Industry at Washington to combat the deadly anthrax germ.

BENBOW CITY, Ill., Oct. 15.—Dr. John C. Helper of this town, who for nearly two weeks has been suffering from anthrax which developed from a mosquito bite, was growing weaker today, but still was conscious. Hope for his recovery has not been abandoned.
