SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to flush Kidneys and neutralize irritating acids—Splendid for system.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again. Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with bicarbonate, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is especially for biliousness and causes no bad effects whatever. If you have a pleasant, effervescent drink, which quickly relieves.

WORLD'S MOST FAMOUS DANCER AT PAGE THEATER TONIGHT

Ruth St. Denis has a propoganda—that in the art of dancing, no better undeveloped talent exists than that to be found in America—and being an American born artist, she has always sought to bring forth this talent and develop it to the highest

degree. This season her company, with the exception of her native Hindu assistants, are all American dancers. Two of her girls are from San Francisco, Miss Sadie Venderhoff and Miss Yvonne Seward. There are two girls from Seattle and several from other coast cities.
