Geo. C. Taylor, of the "big oata country" in Skagit county, Wash., visited former neighbors in Medford and vicinity on Sunday. He may remain in the valley for some days, tarrying with a view to becoming acquainted here with our climate and resources, having in mind the purchase of farm land if conditions suit him. The climate of Skagit is too everlastingly wet, avers Mr. Taylor, who has been a sufferer from rheumatism for a number of years. He expresses delight at the first appearance of the situation in Rogue river valley.

The fact that we are likely to have irrigation for Rogue river valley in a reasonably short time seems to have reached some of the far corners of the continent. Henry A. Willard, now in an obscure region in Maine, but formerly a commercial traveler in the northwest, writes to an attaché of the Mail Tribune for definite information about it, intimating that that is the one thing necessary to induce him to return to this beautiful region and finally make a last stand in home building.

Letter heads, envelopes, bill heads, loose leaf systems, at the Mail Tribune office.

Hampton White, a magazine writer of demonstrated ability to entertain his readers with articles of the frontier, including fiction as well as history and scientific discussion in feature "Writ of the West," is now visiting in the valley, having arrived from Santa Clara on Saturday. If not too late, he will make a special run over to the Josephine caves for "local color."

Mary Pickford at Star Monday in "Fanchon, the Cricket"

Mary Pickford, the supreme favorite of the screen, whom the Ladies' World recently termed the most popular girl in the world, adds another great triumph to her imposing list of stellar distinctions in the Famous Players' Film company's five-part photo-adaptation of "Fanchon the Cricket," the famous drama by Geo. Sand, and the current attraction at Star theater Monday.

LOW SWINGING TREE BOUGHS CAUSE A KICK

The refreshing rainfall during the past two or three days had the effect of reminding many who use the sidewalks frequently in the residential districts that an ordinance exists requiring the pruning of shade and ornamental trees along the walks and driveways of the city in such fashion as will remove the boughs from interfering with traffic.

No Interest In Life

Medford people please do us the favor to read this letter:—Brooklyn, N. Y. "I was completely run down, had no appetite, and lost all interest in life. I thought I surely would have to give up my position. I learned of Vinol, and after taking one bottle felt better. I have taken it for a few weeks and it has built me up and cured me. If people who feel weak, nervous and rundown would only try Vinol I know it would help them as it did me."

Runaway Team Breaks High-Power Pole

A team belonging to A. P. Wainwright became frightened at a moving box car on the S. P. track at Central Point Saturday and ran away, crashing into and tearing down an electric wire pole. Live wires carrying 24,000 volts fell down on the horses, but they escaped without injury.

ARTISTIC WOODCRAFT IN FOREST MONARCHS CARVED BY ANTS

"Go to the ant, thou sluggard," and view the artistic woodwork of this little pest in the soft woods of the forest.

Attractive specimens of wood-carving are on exhibition at the Commercial club room, one having been brought from the altitudes of Crater Lake park by M. L. Meadows, and the other from the Fish lake district by W. M. Ford, both of this city.

The sample left by Mr. Meadows is done in larchwood and resembles a combination of Chinese woodcraft with the result of ages of arduous toil, with crude implements by the cave-dwellers. The stick of larchwood in which this unique work is shown is two feet in length by four to six inches in width and thickness. The stick of white pine left by Mr. Ford is about the same in size and shows equal skill in the work of honey-combing the soft fiber of a giant of the forest.

That these destructive pests have given the entomologists a new problem to solve in the conservation of the commercial woods of the mountains is evident from the completeness and apparent speed of their work. It would be difficult for the professional wood-carver, with all his latest implements of progress, to duplicate this work.

It is the black ant that does this

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of Salts if Back hurts or Bladder bothers—Drink lots of water.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithin, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

clever work; and the result of its attack on the softer woods of the mountains shows a rapid increase in the number of its uncountable millions now at the task. The specimens are worthy to be preserved as examples of the effectiveness of perseverance and patience in the accomplishment of results by toil, whether commendable or condemnable.

Boils and Pimples Dangerous S. S. S. Your Remedy Standard For Fifty Years

Modern science has proven that boils and carbuncles, pimples and unsightly skin blotches, are the danger signals of diseased blood. Scaly skin and itching of Eczema, Scrofula, rashes—all skin diseases are aggravated by bad blood—it's the infected blood that's dangerous. Don't wait for the boils. If you have pimples and blotches, take instant action. Pimples tell you that your blood is filled with impurities. You must wash out your blood, strengthen and stimulate it to healthy action with Nature's own blood tonic, S. S. S. It is the standard blood purifier of the world. Don't use any drugs, don't use ointments and salves. S. S. S. reaches the blood, drives out the impurities. It makes healthy perspiration—the poison is literally sweated out through the skin. Boils, blotches, Eczema and the Scrofula indications disappear. It does what salves and lotions can never do—it goes to the very root of the trouble by reaching the blood. Your skin becomes clear and you soon feel the vigor of the return of perfect health. S. S. S. is purely vegetable. You can get it at any druggist's, but you must take S. S. S. Let us tell you about blood diseases. Write for book of facts, "What the Mirror Tells." If yours is a long standing case, write for expert advice to S. S. S. Co., Atlanta, Ga.
