

ASHLAND AND VICINITY

The decision of the commercial club committee as to the feasibility of removing the Oregon building at San Francisco to local parks is adverse to the movement, inasmuch as the Chautauque association is not disposed to co-operate in the project unless the structure is re-erected on assembly grounds, whereas the ideal environment is within the enlarged park area. A suggestion will be made to the Southern Pacific, however, to the effect that the railroad undertake the removal job, using the building for a new depot and an exhibit center on a colossal scale.

Among excursionists to San Francisco the last of the week were Mrs. E. E. Miller and her brother, T. P. Horton, Mrs. Louis Schwein, Earl Hosler and wife, Harley Holmes, the busiest boy in town the past summer and who has earned enough money at odd jobs to take the outing, turned the tables on his dad, Hosea, by inviting pater to go along with him to see the sights of the exposition, father being willing. A. E. McFarland has also gone and will visit his daughter, Mrs. A. J. Kennedy, residing at 450 Thornton avenue, San Francisco.

Johnny Saunders, son of Mr. and Mrs. Stuart Saunders, accidentally shot himself in the leg last Saturday while handling a revolver.

The high school football game at Grants Pass Saturday was won by Ashland 60 to 0. The next game in the series will be between Ashland and Medford, in the latter city, November 13, with a battle royal between the same teams on home grounds Thanksgiving day.

Oliver Shipley, who has been living on the G. S. Butler place across Bear Creek, leaves this week with his family for the old home surroundings in the vicinity of Anderson, Indiana, to which market he personally conducted 300 fat hogs of his own raising.

City Attorney Moore is receiving a visit from his brother, C. A. Moore, of Baker, also an attorney, who is accompanied by his wife, and they are on their return home from a trip to the San Francisco exposition.

Bert R. Greer, of the Tidings, attended the State Editorial Association gathering at Salem last week and addressed the newspaper men on "Scenic Oregon."

R. B. Bryant, well known throughout the county, was married at Jacksonville last Wednesday to a Mrs. Horton of Los Angeles. The newlyweds will reside here. Bryant and a son of his have been ranching on an extensive scale in the vicinity of Montague.

C. E. Johnson has reopened a shoe shop on Fourth street in the depot neighborhood.

A. B. Scofield, residing on North Main street, died recently in Portland to which city he had been taken after protracted illness. Interment was in that city.

The city street lighting system has resumed a normal status, due to a rise in creek waters. The resumption is a welcome one, all the more gratifying after a period of intermittent moonshine and shadow. From now on the customary service will probably not be interrupted.

Last Friday a drunken man on horseback, armed, threatened to shoot up the neighborhood in the vicinity of the Billings ranches on the western limits of the city. Mr. and Mrs. Ralph Billings were the special objects of the stranger's abusive threats, which in this instance were positively unrecalled for. Local police were appealed to who went to the scene, but in the meantime the man had gone further in the direction of Eagle Mills, and the officers declined to attempt an arrest unless somebody would volunteer to swear out a warrant, claiming no jurisdiction. Other residents of the near vicinity testify to the man's strange and abusive conduct, and are at a loss to account for not not being placed under arrest.

Jack Adams, Southern Pacific brakeman, has moved with his family to this city from Dunsmuir, having exchanged positions in the railroad service for a run out of Ashland. Workmen are placing the finishing touches on several of the extensive jobs in lithia park. The charging station structure has been completed and the necessary machinery and apparatus is being installed. The ditches on the pipe system have been left uncovered as a precautionary measure, pending a test of the conduits as to possible leakage in certain places. The falls on the canyon trail were turned on Sunday, and the effect resembles in a measure the beauties of "Mossbrae," near Shasta Springs. Other spring and fountain features almost duplicate nature in fanciful handwork. The mobilization of all these attractions afford a symposium of both natural and artificial delights.

J. J. Hembree, of Lafayette, in old Yamhill county, is here with his son to try the benefits of hot mineral baths for a persistent rheumatic trouble with which the latter is afflicted. He is disappointed to find that the institutions affording such baths are closed for the season. Mr.

Freckles and His Friends

Hembree is an old time printer, and has "served time" on the Oregonian and other city dailies.

Some time ago the D. R. Tallman family, who had been occupying the Beaver-Yockey tract of 30 acres east of town, left for California, accompanied by Mrs. Farmer and Miss Cline, mother and aunt respectively of Mrs. Tallman. The two latter have returned to Ashland and are located permanently at 565 Allison street. Tallman will also return as soon as arrangements can be made, he not having found the outlook in the Golden state near Sausalito so inviting as anticipated.

It appears that we have a number of embryo detectives in our midst, graduates of schools of the correspondence order. Upon his application for a license to practice the sleuth art in Oregon, the secretary of state has notified M. A. Settles, of Ashland, that no such permits are available. Settles claims to be a graduate of the National Detective agency of Chicago, and wishes to extend the scope of his operations, inasmuch as the local field is already pretty well occupied in this respect. He claims to have already done detective work in this vicinity on important cases.

Notwithstanding the dull times, H. G. Enders has availed an opportunity of adding to his realty holdings by purchasing the Rhodes residence property at the intersection of First avenue and Hargardine street, rated at \$3500.

The Skikyou county supervisors have turned down the application of Fred Teel for a liquor license. The petitioner resides near the state boundary line, south of Ashland, and his intent evidently was to install a saloon and cater to the Oregon trade in dry territory.

Canines are catching onto the merits of local bubbling fountains, and quite a number are turning the trick of quenching their thirst by lapping our unrivaled water supply without even hitting the bubble. The water committee of the council is watching this problem in order that every dog may have its day in patronizing the public drinking receptacles.

silver. Between \$20 and \$30 was gathered up. More may have been scattered about by the force of the blast. No idea can be had as to who placed the money there, nor how much had been buried or when. No receptacle was visible.
