

MEDFORD HOPES HIGH FOR GAME WITH ASHLAND

The final scrimmage before the Ashland game was gone through by the local football squad in a rather encouraging manner. For the first time in a month two full teams were on the field, and this alone leads the fans to believe that the new-born aggressive spirit has come to stay. The team as a whole is in good condition, if Quarterback Torney can keep the old fight going all the time.

Ashland will know that she has been in a game in spite of the fact that Medford will be minus the services of three regulars, namely, Brandon, Calhoun and Strang. Rawlings, a second string lineman, has shown so well the last few nights that in all probability he will replace one of the regular forwards. In the absence of Brandon either Torney or Narreagan will do the kicking.

Everett May, assistant coach of the famous O. A. C. team, which defeated the Michigan Aggies, has been secured as referee. May played on the O. A. C. team for four years, was captain two years and was selected as All-Northwest tackle for three years. Seely Hall of Medford will act as umpire and Ray Sayle of Ashland as head lineman.

Medford will probably line up as follows: Thomas, right half; Wallace, fullback; Seely, left half; Gentry, left end; Young, right end; Lundberg, left tackle; Rawlings or Narreagan, right tackle; Normile, left guard; Mitchell, right guard; Stinson, center.

R. R. P. S. LOSSES IN PLEA FOR ROGUE WATER

SALEM, Ore., Nov. 11.—W. B. Sherman of Grants Pass, Ore., was today granted the right by the state engineer's office, to appropriate one thousand feet of the waters of Rogue river at Hell Gate for the development of an irrigation and power project costing an estimated \$200,000. The project calls for the construction of a dam twenty-two feet high, 350 feet long at the top and 100 feet long at the bottom, which besides forming the reservoir will develop 2500 horse power for light and power and the operation of irrigation machinery.

The Rogue River Public Service Corporation and C. E. Seleck had also filed applications for the right, but Sherman had the advantage of a prior filing.

NO ONE BLAMED FOR ACCIDENTAL DEATH OF TURPIN

The funeral of George C. Turpin, formerly of Medford, who was struck and instantly killed near Merlin on Tuesday by special freight train No. 2591 on the Southern Pacific, was held at Grants Pass Wednesday, interment being in the Granite Hill cemetery.

The deceased was a blacksmith by trade and had worked in many of the shops in southern Oregon. The accident occurred at a curve two miles south of Merlin at the Country Club orchard tracts. Engineer F. L. Johnson and Fireman W. J. Kanny of Roseburg, who were on the head engine of the three pulling the heavy freight, declared at the coroner's inquest held at Grants Pass that, although the whistle was blown, Turpin paid no attention to it. The brakes were set, but it was too late to stop the heavy train, which rushed down upon Turpin, who was then in the center of the track. By the time the train could be stopped the engine and fifteen cars had passed over him, and the body was badly mangled, the head being crushed and every long bone in the body broken. Portions of the remains were scattered along the tracks for some distance, and it was evident that death came as soon as the engine hit him.

Turpin was quite deaf and evidently did not hear the signals of the nearing train. He left Grants Pass Tuesday forenoon afoot, going north. He had lately been at Medford visiting his brother, leaving last Thursday, though it was his announced intention on leaving to go to Willow Springs to mine for the winter. He evidently changed this intention, as he came on to Grants Pass, leaving there for Eugene, where he has spent most of his time during the past two or three years.

Coroner Hall had the remains brought to Grants Pass, a jury was empaneled and an inquest held. The jury was composed of Messrs. P. B. Herman, W. A. Paddock, Jos. Shaska, Frank Meischen, D. S. Mussenell and W. H. Kalin. Their verdict held that no one was responsible for the accident.

Brothers of the dead man testified to the fact that George was very deaf.

POSIES ON HER ANKLES—IT'S THE LATEST STYLE

Shorter skirts, Paris rules; so the eastern faddists are finding many things to cover the space that intervenes between the skirt hem and the floor. Dorothy Newell thought of this one. "We wear corsage at the waist; why not bouquets at the ankle?" pondered Dorothy, and, with Dorothy, to ponder is to act. They say all the swell florists in New York are taking lessons in how to kneel—with grace. Roses, Sweet peas and the smaller chrysanthemums are the favorite ankle adornments.

at times, it being almost impossible to make him hear at all.

Turpin was 51 years of age and was a native of Oregon, having been born in Polk county. He is survived by three brothers, J. P. and Richard Turpin of Medford, and Frank Turpin of San Francisco. He also leaves a sister in California.

STANDARD OIL RUSHES PETROL TO WAR ZONE

RICHMOND, Cal., Nov. 11.—An express train with an armed guard

and carrying 750,000 gallons of petrol to fill war orders will leave here for New York every twenty-four hours until the Panama canal is reopened for traffic, according to an announcement made here today by officials of the Standard Oil company. The first train left today over the Santa Fe, with the right of way over all other traffic, orders to make no stops except for fuel and water and with a time limit for the trip of 68 hours.

CAR OF COMICE PEARSGROSS \$1926 BOSC GROSS \$1838

The Rogue River Fruit & Produce association has closed up its entire pear deal for the season, with the exception of Winter Nells, all other varieties having been sold, paid for and accounted for to the grower. The prices on the whole have been very satisfactory, both as to high prices for individual cars and as to general averages. Carload lots of Bartlett's have been sold, delivered and paid for at \$1.50 per box f. o. b. Medford; carload lots of Howells at \$1.75 f. o. b. Medford. The highest sale for a single car was \$1,926.55 gross. This was for Comice pears. The next highest sale was \$1,838.50 gross, which was for Bosc pears. While it is not claimed that these are record sales for Rogue river pears this season, the management has not up to date heard of any higher sales. Another car of mixed Bosc and Comice grossed \$1674.

One grower has received for 180 half boxes of Bosc, all freight, refrigeration and selling charges of every nature out, \$2.11 per half box, or at the rate of \$4.22 per full box. Another grower has brought \$2.40 per box and \$1.50 per half box f. o. b. Medford, and Comice pears \$1.82 per half box f. o. b. Medford. Winter Nells, with the exception of one car which is now bound for Europe, have all been held in cold storage until within the last week.

Two more cars of Nells have recently been shipped, and the balance will be held for later shipment. The temperature at which these pears have been held has been an average of between 32 and 33 degrees, as shown by weekly thermograph records kept on file in the association office.

The apple deal up to date has been

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; else runs out of the eye caused by catarrh, which is nothing but an inflamed condition of the mucous membrane. We will give you \$100.00 for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

extremely satisfactory. Extra fancy Newtowns have brought in carload lots \$1.95 f. o. b. Medford; extra fancy Spitzenbergs \$1.75, fancy \$1.50 and "C" grade \$1.15, all f. o. b. Medford.

Approximately thirty cars of apples have already been shipped, and between forty and fifty more are either packed and stored here or being packed. These are principally Newtowns and will probably be held for the later market. The total tonnage of the association for the season will be approximately 100 cars. All of this fruit has been packed in Medford by one crew, which has been steadily employed since the first week in August, and practically all of it has been hauled loose in packing or large boxes to the cold storage plant for packing. The system of concentrating the packing at the cold storage warehouse has resulted in a busy, efficient, up-to-date manufacturing plant with an average weekly payroll for the past three months of approximately \$700, and with real refrigeration as part of the entire operation.

CARD OF THANKS
We wish to thank our many friends and neighbors for their kindness and sympathy at the death of our beloved husband, father and son, Geo. F. Merriman.
MRS. GEO. F. MERRIMAN AND FAMILY.

Household Economy
How to Have the Best Cough Remedy and Save \$2 by Making It at Home

Cough medicines, as a rule contain a large quantity of plain syrup. A pint of granulated sugar with 1/2 pint of warm water, stirred for 2 minutes, gives you as good syrup as money can buy.
Then get from your druggist 2 1/2 ounces Pinex (50 cents worth), pour into a pint bottle and fill the bottle with sugar syrup. This gives you, at a cost of only 54 cents, a full pint of really better cough syrup than you could buy ready made for \$2.50—a clear saving of nearly \$2. Full directions with Pinex. It keeps perfectly and tastes good.

It takes hold of the usual cough or chest cold at once and conquers it in 24 hours. Splendid for whooping cough, bronchitis and winter coughs.

It's truly astonishing how quickly it loosens the dry, hoarse or tight cough and heals and soothes the inflamed membranes in the case of a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent hoarse cough.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with guaiaicol, and has been used for generations to heal inflamed membranes of the throat and chest.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.
